12.25 ENVIRONMENT AND NATURAL RESOURCES POLICY

12.26 Section 1. Minnesota Statutes 2020, section 84.027, subdivision 14a, is amended to read:

12.27 Subd. 14a. **Permitting efficiency; public notice.** (a) It is the goal of the state that
 12.28 environmental and resource management permits be issued or denied within 90 days for
 12.29 tier 1 permits or 150 days for tier 2 permits following submission of a permit application.
 12.30 The commissioner of natural resources shall establish management systems designed to
 12.31 achieve the goal.

12.32 (b) The commissioner shall prepare an annual permitting efficiency report that includes
 12.33 statistics on meeting the goal in paragraph (a) and the criteria for tier 2 by permit categories.

13.1 The report is due ~~August~~ October 1 each year. For permit applications that have not met
13.2 the goal, the report must state the reasons for not meeting the goal. In stating the reasons
13.3 for not meeting the goal, the commissioner shall separately identify delays caused by the
13.4 responsiveness of the proposer, lack of staff, scientific or technical disagreements, or the
13.5 level of public engagement. The report must specify the number of days from initial
13.6 submission of the application to the day of determination that the application is complete.
13.7 The report must aggregate the data for the year and assess whether program or system
13.8 changes are necessary to achieve the goal. The report must be posted on the department's
13.9 website and submitted to the governor and the chairs and ranking minority members of the
13.10 house of representatives and senate committees having jurisdiction over natural resources
13.11 policy and finance.

13.12 (c) The commissioner shall allow electronic submission of environmental review and
13.13 permit documents to the department.

13.14 (d) Within 30 business days of application for a permit subject to paragraph (a), the
13.15 commissioner of natural resources shall notify the permit applicant, in writing, whether the
13.16 application is complete or incomplete. If the commissioner determines that an application
13.17 is incomplete, the notice to the applicant must enumerate all deficiencies, citing specific
13.18 provisions of the applicable rules and statutes, and advise the applicant on how the
13.19 deficiencies can be remedied. If the commissioner determines that the application is complete,
13.20 the notice must confirm the application's tier 1 or tier 2 permit status. If the commissioner
13.21 believes that a complete application for a tier 2 construction permit cannot be issued within
13.22 the 150-day goal, the commissioner must provide notice to the applicant with the
13.23 commissioner's notice that the application is complete and, upon request of the applicant,
13.24 provide the permit applicant with a schedule estimating when the agency will begin drafting
13.25 the permit and issue the public notice of the draft permit. This paragraph does not apply to
13.26 an application for a permit that is subject to a grant or loan agreement under chapter 446A.

13.27 (e) When public notice of a draft individual tier 2 permit is required, the commissioner
13.28 must provide the applicant a draft permit for review by the applicant within 30 days after
13.29 determining the proposal conforms to all federal and state laws and rules, unless the permit
13.30 applicant and the commissioner mutually agree to a different date. The commissioner must
13.31 consider all comments submitted by the applicant before issuing the permit.

14.1 Sec. 2. Minnesota Statutes 2020, section 84.027, is amended by adding a subdivision to
14.2 read:

14.6 or similar pronouncement if the guideline, bulletin, criterion, manual standard, interpretive
14.7 statement, policy plan, or similar pronouncement has not been adopted according to the
14.8 rulemaking process provided under chapter 14. If an unadopted rule is challenged under
14.9 section 14.381, the commissioner must cease enforcement of the unadopted rule and
14.10 overcome a presumption that the unadopted rule must be adopted according to the rulemaking
14.11 process provided under chapter 14.

14.12 Sec. 3. Minnesota Statutes 2020, section 84.788, subdivision 5, is amended to read:

14.26 for registration to the dealer at the point of sale. The dealer shall issue a dealer temporary
14.27 21-day registration permit to each purchaser who applies to the dealer for registration. The
14.28 temporary permit must contain the dealer's identification number and phone number. Each
14.29 retail dealer shall submit completed registration and fees to the deputy registrar at least once
14.30 a week. No fee may be charged by a dealer to a purchaser for providing the temporary
14.31 permit.

15.1 (c) Upon receipt of the application and the appropriate fee, the commissioner or deputy
 15.2 registrar shall issue to the applicant, or provide to the dealer, an assigned registration number
 15.3 or a commissioner or deputy registrar temporary 21-day permit. The registration number
 15.4 must be printed on a registration decal issued by the commissioner or deputy registrar. Once
 15.5 issued, the registration ~~number~~ decal must be affixed to the snowmobile in a clearly visible
 15.6 and permanent manner for enforcement purposes ~~as the commissioner of natural resources~~
 15.7 ~~shall prescribe~~ according to subdivision 3b. A dealer subject to paragraph (b) shall provide

28.21 Subd. 2a. **Acquiring fish.** (a) A private fish hatchery may not obtain fish outside of the
 28.22 state unless the fish or the source of the fish are approved by the commissioner. The
 28.23 commissioner may apply more stringent requirements to fish or a source of fish from outside
 28.24 the state than are applied to fish and sources of fish from within the state. The commissioner
 28.25 must either approve or deny the acquisition within 30 days after receiving a written request
 28.26 for approval. ~~Minnows acquired must be processed and not released into public waters,~~
 28.27 ~~except as provided in section 97C.515, subdivision 4.~~ A request may be for annual
 28.28 acquisition.

29.8 and in the Mississippi River downstream of St. Anthony Falls.

29.9 Sec. 30. Minnesota Statutes 2020, section 97C.515, subdivision 2, is amended to read:

29.10 Subd. 2. **Permit for ~~transportation~~ importation.** (a) A person may ~~transport~~ import
29.11 live minnows ~~through~~ into the state with a permit from the commissioner. ~~The permit must~~
29.12 ~~state the name and address of the person, the number and species of minnows, the point of~~
29.13 ~~entry into the state, the destination, and the route through the state. The permit is not valid~~
29.14 ~~for more than 12 hours after it is issued. A person must not import minnows into the state~~
29.15 except as provided in this section.

29.16 ~~(b) Minnows transported under this subdivision must be in a tagged container. The tag~~
29.17 ~~number must correspond with tag numbers listed on the minnow transportation permit.~~

29.18 ~~(c) The commissioner may require the person transporting minnow species found on~~
29.19 ~~the official list of viral hemorrhagic septicemia susceptible species published by the United~~
29.20 ~~States Department of Agriculture, Animal and Plant Health Inspection Services, to provide~~

29.27 (c) Minnows must be certified free of viral hemorrhagic septicemia, infectious
29.28 hematopoietic necrosis, infectious pancreatic necrosis, spring viremia of carp virus, fathead
29.29 minnow nidovirus, and Heterosporis within the past 12 months.

29.30 (d) Minnows must originate from a biosecure facility that has tested negative for invasive
29.31 species in the past 12 months.

30.1 (e) Only a person that holds a minnow dealer's license issued under section 97C.501,
 30.2 subdivision 2, may obtain a permit to import minnows.

30.3 (f) The following information must be available to the commissioner upon request for
 30.4 each load of imported minnows:

30.5 (1) the date minnows were imported;

30.6 (2) the number of pounds or gallons imported;

 30.10 (a) to (f) are met.

30.11 Sec. 31. Minnesota Statutes 2020, section 103G.201, is amended to read:

30.12 **103G.201 PUBLIC WATERS INVENTORY.**

30.13 (a) The commissioner ~~shall~~ must maintain a public waters inventory map of each county
 30.14 that shows the waters of this state that are designated as public waters under the public
 30.15 waters inventory and classification procedures prescribed under Laws 1979, chapter 199,
 30.16 and ~~shall~~ must provide access to a copy of the maps. As county public waters inventory
 30.17 maps are revised according to this section, the commissioner ~~shall~~ must send a notification
 30.18 or a copy of the maps to the auditor of each affected county.

30.19 (b) The commissioner is authorized to revise the map of public waters established under
 30.20 Laws 1979, chapter 199, to reclassify those types 3, 4, and 5 wetlands previously identified
 30.21 as public waters wetlands under Laws 1979, chapter 199, as public waters or as wetlands
 30.22 under section 103G.005, subdivision 19. The commissioner may only reclassify public
 30.23 waters wetlands as public waters if:

30.24 (1) they are assigned a shoreland management classification by the commissioner under
 30.25 sections 103F.201 to 103F.221;

30.26 (2) they are classified as lacustrine wetlands or deepwater habitats according to
 30.27 Classification of Wetlands and Deepwater Habitats of the United States (Cowardin, et al.,
 30.28 1979 edition); or

30.29 (3) the state or federal government has become titleholder to any of the beds or shores
 30.30 of the public waters wetlands, subsequent to the preparation of the public waters inventory
 30.31 map filed with the auditor of the county, pursuant to paragraph (a), and the responsible state

31.1 or federal agency declares that the water is necessary for the purposes of the public
31.2 ownership.

31.3 (c) The commissioner must provide notice of ~~the~~ a reclassification under paragraph (b)
31.4 or a revision under paragraph (e) to the local government unit, the county board, the
31.5 watershed district, if one exists for the area, and the soil and water conservation district.
31.6 Within 60 days of receiving notice from the commissioner, a party required to receive the
31.7 notice may provide a resolution stating objections to the reclassification or revision. If the
31.8 commissioner receives an objection from a party required to receive the notice, the
31.9 reclassification or revision is not effective. If the commissioner does not receive an objection
31.10 from a party required to receive the notice, the reclassification of a wetland under paragraph
31.11 (b) or revision under paragraph (e) is effective 60 days after the notice is received by all of
31.12 the parties.

31.13 (d) The commissioner ~~shall~~ must give priority to the reclassification of public waters
31.14 wetlands that are or have the potential to be affected by public works projects.

31.15 (e) The commissioner may revise the public waters inventory map of each county:

31.16 (1) to reflect the changes authorized in paragraph (b); and

31.17 (2) as needed, to:

31.18 (i) correct errors in the original inventory;

31.19 (ii) add or subtract trout stream tributaries within sections that contain a designated trout
31.20 stream following written notice to the landowner;

31.21 (iii) add depleted quarries, and sand and gravel pits, when the body of water exceeds 50
31.22 acres and the shoreland has been zoned for residential development; and

31.23 (iv) add or subtract public waters that have been created or eliminated as a requirement
31.24 of a permit authorized by the commissioner under section 103G.245.

31.25 Sec. 32. Minnesota Statutes 2020, section 103G.211, is amended to read:

31.26 **103G.211 DRAINING PUBLIC WATERS PROHIBITED WITHOUT**
31.27 **REPLACEMENT.**

31.28 (a) Except as provided in sections 103G.221 to 103G.235, public waters may not be
31.29 drained, and a permit authorizing drainage of public waters may not be issued, unless the
31.30 public waters to be drained are replaced by public waters that will have equal or greater
31.31 public value.

32.1 (b) Nothing in this section shall be construed to prevent the commissioner from issuing
 32.2 or amending a water-use permit for appropriation from groundwater where:

32.3 (1) the application is for a new groundwater well or to increase appropriation amounts
 32.4 under an existing permit;

32.5 (2) the applicant is a municipality wholly or partially located within a five-mile radius
 32.6 of White Bear Lake; and

32.7 (3) the amount of water to be appropriated under the proposal is consistent with the
 32.8 amount anticipated to be needed by the applicant each year according to a water supply
 32.9 plan approved by the commissioner under section 103G.291 before 2021.

32.10 (c) Paragraph (b) and this paragraph expire January 1, 2041.

32.11 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 32.12 applies to applications for new or modified permits filed on or after that date.

32.13 Sec. 33. Minnesota Statutes 2020, section 103G.223, is amended to read:

32.14 **103G.223 CALCAREOUS FENS.**

32.15 (a) Calcareous fens, as identified by the commissioner by written order published in the
 32.16 State Register, may not be filled, drained, or otherwise degraded, wholly or partially, by
 32.17 any activity, unless the commissioner, under an approved management plan, decides some
 32.18 alteration is necessary or as provided in paragraph (b). Identifications made by the
 32.19 commissioner are not subject to the rulemaking provisions of chapter 14 and section 14.386
 32.20 does not apply.

32.21 (b) The commissioner may allow water appropriations that result in temporary reductions
 32.22 in groundwater resources on a seasonal basis under an approved calcareous fen management
 32.23 plan.

32.24 (c) If the commissioner determines that a water appropriation permit cannot be issued
 32.25 or renewed because of this section, the commissioner must, within one year of the date of
 32.26 denial and at no cost to the applicant, provide the applicant with a groundwater and surface
 32.27 water hydrologic evaluation that demonstrates by a preponderance of the evidence the basis
 32.28 for that conclusion.

32.29 (d) An applicant whose permit is denied under this section may file a written request
 32.30 with the commissioner to designate a mutually agreed upon third-party expert to review the
 32.31 evaluation provided under paragraph (c) at no cost to the applicant and to make
 32.32 recommendations to the commissioner about whether the permit should be issued. The third

33.1 party expert must agree to provide the commissioner and applicant with the expert's
33.2 recommendations within 90 days of agreeing to review the evaluation.

33.3 (e) A permit applicant may file for a contested case hearing under chapter 14 within 30
33.4 days of the later of the following:

33.5 (1) the date by which the hydrologic evaluation was required to have been provided to
33.6 the applicant under paragraph (c);

33.7 (2) receiving the recommendations of the third party who is reviewing the evaluation
33.8 under paragraph (d); or

33.9 (3) determining that no mutually agreed upon third-party expert can be found.

33.10 (f) Any permit applicant who has had a water appropriation permit previously denied
33.11 under this section may resubmit a permit application under this section and is entitled to all
33.12 rights and reviews available under this section.

33.13 Sec. 34. Minnesota Statutes 2021 Supplement, section 103G.271, subdivision 4a, is
33.14 amended to read:

33.15 Subd. 4a. **Mt. Simon-Hinckley aquifer.** The commissioner may not issue new water-use
33.16 permits that will appropriate water from the Mt. Simon-Hinckley aquifer unless:

33.17 (1) the appropriation is for potable water use, there are no feasible or practical alternatives
33.18 to this source, and a water conservation plan is incorporated with the permit; or

33.19 (2) the appropriation is for less than 4,000,000 gallons per year and is to facilitate the
33.20 growth of trees.

33.21 Sec. 35. Minnesota Statutes 2020, section 103G.271, subdivision 7, is amended to read:

33.22 Subd. 7. **Transferring permit.** (a) A water-use permit may be transferred to a successive
33.23 owner of real property if the permittee conveys the real property where the source of water
33.24 is located. The new owner must notify the commissioner immediately after the conveyance
33.25 and request transfer of the permit. The commissioner must not deny the transfer of a permit
33.26 if the permittee is in compliance with all permit conditions and the permit meets the
33.27 requirements of sections 103G.255 to 103G.301.

33.28 (b) When transferring a permit, the commissioner must not require additional conditions
33.29 on the permit, reduce the appropriation, reduce the term, or require any testing.

34.1 Sec. 36. Minnesota Statutes 2020, section 103G.271, is amended by adding a subdivision
34.2 to read:

34.3 Subd. 8. **Management plans; effect on land values.** Before a management plan for
34.4 appropriating water is prepared, the commissioner must provide estimates of the impact of
34.5 any new restriction or policy on land values in the affected area. Strategies to address adverse
34.6 impacts to land values must be included in the plan.

34.7 Sec. 37. Minnesota Statutes 2020, section 103G.285, is amended by adding a subdivision
34.8 to read:

34.9 Subd. 7. **Application.** (a) Nothing in this section shall be construed to prevent the
34.10 commissioner from issuing or amending a water-use permit for appropriation from
34.11 groundwater where:

34.12 (1) the application is for a new groundwater well or to increase appropriation amounts
34.13 under an existing permit;

34.14 (2) the applicant is a municipality wholly or partially located within a five-mile radius
34.15 of White Bear Lake; and

34.16 (3) the amount of water to be appropriated under the proposal is consistent with the
34.17 amount anticipated to be needed by the applicant each year according to a water supply
34.18 plan approved by the commissioner under section 103G.291 before 2021.

34.19 (b) This subdivision expires January 1, 2041.

34.20 **EFFECTIVE DATE.** This section is effective the day following final enactment and
34.21 applies to applications for new or modified permits filed on or after that date.

34.22 Sec. 38. Minnesota Statutes 2020, section 103G.287, subdivision 4, is amended to read:

34.23 Subd. 4. **Groundwater management areas.** (a) The commissioner may designate
34.24 groundwater management areas and limit total annual water appropriations and uses within
34.25 a designated area to ensure sustainable use of groundwater that protects ecosystems, water
34.26 quality, and the ability of future generations to meet their own needs. Water appropriations
34.27 and uses within a designated management area must be consistent with a groundwater
34.28 management area plan approved by the commissioner that addresses water conservation
34.29 requirements and water allocation priorities established in section 103G.261. During
34.30 development of a groundwater management area plan, the commissioner and employees
34.31 and agents of the department may disseminate information related to the timing, location,
34.32 and agendas of meetings related to the plan, but must otherwise limit public information

35.1 related to the groundwater management area plan to direct factual responses to public and
35.2 media inquiries. At least 30 days prior to implementing or modifying a groundwater
35.3 management area plan under this subdivision, the commissioner shall consult with the
35.4 advisory team established in paragraph (c).

35.5 (b) Notwithstanding section 103G.271, subdivision 1, paragraph (b), and Minnesota
35.6 Rules, within designated groundwater management areas, the commissioner may require
35.7 general permits as specified in section 103G.271, subdivision 1, paragraph (c), for water
35.8 users using less than 10,000 gallons per day or 1,000,000 gallons per year and water suppliers
35.9 serving less than 25 persons for domestic purposes. The commissioner may waive the
35.10 requirements under section 103G.281 for general permits issued under this paragraph, and
35.11 the fee specified in section 103G.301, subdivision 2, paragraph (c), does not apply to general
35.12 permits issued under this paragraph.

35.13 (c) When designating a groundwater management area, the commissioner shall assemble
35.14 an advisory team to assist in developing a groundwater management area plan for the area.
35.15 The advisory team members shall be selected from public and private entities that have an
35.16 interest in the water resources affected by the groundwater management area. A majority
35.17 of the advisory team members shall be public and private entities that currently hold water-use
35.18 permits for water appropriations from the affected water resources. The commissioner shall
35.19 consult with the League of Minnesota Cities, the Association of Minnesota Counties, the
35.20 Minnesota Association of Watershed Districts, and the Minnesota Association of Townships
35.21 in appointing the local government representatives to the advisory team. The advisory team
35.22 may also include representatives from the University of Minnesota, the Minnesota State
35.23 Colleges and Universities, other institutions of higher learning in Minnesota, political
35.24 subdivisions with jurisdiction over water issues, nonprofits with expertise in water, and
35.25 federal agencies.

35.26 (d) Before designating a groundwater management area, the commissioner must provide
35.27 estimates of the impact of any new restriction or policy on land values in the affected area.
35.28 Strategies to address adverse impacts to land values must be included in any plan.

35.29 Sec. 39. Minnesota Statutes 2020, section 103G.287, subdivision 5, is amended to read:

35.30 Subd. 5. **Sustainability standard.** (a) The commissioner may issue water-use permits
35.31 for appropriation from groundwater only if the commissioner determines that the groundwater
35.32 use is sustainable to supply the needs of future generations and the proposed use will not
35.33 harm ecosystems, degrade water, or reduce water levels beyond the reach of public water
35.34 supply and private domestic wells constructed according to Minnesota Rules, chapter 4725.

36.1 (b) For the purposes of this subdivision and subdivision 4, "sustainable" means a change
36.2 in hydrologic regime of 20 percent or less relative to the August median stream flow.

36.3 Sec. 40. Minnesota Statutes 2020, section 103G.287, is amended by adding a subdivision
36.4 to read:

36.5 Subd. 6. **Application.** (a) Nothing in this section shall be construed to prevent the
36.6 commissioner from issuing or amending a water-use permit for appropriation from
36.7 groundwater where:

36.8 (1) the application is for a new groundwater well or to increase appropriation amounts
36.9 under an existing permit;

36.10 (2) the applicant is a municipality wholly or partially located within a five-mile radius
36.11 of White Bear Lake; and

36.12 (3) the amount of water to be appropriated under the proposal is consistent with the
36.13 amount anticipated to be needed by the applicant each year according to a water supply
36.14 plan approved by the commissioner under section 103G.291 before 2021.

36.15 (b) This subdivision expires January 1, 2041.

36.16 **EFFECTIVE DATE.** This section is effective the day following final enactment and
36.17 applies to applications for new or modified permits filed on or after that date.

36.18 Sec. 41. Minnesota Statutes 2020, section 103G.287, is amended by adding a subdivision
36.19 to read:

36.20 Subd. 7. **Issuance of certain permits.** (a) Notwithstanding any other provision of law,
36.21 the commissioner must issue a water-use permit for appropriation from groundwater that
36.22 meets the criteria of subdivision 6. Nothing in this subdivision shall be construed to prohibit
36.23 the commissioner from imposing conditions on the permit so long as the conditions do not
36.24 prevent the applicant from appropriating the amount of groundwater applied for.

36.25 (b) This subdivision expires January 1, 2041.

36.26 **EFFECTIVE DATE.** This section is effective the day following final enactment and
36.27 applies to applications for new or modified permits filed on or after that date.

37.1 Sec. 42. Minnesota Statutes 2020, section 103G.289, is amended to read:

37.2 **103G.289 WELL INTERFERENCE; ~~WELL SEALING VALIDATION;~~**

37.3 **CONTESTED CASE.**

37.4 (a) The commissioner shall not validate a claim for well interference claim if the affected
37.5 well has been sealed prior to the completion of the commissioner's investigation of the
37.6 complaint. If the well is sealed prior to completion of the investigation, the commissioner
37.7 must dismiss the complaint.

37.8 (b) When validating a claim for well interference, the commissioner must take into
37.9 account the condition of the affected well.

37.10 (c) Within 30 days after the commissioner's decision on a claim for well interference, a
37.11 party ordered by the commissioner to contribute to an affected well owner may petition for
37.12 a contested case hearing under sections 14.57 to 14.62. The commissioner must grant the
37.13 petitioner a contested case hearing on the commissioner's decision.

37.14 Sec. 43. Minnesota Statutes 2020, section 115.03, subdivision 1, is amended to read:

37.15 Subdivision 1. **Generally.** (a) The agency is hereby given and charged with the following
37.16 powers and duties:

37.17 ~~(a)~~ (1) to administer and enforce all laws relating to the pollution of any of the waters
37.18 of the state;

37.19 ~~(b)~~ (2) to investigate the extent, character, and effect of the pollution of the waters of
37.20 this state and to gather data and information necessary or desirable in the administration or
37.21 enforcement of pollution laws, and to make such classification of the waters of the state as
37.22 it may deem advisable;

37.23 ~~(c)~~ (3) to establish and alter such reasonable pollution standards for any waters of the
37.24 state in relation to the public use to which they are or may be put as it ~~shall~~ must deem
37.25 necessary for the purposes of this chapter and, with respect to the pollution of waters of the
37.26 state, chapter 116;

37.27 ~~(d)~~ (4) to encourage waste treatment, including advanced waste treatment, instead of
37.28 stream low-flow augmentation for dilution purposes to control and prevent pollution;

37.29 ~~(e)~~ (5) to adopt, issue, reissue, modify, deny, or revoke, enter into or enforce reasonable
37.30 orders, permits, variances, standards, rules, schedules of compliance, and stipulation
37.31 agreements, under such conditions as it may prescribe, in order to prevent, control or abate

38.1 water pollution, or for the installation or operation of disposal systems or parts thereof, or
38.2 for other equipment and facilities:

38.3 ~~(1)~~ (i) requiring the discontinuance of the discharge of sewage, industrial waste or other
38.4 wastes into any waters of the state resulting in pollution in excess of the applicable pollution
38.5 standard established under this chapter;

38.6 ~~(2)~~ (ii) prohibiting or directing the abatement of any discharge of sewage, industrial
38.7 waste, or other wastes, into any waters of the state or the deposit thereof or the discharge
38.8 into any municipal disposal system where the same is likely to get into any waters of the
38.9 state in violation of this chapter and, with respect to the pollution of waters of the state,
38.10 chapter 116, or standards or rules promulgated or permits issued pursuant thereto, and
38.11 specifying the schedule of compliance within which such prohibition or abatement must be
38.12 accomplished;

38.13 ~~(3)~~ (iii) prohibiting the storage of any liquid or solid substance or other pollutant in a
38.14 manner which does not reasonably assure proper retention against entry into any waters of
38.15 the state that would be likely to pollute any waters of the state;

38.16 ~~(4)~~ (iv) requiring the construction, installation, maintenance, and operation by any person
38.17 of any disposal system or any part thereof, or other equipment and facilities, or the
38.18 reconstruction, alteration, or enlargement of its existing disposal system or any part thereof,
38.19 or the adoption of other remedial measures to prevent, control or abate any discharge or
38.20 deposit of sewage, industrial waste or other wastes by any person;

38.21 ~~(5)~~ (v) establishing, and from time to time revising, standards of performance for new
38.22 sources taking into consideration, among other things, classes, types, sizes, and categories
38.23 of sources, processes, pollution control technology, cost of achieving such effluent reduction,
38.24 and any nonwater quality environmental impact and energy requirements. Said standards
38.25 of performance for new sources ~~shall~~ must encompass those standards for the control of the
38.26 discharge of pollutants which reflect the greatest degree of effluent reduction which the
38.27 agency determines to be achievable through application of the best available demonstrated
38.28 control technology, processes, operating methods, or other alternatives, including, where
38.29 practicable, a standard permitting no discharge of pollutants. New sources ~~shall~~ must
38.30 encompass buildings, structures, facilities, or installations from which there is or may be
38.31 the discharge of pollutants, the construction of which is commenced after the publication
38.32 by the agency of proposed rules prescribing a standard of performance which will be
38.33 applicable to such source. Notwithstanding any other provision of the law of this state, any
38.34 point source the construction of which is commenced after May 20, 1973, and which is so

39.1 constructed as to meet all applicable standards of performance for new sources ~~shall~~ must,
39.2 consistent with and subject to the provisions of section 306(d) of the Amendments of 1972
39.3 to the Federal Water Pollution Control Act, not be subject to any more stringent standard
39.4 of performance for new sources during a ten-year period beginning on the date of completion
39.5 of such construction or during the period of depreciation or amortization of such facility
39.6 for the purposes of section 167 or 169, or both, of the Federal Internal Revenue Code of
39.7 1954, whichever period ends first. Construction ~~shall~~ must encompass any placement,
39.8 assembly, or installation of facilities or equipment, including contractual obligations to
39.9 purchase such facilities or equipment, at the premises where such equipment will be used,
39.10 including preparation work at such premises;

39.11 ~~(6)~~ (vi) establishing and revising pretreatment standards to prevent or abate the discharge
39.12 of any pollutant into any publicly owned disposal system, which pollutant interferes with,
39.13 passes through, or otherwise is incompatible with such disposal system;

39.14 ~~(7)~~ (vii) requiring the owner or operator of any disposal system or any point source to
39.15 establish and maintain such records, make such reports, install, use, and maintain such
39.16 monitoring equipment or methods, including where appropriate biological monitoring
39.17 methods, sample such effluents in accordance with such methods, at such locations, at such
39.18 intervals, and in such a manner as the agency ~~shall~~ must prescribe, and providing such other
39.19 information as the agency may reasonably require;

39.20 ~~(8)~~ (viii) notwithstanding any other provision of this chapter, and with respect to the
39.21 pollution of waters of the state, chapter 116, requiring the achievement of more stringent
39.22 limitations than otherwise imposed by effluent limitations in order to meet any applicable
39.23 water quality standard by establishing new effluent limitations, based upon section 115.01,
39.24 subdivision 13, clause (b), including alternative effluent control strategies for any point
39.25 source or group of point sources to insure the integrity of water quality classifications,
39.26 whenever the agency determines that discharges of pollutants from such point source or
39.27 sources, with the application of effluent limitations required to comply with any standard
39.28 of best available technology, would interfere with the attainment or maintenance of the
39.29 water quality classification in a specific portion of the waters of the state. Prior to
39.30 establishment of any such effluent limitation, the agency ~~shall~~ must hold a public hearing
39.31 to determine the relationship of the economic and social costs of achieving such limitation
39.32 or limitations, including any economic or social dislocation in the affected community or
39.33 communities, to the social and economic benefits to be obtained and to determine whether
39.34 or not such effluent limitation can be implemented with available technology or other
39.35 alternative control strategies. If a person affected by such limitation demonstrates at such

40.1 hearing that, whether or not such technology or other alternative control strategies are
40.2 available, there is no reasonable relationship between the economic and social costs and
40.3 the benefits to be obtained, such limitation ~~shall~~ must not become effective and ~~shall~~ must
40.4 be adjusted as it applies to such person;

40.5 ~~(9)~~ (ix) modifying, in its discretion, any requirement or limitation based upon best
40.6 available technology with respect to any point source for which a permit application is filed
40.7 after July 1, 1977, upon a showing by the owner or operator of such point source satisfactory
40.8 to the agency that such modified requirements will represent the maximum use of technology
40.9 within the economic capability of the owner or operator and will result in reasonable further
40.10 progress toward the elimination of the discharge of pollutants; and

40.11 ~~(10)~~ (x) requiring that applicants for wastewater discharge permits evaluate in their
40.12 applications the potential reuses of the discharged wastewater;

40.13 ~~(f)~~ (6) to require to be submitted and to approve plans and specifications for disposal
40.14 systems or point sources, or any part thereof and to inspect the construction thereof for
40.15 compliance with the approved plans and specifications thereof;

40.16 ~~(g)~~ (7) to prescribe and alter rules, not inconsistent with law, for the conduct of the
40.17 agency and other matters within the scope of the powers granted to and imposed upon it by
40.18 this chapter and, with respect to pollution of waters of the state, in chapter 116, provided
40.19 that every rule affecting any other department or agency of the state or any person other
40.20 than a member or employee of the agency ~~shall~~ must be filed with the secretary of state;

40.21 ~~(h)~~ (8) to conduct such investigations, issue such notices, public and otherwise, and hold
40.22 such hearings as are necessary or which it may deem advisable for the discharge of its duties
40.23 under this chapter and, with respect to the pollution of waters of the state, under chapter
40.24 116, including, but not limited to, the issuance of permits, and to authorize any member,
40.25 employee, or agent appointed by it to conduct such investigations or, issue such notices and
40.26 hold such hearings;

40.27 ~~(i)~~ (9) for the purpose of water pollution control planning by the state and pursuant to
40.28 the Federal Water Pollution Control Act, as amended, to establish and revise planning areas,
40.29 adopt plans and programs and continuing planning processes, including, but not limited to,
40.30 basin plans and areawide waste treatment management plans, and to provide for the
40.31 implementation of any such plans by means of, including, but not limited to, standards, plan
40.32 elements, procedures for revision, intergovernmental cooperation, residual treatment process
40.33 waste controls, and needs inventory and ranking for construction of disposal systems;

41.1 ~~(j)~~ (10) to train water pollution control personnel; and charge ~~such fees therefor as are~~
 41.2 for the training as necessary to cover the agency's costs. The fees under this clause are
 41.3 subject to legislative approval under section 16A.1283. All such fees received shall must
 41.4 be paid into the state treasury and credited to the Pollution Control Agency training account;

41.5 ~~(k)~~ (11) to impose as additional conditions in permits to publicly owned disposal systems
 41.6 appropriate measures to insure compliance by industrial and other users with any pretreatment
 41.7 standard, including, but not limited to, those related to toxic pollutants, and any system of
 41.8 user charges ratably as is hereby required under state law or said Federal Water Pollution
 41.9 Control Act, as amended, or any regulations or guidelines promulgated thereunder;

41.10 ~~(l)~~ (12) to set a period not to exceed five years for the duration of any national pollutant
 41.11 discharge elimination system permit or not to exceed ten years for any permit issued as a
 41.12 state disposal system permit only;

41.13 ~~(m)~~ (13) to require each governmental subdivision identified as a permittee for a
 41.14 wastewater treatment works to evaluate in every odd-numbered year the condition of its
 41.15 existing system and identify future capital improvements that will be needed to attain or
 41.16 maintain compliance with a national pollutant discharge elimination system or state disposal
 41.17 system permit; and

41.18 ~~(n)~~ (14) to train subsurface sewage treatment system personnel, including persons who
 41.19 design, construct, install, inspect, service, and operate subsurface sewage treatment systems,
 41.20 and charge fees for the training as necessary to pay the agency's costs. The fees under this
 41.21 clause are subject to legislative approval under section 16A.1283. All fees received must
 41.22 be paid into the state treasury and credited to the agency's training account. Money in the
 41.23 account is appropriated to the agency to pay expenses related to training.

41.24 (b) The information required in paragraph (a), clause ~~(m)~~ (13), must be submitted in
 41.25 every odd-numbered year to the commissioner on a form provided by the commissioner.
 41.26 The commissioner ~~shall~~ must provide technical assistance if requested by the governmental
 41.27 subdivision.

41.28 (c) The powers and duties given the agency in this subdivision also apply to permits
 41.29 issued under chapter 114C.

47.6 substantially soiled, is infested with bedbugs, or poses a risk to worker health or equipment,
47.7 which should be disposed of through the existing solid waste system.

47.8 (aa) "Upholstery material" means all material, loose or attached, between the ticking
47.9 and the core of a mattress.

47.10 Subd. 2. **Mattress recycling council; required plan.** (a) Within 180 days after the
47.11 effective date of this section, producers must establish a mattress recycling council in the
47.12 state.

47.13 (b) Within the later of 180 days after the effective date of this section or 30 days after
47.14 becoming a producer thereafter, each producer or the producer's designee must join the
47.15 mattress recycling council.

47.16 (c) Within 365 days after the effective date of this section, the council must submit a
47.17 plan for approval by the commissioner to establish a statewide mattress stewardship program,
47.18 as described in this subdivision.

47.19 (d) At least once every five years after the plan identified in paragraph (c) is approved,
47.20 the mattress recycling council shall review the plan and determine whether amendments to
47.21 the plan are necessary. If the council determines amendments to the plan are necessary, it
47.22 shall amend the plan. If the council determines that no amendments to the plan are necessary,
47.23 it shall send a letter to the commissioner explaining that the council has reviewed the plan
47.24 and determined no revisions are needed. The commissioner may disapprove the council's
47.25 determination within 30 days of that determination if it concludes that the council cannot
47.26 implement the objectives of this chapter without amending the plan. If the commissioner
47.27 disapproves the determination, the commissioner shall explain, in writing, why amendments
47.28 to the plan are necessary to comply with this section, and the mattress recycling council
47.29 shall resubmit an amended plan. If the commissioner finds that the amended plan resubmitted
47.30 by the council does not comply with the requirements of paragraph (e), the mattress recycling
47.31 council shall not be deemed in compliance until the council submits an amended plan that
47.32 the commissioner finds complies with the requirements of paragraph (e).

47.33 (e) The mattress stewardship program plan submitted pursuant to this subdivision must,
47.34 in an economically efficient and practical manner:

48.1 (1) provide for a statewide network of convenient and accessible locations to receive
48.2 discarded mattresses at no charge to any person in the state with a discarded mattress that
48.3 was used and discarded in the state, including but not limited to participating covered entities
48.4 that accumulate and segregate a minimum of 100 recyclable mattresses for collection at one
48.5 time;

48.6 (2) may establish requirements for other minimum counts of accumulated mattresses
48.7 suitable to the operational constraints of covered entities' collection sites, and shall provide
48.8 for the transfer of collected recyclable mattresses from the premises of covered entities to
48.9 qualified processors;

48.10 (3) provide for end-of-life management of discarded mattresses collected according to
48.11 clauses (1) and (2) through negotiated agreements with public covered entities that accept
48.12 discarded mattresses at no charge to the public that pay the covered entity a fee for its
48.13 reasonable actual costs for the proper and cost-effective accepting, storing, transporting,
48.14 and handling of discarded mattresses for recycling or disposal. The council and any covered
48.15 entity are obligated to negotiate in good faith;

48.16 (4) provide for recycling of recyclable mattresses by a qualified processor;

48.17 (5) describe how the council will coordinate the program with existing consolidation,
48.18 transportation, and recycling programs for discarded mattresses;

48.19 (6) provide suitable storage containers at or make other mutually agreeable storage and
48.20 transport arrangements for covered entities for segregated, recyclable mattresses, at no cost
48.21 to the covered entity, provided the covered entity can accumulate and store at least 50
48.22 recyclable mattress, makes space available for the purpose, and imposes no fee for placement
48.23 of the storage container on the covered entity premises;

48.24 (7) provide that the council will conduct research as needed related to improving discarded
48.25 mattress collection, dismantling, and recycling operations, including pilot programs to test
48.26 new processes, methods, or equipment on a local, regional, or otherwise limited basis;

48.27 (8) include a mattress stewardship fee set in accordance with paragraph (f) that is
48.28 sufficient to cover but not exceed the costs of operating and administering the program;

48.29 (9) identify each producer and retailer participating in the program as a member of the
48.30 council participating in the program;

48.31 (10) describe the roles and responsibilities of producers and retailers participating in the
48.32 program;

48.33 (11) describe the mattress stewardship fee for the program and a proposed budget;

49.1 (12) describe the mattress stewardship fee collection procedures and how producers and
49.2 retailers are notified of the procedures;

49.3 (13) establish program performance goals for the first two years of the program and
49.4 annual diversion targets and recycling rates of mattresses based on estimated or actual sales
49.5 and estimated discarded mattresses;

49.6 (14) describe how the program will, to the extent economically efficient and practical,
49.7 achieve continuous meaningful improvement in the mattress diversion targets, mattress
49.8 collection rates, mattress recycling rates, mattress material recovery rates, and any other
49.9 approved performance goals of the program;

49.10 (15) identify proposed consolidation and recycling facilities to be used by the program;

49.11 (16) describe the action for implementing and achieving convenient, statewide access
49.12 to the program;

49.13 (17) detail how the program will promote recycling discarded mattresses consistent with
49.14 the state's solid waste management hierarchy;

49.15 (18) describe how the council will coordinate the program with existing consolidation,
49.16 transportation, and recycling programs for discarded mattresses;

49.17 (19) establish program performance goals for the material recovery rate from mattresses
49.18 collected for recycling and utilize these criteria when evaluating vendor performance;

49.19 (20) describe how the program will set and implement convenience goals and a timeline
49.20 for implementing and achieving convenient access to the program;

49.21 (21) identify program expenditure categories that will be reported each year in the annual
49.22 report;

49.23 (22) describe how the council will notify the commissioner in a timely manner of events
49.24 or circumstances that materially alter or disrupt program operations as approved in the
49.25 stewardship plan; and

49.26 (23) include a description of public education regarding the program.

49.27 (f) The council must set the amount of the mattress stewardship fee that is added to the
49.28 purchase price of a mattress at the point of sale. The council must establish and implement
49.29 a mattress stewardship fee structure that covers but does not exceed the costs of developing
49.30 the plan described in paragraph (b), operating and administering the program described in
49.31 paragraph (a), and maintaining a financial reserve sufficient to operate the program over
49.32 multiple years in a fiscally prudent and responsible manner. The council must set the mattress

50.1 stewardship fee as a flat rate and not as a percentage of the purchase price. The council must
50.2 maintain all records relating to the program for not less than three years.

50.3 (g) Under the program, recycling is preferred over any other disposal method for
50.4 mattresses, to the extent that recycling is economically efficient and practical.

50.5 (h) The commissioner must approve the plan for establishing the mattress stewardship
50.6 program or any amendment if the plan or amendment meets the requirements of paragraphs
50.7 (e) to (g). No later than 90 days after the council submits the plan or amendment according
50.8 to this section, the commissioner must make a determination whether to approve the plan
50.9 or amendment. Before making the determination, the commissioner must post the plan on
50.10 the agency's website and offer a 30-day public comment period on the plan. Before approving
50.11 or disapproving the plan or amendment, the commissioner may solicit public comments on
50.12 the plan or amendment in a manner determined by the commissioner. If the commissioner
50.13 disapproves the plan or amendment because the plan or amendment does not meet the
50.14 requirements of paragraphs (e) to (g), the commissioner must describe the reasons for the
50.15 disapproval in a notice of determination that the commissioner provides to the council. The
50.16 council must revise and resubmit the plan to the commissioner within 45 days, or prepare
50.17 an amended plan within 180 days, after receiving notice of the commissioner's disapproval.
50.18 Within 45 days after receiving the revised plan or amendment, the commissioner must
50.19 review and approve or disapprove the plan or amendment and provide a notice of
50.20 determination to the council. The council may resubmit a revised plan or amendment to the
50.21 commissioner for approval no more than twice. If the council fails to submit a plan or
50.22 amendment that is acceptable to the commissioner because it does not meet the requirements
50.23 of paragraphs (e) to (g), the commissioner must modify a submitted plan or amendment to
50.24 make it conform to the requirements of paragraphs (e) to (g) and approve it. Within 180
50.25 days after approval of a plan or amendment according to this paragraph, the council must
50.26 implement the mattress stewardship program. Regardless of when the program begins, the
50.27 program's fiscal year begins January 1.

50.28 (i) The council must submit any proposed substantial change to the program to the
50.29 commissioner for review and approval, but without resubmitting the plan to the commissioner
50.30 for approval. If the commissioner does not disapprove a proposed substantial change within
50.31 90 days of receiving notice of the proposed substantial change, the proposed substantial
50.32 change is deemed approved. For purposes of this paragraph, "substantial change" means:

50.33 (1) a change in the processing facilities to be used for a discarded mattress collected
50.34 under the program; or

51.1 (2) a material change to the system for collecting mattresses.

51.2 (j) The council must notify the commissioner of other material changes to the program
51.3 on an ongoing basis, without submitting the change to the commissioner for approval.

51.4 Material changes include but are not limited to a change in the composition, officers, or
51.5 contact information of the council.

51.6 (k) Within 90 days after the end of the program's second fiscal year, and every five years
51.7 thereafter, the council must submit updated program performance and convenience goals
51.8 and associated implementation timelines to the commissioner that are based on the experience
51.9 of the program during the first two years of the program, and every subsequent five-year
51.10 term for review and approval according to the procedure in paragraph (h).

51.11 (l) The council must notify the commissioner in a timely manner of any temporary
51.12 disruptions in the program as approved, and the council's planned response to the disruption.

51.13 Subd. 3. **Mattress stewardship fee review; prudent reserves.** (a) Within 90 days after
51.14 the end of the program's second fiscal year and every two years thereafter, the council must
51.15 propose a mattress stewardship fee for all mattresses sold in this state.

51.16 (b) The council may propose a change to the mattress stewardship fee more frequently
51.17 than once every two years if the council determines the change is needed to avoid funding
51.18 shortfalls or excesses for the mattress stewardship program.

51.19 (c) Any mattress stewardship fee proposed after the end of the program's second fiscal
51.20 year must be reviewed by an independent auditor to ensure that the fee does not exceed the
51.21 cost to fund the mattress stewardship program described in subdivision 2, paragraph (f),
51.22 and to maintain financial reserves sufficient to operate the program over multiple years in
51.23 a fiscally prudent and responsible manner. After the first three fiscal years of program
51.24 implementation, the mattress recycling organization shall not maintain total reserves
51.25 exceeding 75 percent of its annual operating expenses, consistent with the requirements of
51.26 the Financial Accounting Standards Board's Accounting Standards Update 2016-14,
51.27 Not-for-Profit Entities (Topic 958), and any future updates to that standard. The commissioner
51.28 may authorize the total reserves to be increased up to 100 percent of the organization's
51.29 annual operating expenses if the commissioner determines the increase is necessary to
51.30 implement the requirements of this section.

51.31 (d) Within 60 days after the council proposes a mattress stewardship fee, the auditor
51.32 must render an opinion to the commissioner as to whether the proposed mattress stewardship
51.33 fee is reasonable to achieve the goals set forth in this section. If the auditor concludes that
51.34 the mattress stewardship fee is reasonable, then the proposed mattress stewardship fee goes

52.1 into effect within 180 days. If the auditor concludes that the mattress stewardship fee is not
 52.2 reasonable, the auditor must provide the council with written notice explaining the auditor's
 52.3 opinion. Within 60 days after the council receives the auditor's opinion, the council may
 52.4 either propose a new mattress stewardship fee or provide written comments on the auditor's
 52.5 opinion. If the auditor concludes that the mattress stewardship fee is not reasonable, the
 52.6 commissioner must decide, based on the auditor's opinion and any comments provided by
 52.7 the council, whether to approve the proposed mattress stewardship fee.

52.8 (e) The auditor, selected by the council, must be approved by the commissioner. The
 52.9 cost of any work performed by the auditor under this paragraph must be paid by the mattress
 52.10 stewardship fee.

52.11 (f) Two years after the program is implemented and every five years thereafter, the
 52.12 council must cause a program audit to be conducted by an independent auditor. The audit
 52.13 must review the accuracy of the council's data concerning the program and provide any
 52.14 other information requested by the commissioner, consistent with the requirements of this
 52.15 section, provided the request does not require the disclosure of proprietary information or
 52.16 trade or business secrets. The council must pay for the audit. The council must maintain all
 52.17 records relating to the program for at least three years.

52.18 Subd. 4. **Annual report.** Not later than July 1 each year, the council must submit an
 52.19 annual report to the commissioner for the most recently completed calendar year. The council
 52.20 must post the annual report on the council's website. The commissioner must post a link to
 52.21 the annual report on the agency's website. The report must include:

52.22 (1) the tonnage and estimated number of mattresses collected under the program from
 52.23 participating covered entities;

52.24 (2) the tonnage and estimated number of mattresses diverted for recycling;

52.25 (3) the tonnage and estimated number of discarded mattresses for the reporting period
 52.26 as compiled by the participating covered entities and reported to the council;

52.27 (4) the weight of mattress materials recycled, as indicated by the weight of each of the
 52.28 commodities sold to secondary markets and reported by qualified processors to the council;

52.29 (5) the weight of mattress materials sent for disposal and reported by qualified processors
 52.30 to the council;

52.31 (6) a summary of the public education that supports the program and an evaluation of
 52.32 its effectiveness;

- 53.1 (7) an evaluation of the effectiveness of methods and processes used to achieve statewide
 53.2 convenience and accessibility performance goals of the program;
- 53.3 (8) recommendations for any changes to the program;
- 53.4 (9) total annual mattress sales and mattress stewardship fee revenues;
- 53.5 (10) an assessment of program performance for the reporting period compared to the
 53.6 program performance goals in the approved plan;
- 53.7 (11) an assessment of the effectiveness of different types of mattress collection and
 53.8 consolidation programs used throughout the state;
- 53.9 (12) annual program expenditures by program expenditure category;
- 53.10 (13) audited financial statements required by subdivision 3, paragraph (f); and
- 53.11 (14) other information consistent with this section and economically efficient and practical
 53.12 to provide, requested by the commissioner.

53.13 **Subd. 5. Charging mattress stewardship fee; retailer and producer**
 53.14 **participation.** Upon implementation of the mattress stewardship program, each manufacturer,
 53.15 renovator, retailer, or distributor that sells a mattress to a consumer or to an ultimate end
 53.16 user in the state must add the mattress stewardship fee to the purchase price for the mattress
 53.17 and must remit the mattress stewardship fee collected to the council. In each transaction,
 53.18 the mattress stewardship fee must appear on the invoice and may be accompanied by a brief
 53.19 description of the mattress stewardship fee. The council must determine the rules and
 53.20 procedures necessary to implement collection of the mattress stewardship fee in a fair,
 53.21 efficient, and lawful manner. Any producer or retailer who fails to participate in the program
 53.22 must not sell mattresses in this state.

53.23 **Subd. 6. Receipt of discarded mattresses.** Upon implementation of the mattress
 53.24 stewardship program and when the mattress stewardship fee goes into effect, a covered
 53.25 entity that participates in the program must not charge for the receipt of discarded mattresses
 53.26 that are discarded in this state, except that a person or entity may charge a fee for providing
 53.27 a pickup service, including residential or commercial pickup services. A covered entity may
 53.28 restrict the acceptance of mattresses by number or source.

53.29 **Subd. 7. Qualified processor.** (a) The council shall collect from each qualified recycler
 53.30 the name, address, telephone number, and location of all mattress recycling facilities under
 53.31 the direct control of the processor that may receive mattresses.

54.1 (b) The council's contract with each of its qualified processors must require that the
 54.2 processor:

54.3 (1) comply with the requirements of this section;

54.4 (2) comply with all applicable health, environmental, safety, and financial responsibility
 54.5 regulations;

54.6 (3) be licensed by all applicable governmental authorities; and

54.7 (4) possess commercial general liability insurance of not less than \$1,000,000 per
 54.8 occurrence.

54.9 (c) By March 1 of each year, each qualified processor shall submit an annual report to
 54.10 the council in a format prescribed by the council, indicating the name and address of the
 54.11 recycling facility, the fiscal year covered by the report, the quantity and weight of the
 54.12 mattresses processed at the facility, and the amount by weight of each category of material
 54.13 removed from discarded mattresses shipped to brokers, processors, manufacturers, solid
 54.14 waste facilities, or other destinations.

54.15 Subd. 8. **Consultation required.** The mattress recycling council must consult with
 54.16 stakeholders which may include retailers, collectors, recyclers, local governments, and
 54.17 consumers during the development of the plan and any amendment of the plan.

54.18 Subd. 9. **Plan availability.** All draft and approved stewardship plans shall be placed on
 54.19 the council and agency's websites for at least 30 days and made available at the agency's
 54.20 headquarters for public review and comment.

54.21 Subd. 10. **Data classification.** Data submitted to the council or agency under this section
 54.22 are trade secret, private, or nonpublic data under section 13.37. Trade secret, sales information
 54.23 as defined under section 13.37, and contracts submitted to the agency under this section are
 54.24 private or nonpublic data under section 13.37.

54.25 Subd. 11. **Regional collaboration.** In the event that another state implements a mattress
 54.26 recycling program, the council may collaborate with that state to conserve efforts and
 54.27 resources used in carrying out the mattress stewardship program, provided the collaboration
 54.28 is consistent with the requirements of this section.

54.29 Subd. 12. **Local government participation.** (a) Cities, counties, public agencies, or
 54.30 other political subdivisions may choose to participate in the stewardship program.

55.1 (b) Cities, counties, public agencies, or other political subdivisions are encouraged to
 55.2 work with producers and the council to assist in meeting program goals and obligations by
 55.3 providing education, outreach, or other strategies.

55.4 Subd. 13. **Producer and retailer participation.** A producer must join the council as
 55.5 required in subdivision 2, paragraph (b). A retailer or other person selling a mattress to the
 55.6 final consumer in the state must remit the mattress stewardship fee to the council for
 55.7 mattresses sold to consumers in the state. A producer may not sell or distribute for sale or
 55.8 use a mattress in the state if it has not joined the council. A retailer may not sell or distribute
 55.9 for use mattresses of a producer that has not joined the council, except for inventory acquired
 55.10 before the start date of the program or acquired during a time when the producer was
 55.11 participating in the council.

55.12 Subd. 14. **Prohibited uses.** Stewardship assessment funds must not be used for any
 55.13 penalties assessed under this section.

55.14 Subd. 15. **Duty to provide information.** Any producer, retailer, participating covered
 55.15 entity, or qualified processor must furnish to the agency any information which that person
 55.16 may have or may reasonably obtain that the agency requests for the sole purpose of
 55.17 determining compliance under this section.

55.18 **EFFECTIVE DATE.** This section is effective January 1, 2023.

55.19 Sec. 54. **[115A.571] CHEMICAL PLASTIC RECYCLING.**

55.20 Subdivision 1. **Chemical plastic recycling facility.** A chemical plastic recycling facility
 55.21 and chemical plastic recycling are subject to all applicable federal, state, and local laws,
 55.22 except chapters 115, 115A, and 116, and the rules adopted pursuant to those chapters.

55.23 Subd. 2. **Solid waste management exemption requirements.** (a) The solid waste
 55.24 management exemption in subdivision 1 does not apply:

55.25 (1) if any solid waste other than or in addition to a post-use polymer or residual amounts
 55.26 of organic material and incidental contaminants are treated, stored, processed, transferred,
 55.27 or disposed of at a chemical plastic recycling facility; or

55.28 (2) to management of post-use polymers at any location other than a chemical plastic
 55.29 recycling facility.

55.30 (b) To qualify for the solid waste management facility permit exemption in subdivision
 55.31 1, a chemical plastic recycling facility must only treat, store, or process post-use polymers
 55.32 in a fully enclosed building.

56.1 (c) The commissioner may enter and inspect any chemical plastic recycling facility to
 56.2 determine whether the storage of materials prior to chemical plastic recycling is a nuisance
 56.3 or poses a threat to human health or the environment. The commissioner may use the
 56.4 enforcement authority under section 116.072 and Minnesota Rules, chapter 7035, to require
 56.5 abatement of the nuisance or threat if found.

56.6 Subd. 3. **Duty to report.** The owner or operator of a chemical plastic recycling facility
 56.7 must submit an annual report to the commissioner in a form and manner prescribed by the
 56.8 commissioner that must include:

56.9 (1) the amount of post-use polymers accepted, stored, and managed at the facility;

56.10 (2) annual chemical plastic recycling throughput at the facility, including beginning and
 56.11 ending volumes stored in a calendar year;

56.12 (3) to the extent known, the source and county of origin of the post-use polymers and
 56.13 the amount and type of material collected from each source; and

56.14 (4) the amount, type, and destination of products and by-products produced through the
 56.15 chemical plastic recycling, such as what weight of post-use polymers received went to an
 56.16 end market, a broker, a processor, or a manufacturer or was managed as a waste.

56.17 Subd. 4. **Duty to provide information.** Any person must furnish to the commissioner
 56.18 any information that the person may have or may reasonably obtain that the commissioner
 56.19 requests for the purposes of determining compliance with statutes or rules pertaining to
 56.20 chemical plastic recycling.

56.21 Sec. 55. Minnesota Statutes 2020, section 115B.52, subdivision 4, is amended to read:

56.22 Subd. 4. **Reporting.** The commissioner of the Pollution Control Agency and the
 56.23 commissioner of natural resources must jointly submit:

56.24 (1) by April 1, 2019, an implementation plan detailing how the commissioners will:

56.25 (i) determine how the priorities in the settlement will be met and how the spending will
 56.26 move from the first priority to the second priority and the second priority to the third priority
 56.27 outlined in the settlement; and

56.28 (ii) evaluate and determine what projects receive funding;

56.29 (2) by ~~February 1 and August~~ October 1 each year, a ~~biannual~~ report to the chairs and
 56.30 ranking minority members of the legislative policy and finance committees with jurisdiction
 56.31 over environment and natural resources on expenditures from the water quality and
 56.32 sustainability account during the previous ~~six months~~ fiscal year; and

57.1 (3) by ~~August 1, 2019, and~~ October 1 each year ~~thereafter~~, a report to the legislature on
 57.2 expenditures from the water quality and sustainability account during the previous fiscal
 57.3 year and a spending plan for anticipated expenditures from the account during the current
 57.4 fiscal year.

57.5 Sec. 56. Minnesota Statutes 2020, section 116.03, subdivision 2b, is amended to read:

57.6 Subd. 2b. **Permitting efficiency.** (a) It is the goal of the state that environmental and
 57.7 resource management permits be issued or denied within 90 days for tier 1 permits or 150
 57.8 days for tier 2 permits following submission of a permit application. The commissioner of
 57.9 the Pollution Control Agency ~~shall~~ must establish management systems designed to achieve
 57.10 the goal. For the purposes of this section, "tier 1 permits" are permits that do not require
 57.11 individualized actions or public comment periods, and "tier 2 permits" are permits that
 57.12 require individualized actions or public comment periods.

57.13 (b) The commissioner ~~shall~~ must prepare ~~an annual~~ semiannual permitting efficiency
 57.14 ~~report reports~~ that includes include statistics on meeting the tier 2 goal in paragraph (a) and
 57.15 the criteria for tier 2 by permit categories. ~~The report is~~ reports are due on February 1 and
 57.16 August 1 each year. For permit applications that have not met the goal, ~~the~~ each report must
 57.17 state the reasons for not meeting the goal. In stating the reasons for not meeting the goal,
 57.18 the commissioner ~~shall~~ must separately identify delays caused by the responsiveness of the
 57.19 proposer, ~~lack of staff~~, scientific or technical disagreements, or the level of public
 57.20 engagement. ~~The~~ Each report must specify the number of days from initial submission of
 57.21 the application to the day of determination that the application is complete. ~~The~~ Each report
 57.22 must aggregate the data for the year reporting period and assess whether program or system
 57.23 changes are necessary to achieve the goal. Whenever a report required by this subdivision
 57.24 states the number of permits completed within a particular period, the report must,
 57.25 immediately after the number and in parentheses, state the percentage of total applications
 57.26 received for that permit category that the number represents. Whenever a report required
 57.27 by this subdivision states the number of permits completed within a particular period, the
 57.28 report must separately state completion data for industrial and municipal permits. ~~The report~~
 57.29 reports must be posted on the agency's website and submitted to the governor and the chairs
 57.30 and ranking minority members of the house of representatives and senate committees having
 57.31 jurisdiction over environment policy and finance.

57.32 (c) The commissioner ~~shall~~ must allow electronic submission of environmental review
 57.33 and permit documents to the agency.

58.1 (d) Within 30 business days of application for a permit subject to paragraph (a), the
58.2 commissioner of the Pollution Control Agency ~~shall~~ must notify the permit applicant, in
58.3 writing, whether the application is complete or incomplete. If the commissioner determines
58.4 that an application is incomplete, the notice to the applicant must enumerate all deficiencies,
58.5 citing specific provisions of the applicable rules and statutes, and advise the applicant on
58.6 how the deficiencies can be remedied. If the commissioner determines that the application
58.7 is complete, the notice must confirm the application's tier 1 or tier 2 permit status. If the
58.8 commissioner believes that a complete application for a tier 2 construction permit cannot
58.9 be issued within the 150-day goal, the commissioner must provide notice to the applicant
58.10 with the commissioner's notice that the application is complete and, upon request of the
58.11 applicant, provide the permit applicant with a schedule estimating when the agency will
58.12 begin drafting the permit and issue the public notice of the draft permit. This paragraph
58.13 does not apply to an application for a permit that is subject to a grant or loan agreement
58.14 under chapter 446A.

58.15 (e) For purposes of this subdivision, "permit professional" means an individual not
58.16 employed by the Pollution Control Agency who:

58.17 (1) has a professional license issued by the state of Minnesota in the subject area of the
58.18 permit;

58.19 (2) has at least ten years of experience in the subject area of the permit; and

58.20 (3) abides by the duty of candor applicable to employees of the Pollution Control Agency
58.21 under agency rules and complies with all applicable requirements under chapter 326.

58.22 (f) Upon the agency's request, an applicant relying on a permit professional must
58.23 participate in a meeting with the agency before submitting an application:

58.24 (1) at least two weeks prior to the preapplication meeting, the applicant must submit at
58.25 least the following:

58.26 (i) project description, including, but not limited to, scope of work, primary emissions
58.27 points, discharge outfalls, and water intake points;

58.28 (ii) location of the project, including county, municipality, and location on the site;

58.29 (iii) business schedule for project completion; and

58.30 (iv) other information requested by the agency at least four weeks prior to the scheduled
58.31 meeting; and

59.1 (2) during the preapplication meeting, the agency ~~shall~~ must provide for the applicant
59.2 at least the following:

59.3 (i) an overview of the permit review program;

59.4 (ii) a determination of which specific application or applications will be necessary to
59.5 complete the project;

59.6 (iii) a statement notifying the applicant if the specific permit being sought requires a
59.7 mandatory public hearing or comment period;

59.8 (iv) a review of the timetable established in the permit review program for the specific
59.9 permit being sought; and

59.10 (v) a determination of what information must be included in the application, including
59.11 a description of any required modeling or testing.

59.12 (g) The applicant may select a permit professional to undertake the preparation of the
59.13 permit application and draft permit.

59.14 (h) If a preapplication meeting was held, the agency ~~shall~~ must, within seven business
59.15 days of receipt of an application, notify the applicant and submitting permit professional
59.16 that the application is complete or is denied, specifying the deficiencies of the application.

59.17 (i) Upon receipt of notice that the application is complete, the permit professional ~~shall~~
59.18 must submit to the agency a timetable for submitting a draft permit. The permit professional
59.19 ~~shall~~ must submit a draft permit on or before the date provided in the timetable. Within 60
59.20 days after the close of the public comment period, the commissioner ~~shall~~ must notify the
59.21 applicant whether the permit can be issued.

59.22 (j) Nothing in this section ~~shall~~ must be construed to modify:

59.23 (1) any requirement of law that is necessary to retain federal delegation to or assumption
59.24 by the state; or

59.25 (2) the authority to implement a federal law or program.

59.26 (k) The permit application and draft permit ~~shall~~ must identify or include as an appendix
59.27 all studies and other sources of information used to substantiate the analysis contained in
59.28 the permit application and draft permit. The commissioner ~~shall~~ must request additional
59.29 studies, if needed, and the permit applicant ~~shall~~ must submit all additional studies and
59.30 information necessary for the commissioner to perform the commissioner's responsibility
59.31 to review, modify, and determine the completeness of the application and approve the draft
59.32 permit.

60.1 Sec. 57. Minnesota Statutes 2020, section 116.07, subdivision 4d, is amended to read:

60.2 Subd. 4d. **Permit fees.** (a) The agency may collect permit fees in amounts not greater
60.3 than those necessary to cover the reasonable costs of developing, reviewing, and acting
60.4 upon applications for agency permits and implementing and enforcing the conditions of the
60.5 permits pursuant to agency rules. Permit fees ~~shall~~ must not include the costs of litigation.
60.6 The fee schedule must reflect reasonable and routine direct and indirect costs associated
60.7 with permitting, implementation, and enforcement. The agency may impose an additional
60.8 enforcement fee to be collected for ~~a period of~~ up to two years to cover the reasonable costs
60.9 of implementing and enforcing the conditions of a permit under the rules of the agency.
60.10 Water fees under this paragraph are subject to legislative approval under section 16A.1283.
60.11 Any money collected under this paragraph ~~shall~~ must be deposited in the environmental
60.12 fund.

60.13 (b) Notwithstanding paragraph (a), the agency ~~shall~~ must collect an annual fee from the
60.14 owner or operator of all stationary sources, emission facilities, emissions units, air
60.15 contaminant treatment facilities, treatment facilities, potential air contaminant storage
60.16 facilities, or storage facilities subject to a notification, permit, or license requirement under
60.17 this chapter, subchapters I and V of the federal Clean Air Act, United States Code, title 42,
60.18 section 7401 et seq., or rules adopted thereunder. The annual fee ~~shall~~ must be used to pay
60.19 for all direct and indirect reasonable costs, including legal costs, required to develop and
60.20 administer the notification, permit, or license program requirements of this chapter,
60.21 subchapters I and V of the federal Clean Air Act, United States Code, title 42, section 7401
60.22 et seq., or rules adopted thereunder. Those costs include the reasonable costs of reviewing
60.23 and acting upon an application for a permit; implementing and enforcing statutes, rules, and
60.24 the terms and conditions of a permit; emissions, ambient, and deposition monitoring;
60.25 preparing generally applicable regulations; responding to federal guidance; modeling,
60.26 analyses, and demonstrations; preparing inventories and tracking emissions; and providing
60.27 information to the public about these activities.

60.28 (c) The agency ~~shall~~ must set fees that:

60.29 (1) will result in the collection, in the aggregate, from the sources listed in paragraph
60.30 (b), of an amount not less than \$25 per ton of each volatile organic compound; pollutant
60.31 regulated under United States Code, title 42, section 7411 or 7412 (section 111 or 112 of
60.32 the federal Clean Air Act); and each pollutant, except carbon monoxide, for which a national
60.33 primary ambient air quality standard has been promulgated;

61.1 (2) may result in the collection, in the aggregate, from the sources listed in paragraph
61.2 (b), of an amount not less than \$25 per ton of each pollutant not listed in clause (1) that is
61.3 regulated under this chapter or air quality rules adopted under this chapter; and

61.4 (3) ~~shall~~ must collect, in the aggregate, from the sources listed in paragraph (b), the
61.5 amount needed to match grant funds received by the state under United States Code, title
61.6 42, section 7405 (section 105 of the federal Clean Air Act).

61.7 The agency must not include in the calculation of the aggregate amount to be collected
61.8 under clauses (1) and (2) any amount in excess of 4,000 tons per year of each air pollutant
61.9 from a source. The increase in air permit fees to match federal grant funds ~~shall be~~ is a
61.10 surcharge on existing fees. The commissioner may not collect the surcharge after the grant
61.11 funds become unavailable. In addition, the commissioner ~~shall~~ must use nonfee funds to
61.12 the extent practical to match the grant funds so that the fee surcharge is minimized.

61.13 (d) To cover the reasonable costs described in paragraph (b), the agency ~~shall~~ must
61.14 provide in the rules promulgated under paragraph (c) for an increase in the fee collected in
61.15 each year by the percentage, if any, by which the Consumer Price Index for the most recent
61.16 calendar year ending before the beginning of the year the fee is collected exceeds the
61.17 Consumer Price Index for the calendar year 1989. For purposes of this paragraph, the
61.18 Consumer Price Index for any calendar year is the average of the Consumer Price Index for
61.19 all-urban consumers published by the United States Department of Labor, as of the close
61.20 of the 12-month period ending on August 31 of each calendar year. The revision of the
61.21 Consumer Price Index that is most consistent with the Consumer Price Index for calendar
61.22 year 1989 ~~shall~~ must be used.

61.23 (e) Any money collected under paragraphs (b) to (d) must be deposited in the
61.24 environmental fund and must be used solely for the activities listed in paragraph (b).

61.25 (f) Permit applicants who wish to construct, reconstruct, or modify a project may offer
61.26 to reimburse the agency for the costs of staff time or consultant services needed to expedite
61.27 the preapplication process and permit development process through the final decision on
61.28 the permit, including the analysis of environmental review documents. The reimbursement
61.29 ~~shall be~~ is in addition to permit application fees imposed by law. When the agency determines
61.30 that it needs additional resources to develop the permit application in an expedited manner,
61.31 and that expediting the development is consistent with permitting program priorities, the
61.32 agency may accept the reimbursement. The commissioner must give the applicant an estimate
61.33 of costs to be incurred by the commissioner. The estimate must include a brief description
61.34 of the tasks to be performed, a schedule for completing the tasks, and the estimated cost for

62.1 each task. The applicant and the commissioner must enter into a written agreement detailing
 62.2 the estimated costs for the expedited permit decision-making process to be incurred by the
 62.3 agency. The agreement must also identify staff anticipated to be assigned to the project.
 62.4 The commissioner must not issue a permit until the applicant has paid all fees in full. The
 62.5 commissioner must refund any unobligated balance of fees paid. Reimbursements accepted
 62.6 by the agency are appropriated to the agency for the purpose of developing the permit or
 62.7 analyzing environmental review documents. Reimbursement by a permit applicant ~~shall~~
 62.8 must precede and not be contingent upon issuance of a permit; ~~shall~~ must not affect the
 62.9 agency's decision on whether to issue or deny a permit, what conditions are included in a
 62.10 permit, or the application of state and federal statutes and rules governing permit
 62.11 determinations; and ~~shall~~ must not affect final decisions regarding environmental review.

62.12 (g) The fees under this subdivision are exempt from section 16A.1285.

62.13 Sec. 58. Minnesota Statutes 2020, section 116.07, is amended by adding a subdivision to
 62.14 read:

62.15 Subd. 13. **Unadopted rules.** The commissioner of the Pollution Control Agency must
 62.16 not enforce or attempt to enforce an unadopted rule. For purposes of this subdivision,
 62.17 "unadopted rule" means a guideline, bulletin, criterion, manual standard, interpretive
 62.18 statement, policy plan, or similar pronouncement if the guideline, bulletin, criterion, manual
 62.19 standard, interpretive statement, policy plan, or similar pronouncement has not been adopted
 62.20 according to the rulemaking process provided under chapter 14. If an unadopted rule is
 62.21 challenged under section 14.381, the commissioner must cease enforcement of the unadopted
 62.22 rule and overcome a presumption that the unadopted rule must be adopted according to the
 62.23 rulemaking process provided under chapter 14.

62.24 Sec. 59. Minnesota Statutes 2020, section 116B.03, subdivision 1, is amended to read:

62.25 Subdivision 1. **Parties.** Any person residing within the state; the attorney general; any
 62.26 political subdivision of the state; any instrumentality or agency of the state or of a political
 62.27 subdivision thereof; or any partnership, corporation, association, organization, or other
 62.28 entity having shareholders, members, partners or employees residing within the state may
 62.29 maintain a civil action in the district court for declaratory or equitable relief in the name of
 62.30 the state of Minnesota against any person, for the protection of the air, water, land, or other
 62.31 natural resources located within the state, whether publicly or privately owned, from
 62.32 pollution, impairment, or destruction; provided, however, that no action ~~shall be~~ is allowable
 62.33 ~~hereunder~~ under this section for:

63.1 (1) acts taken by a person on land leased or owned by said person pursuant to a permit
 63.2 or license issued by the owner of the land to said person which do not and can not reasonably
 63.3 be expected to pollute, impair, or destroy any other air, water, land, or other natural resources
 63.4 located within the state; ~~provided further that no action shall be allowable under this section~~
 63.5 ~~for~~

63.6 (2) conduct taken by a person pursuant to any environmental quality standard, limitation,
 63.7 rule, order, license, stipulation agreement or permit issued by the Pollution Control Agency,
 63.8 Department of Natural Resources, Department of Health or Department of Agriculture; or

63.9 (3) issuance of a groundwater appropriation permit that meets the criteria under section
 63.10 103G.287, subdivision 6, by the Department of Natural Resources. This clause expires
 63.11 January 1, 2041.

63.12 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 63.13 applies to applications for new or modified permits filed on or after that date.

63.14 Sec. 60. Minnesota Statutes 2020, section 116B.10, is amended by adding a subdivision
 63.15 to read:

63.16 Subd. 6. **Application.** No action is allowable under this section for issuance of a
 63.17 groundwater appropriation permit that meets the criteria under section 103G.287, subdivision
 63.18 6, by the Department of Natural Resources. This subdivision expires January 1, 2041.

63.19 **EFFECTIVE DATE.** This section is effective the day following final enactment and
 63.20 applies to applications for new or modified permits filed on or after that date.

63.21 Sec. 61. Minnesota Statutes 2020, section 116D.04, subdivision 2a, is amended to read:

63.22 Subd. 2a. **When prepared.** (a) Where there is potential for significant environmental
 63.23 effects resulting from any major governmental action, the action must be preceded by a
 63.24 detailed environmental impact statement prepared by the responsible governmental unit.
 63.25 The environmental impact statement must be an analytical rather than an encyclopedic
 63.26 document that describes the proposed action in detail, analyzes its significant environmental
 63.27 impacts, discusses appropriate alternatives to the proposed action and their impacts, and
 63.28 explores methods by which adverse environmental impacts of an action could be mitigated.
 63.29 The environmental impact statement must also analyze those economic, employment, and
 63.30 sociological effects that cannot be avoided should the action be implemented. To ensure its
 63.31 use in the decision-making process, the environmental impact statement must be prepared
 63.32 as early as practical in the formulation of an action.

64.1 (b) The board ~~shall~~ must by rule establish categories of actions for which environmental
64.2 impact statements and for which environmental assessment worksheets must be prepared
64.3 as well as categories of actions for which no environmental review is required under this
64.4 section. A mandatory environmental assessment worksheet is not required for the expansion
64.5 of an ethanol plant, as defined in section 41A.09, subdivision 2a, paragraph (b), or the
64.6 conversion of an ethanol plant to a biobutanol facility or the expansion of a biobutanol
64.7 facility as defined in section 41A.15, subdivision 2d, based on the capacity of the expanded
64.8 or converted facility to produce alcohol fuel, but must be required if the ethanol plant or
64.9 biobutanol facility meets or exceeds thresholds of other categories of actions for which
64.10 environmental assessment worksheets must be prepared. The responsible governmental unit
64.11 for an ethanol plant or biobutanol facility project for which an environmental assessment
64.12 worksheet is prepared is the state agency with the greatest responsibility for supervising or
64.13 approving the project as a whole.

64.14 (c) A mandatory environmental impact statement is not required for a facility or plant
64.15 located outside the seven-county metropolitan area that produces less than 125,000,000
64.16 gallons of ethanol, biobutanol, or cellulosic biofuel annually, or produces less than 400,000
64.17 tons of chemicals annually, if the facility or plant is: an ethanol plant, as defined in section
64.18 41A.09, subdivision 2a, paragraph (b); a biobutanol facility, as defined in section 41A.15,
64.19 subdivision 2d; or a cellulosic biofuel facility. A facility or plant that only uses a cellulosic
64.20 feedstock to produce chemical products for use by another facility as a feedstock is not
64.21 considered a fuel conversion facility as used in rules adopted under this chapter.

64.22 (d) The responsible governmental unit ~~shall~~ must promptly publish notice of the
64.23 completion of an environmental assessment worksheet by publishing the notice in at least
64.24 one newspaper of general circulation in the geographic area where the project is proposed,
64.25 by posting the notice on a website that has been designated as the official publication site
64.26 for publication of proceedings, public notices, and summaries of a political subdivision in
64.27 which the project is proposed, or in any other manner determined by the board and ~~shall~~
64.28 must provide copies of the environmental assessment worksheet to the board and its member
64.29 agencies. Comments on the need for an environmental impact statement may be submitted
64.30 to the responsible governmental unit during a 30-day period following publication of the
64.31 notice that an environmental assessment worksheet has been completed. The responsible
64.32 governmental unit may extend the 30-day comment period for an additional 30 days one
64.33 time. Further extensions of the comment period may not be made unless approved by the
64.34 project's proposer. The responsible governmental unit's decision on the need for an
64.35 environmental impact statement must be based on the environmental assessment worksheet

65.1 and the comments received during the comment period, and must be made within 15 days
65.2 after the close of the comment period. The board's chair may extend the 15-day period by
65.3 not more than 15 additional days upon the request of the responsible governmental unit.

65.4 (e) An environmental assessment worksheet must also be prepared for a proposed action
65.5 whenever material evidence accompanying a petition by not less than 100 individuals who
65.6 reside or own property in ~~the state~~ a county where the proposed action will be undertaken
65.7 or in one or more adjoining counties, submitted before the proposed project has received
65.8 final approval by the appropriate governmental units, demonstrates that, because of the
65.9 nature or location of a proposed action, there may be potential for significant environmental
65.10 effects. Petitions requesting the preparation of an environmental assessment worksheet must
65.11 be submitted to the board. The chair of the board ~~shall~~ must determine the appropriate
65.12 responsible governmental unit and forward the petition to it. A decision on the need for an
65.13 environmental assessment worksheet must be made by the responsible governmental unit
65.14 within 15 days after the petition is received by the responsible governmental unit. The
65.15 board's chair may extend the 15-day period by not more than 15 additional days upon request
65.16 of the responsible governmental unit.

65.17 (f) Except in an environmentally sensitive location where Minnesota Rules, part
65.18 4410.4300, subpart 29, item B, applies, the proposed action is exempt from environmental
65.19 review under this chapter and rules of the board, if:

65.20 (1) the proposed action is:

65.21 (i) an animal feedlot facility with a capacity of less than 1,000 animal units; or

65.22 (ii) an expansion of an existing animal feedlot facility with a total cumulative capacity
65.23 of less than 1,000 animal units;

65.24 (2) the application for the animal feedlot facility includes a written commitment by the
65.25 proposer to design, construct, and operate the facility in full compliance with Pollution
65.26 Control Agency feedlot rules; and

65.27 (3) the county board holds a public meeting for citizen input at least ten business days
65.28 before the Pollution Control Agency or county issuing a feedlot permit for the animal feedlot
65.29 facility unless another public meeting for citizen input has been held with regard to the
65.30 feedlot facility to be permitted. The exemption in this paragraph is in addition to other
65.31 exemptions provided under other law and rules of the board.

65.32 (g) The board may, before final approval of a proposed project, require preparation of
65.33 an environmental assessment worksheet by a responsible governmental unit selected by the

66.1 board for any action where environmental review under this section has not been specifically
66.2 provided for by rule or otherwise initiated.

66.3 (h) An early and open process must be used to limit the scope of the environmental
66.4 impact statement to a discussion of those impacts that, because of the nature or location of
66.5 the project, have the potential for significant environmental effects. The same process must
66.6 be used to determine the form, content, and level of detail of the statement as well as the
66.7 alternatives that are appropriate for consideration in the statement. In addition, the permits
66.8 that will be required for the proposed action must be identified during the scoping process.
66.9 Further, the process must identify those permits for which information will be developed
66.10 concurrently with the environmental impact statement. The board ~~shall~~ must provide in its
66.11 rules for the expeditious completion of the scoping process. The determinations reached in
66.12 the process must be incorporated into the order requiring the preparation of an environmental
66.13 impact statement.

66.14 (i) The responsible governmental unit ~~shall~~ must, to the extent practicable, avoid
66.15 duplication and ensure coordination between state and federal environmental review and
66.16 between environmental review and environmental permitting. Whenever practical,
66.17 information needed by a governmental unit for making final decisions on permits or other
66.18 actions required for a proposed project must be developed in conjunction with the preparation
66.19 of an environmental impact statement. When an environmental impact statement is prepared
66.20 for a project requiring multiple permits for which two or more agencies' decision processes
66.21 include either mandatory or discretionary hearings before a hearing officer before the
66.22 agencies' decision on the permit, the agencies may, notwithstanding any law or rule to the
66.23 contrary, conduct the hearings in a single consolidated hearing process if requested by the
66.24 proposer. All agencies having jurisdiction over a permit that is included in the consolidated
66.25 hearing ~~shall~~ must participate. The responsible governmental unit ~~shall~~ must establish
66.26 appropriate procedures for the consolidated hearing process, including procedures to ensure
66.27 that the consolidated hearing process is consistent with the applicable requirements for each
66.28 permit regarding the rights and duties of parties to the hearing, and ~~shall~~ must use the earliest
66.29 applicable hearing procedure to initiate the hearing. All agencies having jurisdiction over
66.30 a permit identified in the draft environmental assessment worksheet scoping document must
66.31 begin reviewing any permit application upon publication of the notice of preparation of the
66.32 environmental impact statement.

66.33 (j) An environmental impact statement must be prepared and its adequacy determined
66.34 within 280 days after notice of its preparation unless the time is extended by consent of the
66.35 parties or by the governor for good cause. The responsible governmental unit ~~shall~~ must

67.1 determine the adequacy of an environmental impact statement, unless within 60 days after
 67.2 notice is published that an environmental impact statement will be prepared, the board
 67.3 chooses to determine the adequacy of an environmental impact statement. If an environmental
 67.4 impact statement is found to be inadequate, the responsible governmental unit has 60 days
 67.5 to prepare an adequate environmental impact statement.

67.6 (k) The proposer of a specific action may include in the information submitted to the
 67.7 responsible governmental unit a preliminary draft environmental impact statement under
 67.8 this section on that action for review, modification, and determination of completeness and
 67.9 adequacy by the responsible governmental unit. A preliminary draft environmental impact
 67.10 statement prepared by the project proposer and submitted to the responsible governmental
 67.11 unit must identify or include as an appendix all studies and other sources of information
 67.12 used to substantiate the analysis contained in the preliminary draft environmental impact
 67.13 statement. The responsible governmental unit ~~shall~~ must require additional studies, if needed,
 67.14 and obtain from the project proposer all additional studies and information necessary for
 67.15 the responsible governmental unit to perform its responsibility to review, modify, and
 67.16 determine the completeness and adequacy of the environmental impact statement.

67.17 (l) A mandatory environmental assessment worksheet is not required for a project that
 67.18 will diminish the course, current, or cross-section of one acre or more of any water unless
 67.19 the affected water is on the public waters inventory described in section 103G.201. A
 67.20 discretionary environmental assessment worksheet is not required for a project that will
 67.21 diminish the course, current, or cross-section of one acre or more of any water that is not
 67.22 on the public waters inventory described in section 103G.201 unless the governmental unit
 67.23 with jurisdiction determines that the project is likely to have catastrophic environmental
 67.24 effects. Paragraph (e) does not apply to a project that will diminish the course, current, or
 67.25 cross-section of one acre or more of any water unless the affected water is on the public
 67.26 waters inventory described in section 103G.201.

67.27 Sec. 62. Minnesota Statutes 2020, section 116U.55, is amended by adding a subdivision
 67.28 to read:

67.29 Subd. 3. **Events promotion account.** The events promotion account is established as a
 67.30 separate account in the natural resources fund. Money received under section 297A.94,
 67.31 paragraph (l), must be deposited into the events promotion account for promoting special
 67.32 events in the state. At least 50 percent of the money appropriated under this subdivision
 67.33 must be for promoting special events outside of the metropolitan area.

68.1 Sec. 63. Minnesota Statutes 2020, section 127A.353, subdivision 2, is amended to read:

68.2 Subd. 2. **Qualifications.** The governor shall select the school trust lands director on the
 68.3 basis of outstanding professional qualifications and knowledge of finance, business practices,
 68.4 minerals, forest and real estate management, and the fiduciary responsibilities of a trustee
 68.5 to the beneficiaries of a trust. The school trust lands director serves in the unclassified service
 68.6 for a term of four years. ~~The first term shall end on December 31, 2020.~~ The governor may
 68.7 remove the school trust lands director for cause. If a director resigns or is removed for cause,
 68.8 the governor shall appoint a director for the remainder of the term.

68.9 Sec. 64. Minnesota Statutes 2021 Supplement, section 127A.353, subdivision 4, is amended
 68.10 to read:

68.11 Subd. 4. **Duties; powers.** (a) The school trust lands director shall:

68.12 (1) ~~take an oath of office before assuming any duties as the director~~ act in a fiduciary
 68.13 capacity for trust beneficiaries in accordance with the principles under section 127A.351;

68.14 (2) evaluate the school trust land asset position;

68.15 (3) determine the estimated current and potential market value of school trust lands;

68.16 (4) advise and provide recommendations to the governor, Executive Council,
 68.17 commissioner of natural resources, and the Legislative Permanent School Fund Commission
 68.18 on the management of school trust lands, including: on school trust land management policies

71.18 **EFFECTIVE DATE.** This section is effective the day following final enactment.

71.19 Sec. 66. Minnesota Statutes 2020, section 297A.94, is amended to read:

71.28 (2) the purchase was made on or after the date on which a conditional commitment was
71.29 made for a loan guaranty for the project under section 41A.04, subdivision 3.

71.30 The commissioner of management and budget shall certify to the commissioner the date on
71.31 which the project received the conditional commitment. The amount deposited in the loan

72.1 guaranty account must be reduced by any refunds and by the costs incurred by the Department
72.2 of Revenue to administer and enforce the assessment and collection of the taxes.

72.3 (c) The commissioner shall deposit the revenues, including interest and penalties, derived
72.4 from the taxes imposed on sales and purchases included in section 297A.61, subdivision 3,

72.14 collected under section 297A.64, subdivision 5, in the state treasury and credit them to the
72.15 general fund. By July 15 of each year the commissioner shall transfer to the highway user
72.16 tax distribution fund an amount equal to the excess fees collected under section 297A.64,
72.17 subdivision 5, for the previous calendar year.

72.18 (f) Beginning with sales taxes remitted after July 1, 2017, in conjunction with the deposit
72.19 of revenues under paragraph (d), the commissioner shall deposit into the state treasury and
72.20 credit to the highway user tax distribution fund an amount equal to the estimated revenues
72.21 derived from the tax rate imposed under section 297A.62, subdivision 1, on the lease or
72.22 rental for not more than 28 days of rental motor vehicles subject to section 297A.64. The
72.23 commissioner shall estimate the amount of sales tax revenue deposited under this paragraph
72.24 based on the amount of revenue deposited under paragraph (d).

72.25 (g) Starting after July 1, 2017, the commissioner shall deposit an amount of the
72.26 remittances monthly into the state treasury and credit them to the highway user tax
72.27 distribution fund as a portion of the estimated amount of taxes collected from the sale and
72.28 purchase of motor vehicle repair parts in that month. For the remittances between July 1,
72.29 2017, and June 30, 2019, the monthly deposit amount is \$2,628,000. For remittances in

72.31 this paragraph, "motor vehicle" has the meaning given in section 297B.01, subdivision 11,
72.32 and "motor vehicle repair and replacement parts" includes (i) all parts, tires, accessories,
72.33 and equipment incorporated into or affixed to the motor vehicle as part of the motor vehicle
72.34 maintenance and repair, and (ii) paint, oil, and other fluids that remain on or in the motor

73.1 vehicle as part of the motor vehicle maintenance or repair. For purposes of this paragraph,

73.5 commissioner under section 297A.65, must be deposited by the commissioner in the state
73.6 treasury as follows:

73.7 (1) 50 percent of the receipts must be deposited in the heritage enhancement account in
73.8 the game and fish fund, and may be spent only on activities that improve, enhance, or protect
73.9 fish and wildlife resources, including conservation, restoration, and enhancement of land,
73.10 water, and other natural resources of the state;

73.11 (2) 22.5 percent of the receipts must be deposited in the natural resources fund, and may

73.14 be spent only on metropolitan park and trail grants;

73.15 (4) three percent of the receipts must be deposited in the natural resources fund, and
73.16 may be spent only on local trail grants; and

73.17 (5) two percent of the receipts must be deposited in the natural resources fund, and may
73.18 be spent only for the Minnesota Zoological Garden, the Como Park Zoo and Conservatory,
73.19 and the Duluth Zoo.

73.20 (i) The revenue dedicated under paragraph (h) may not be used as a substitute for
73.21 traditional sources of funding for the purposes specified, but the dedicated revenue shall
73.22 supplement traditional sources of funding for those purposes. Land acquired with money
73.23 deposited in the game and fish fund under paragraph (h) must be open to public hunting
73.24 and fishing during the open season, except that in aquatic management areas or on lands
73.25 where angling easements have been acquired, fishing may be prohibited during certain times
73.26 of the year and hunting may be prohibited. At least 87 percent of the money deposited in
73.27 the game and fish fund for improvement, enhancement, or protection of fish and wildlife
73.28 resources under paragraph (h) must be allocated for field operations.

73.29 (j) The commissioner must deposit the revenues, including interest and penalties minus
73.30 any refunds, derived from the sale of items regulated under section 624.20, subdivision 1,
73.31 that may be sold to persons 18 years old or older and that are not prohibited from use by
73.32 the general public under section 624.21, in the state treasury and credit:

74.1 (1) 25 percent to the volunteer fire assistance grant account established under section
74.2 88.068;

74.3 (2) 25 percent to the fire safety account established under section 297I.06, subdivision
74.4 3; and

74.5 (3) the remainder to the general fund.

74.6 For purposes of this paragraph, the percentage of total sales and use tax revenue derived
74.7 from the sale of items regulated under section 624.20, subdivision 1, that are allowed to be
74.8 sold to persons 18 years old or older and are not prohibited from use by the general public
74.9 under section 624.21, is a set percentage of the total sales and use tax revenues collected in
74.10 the state, with the percentage determined under Laws 2017, First Special Session chapter
74.11 1, article 3, section 39.

74.12 (k) The revenues deposited under paragraphs (a) to (j) do not include the revenues,
74.13 including interest and penalties, generated by the sales tax imposed under section 297A.62,
74.14 subdivision 1a, which must be deposited as provided under the Minnesota Constitution,
74.15 article XI, section 15.

74.16 (l) One percent of the revenues, including interest and penalties, transmitted to the
74.17 commissioner under section 297A.65, must be deposited in the state treasury and credited

74.19 **Sec. 67. CONTINUATION OF OTHER WATER APPROPRIATION PERMITS.**

74.20 Prior to additional rulemaking or legislative action in response to the findings and
74.21 recommendations submitted pursuant to section 69, the commissioner of natural resources
74.22 shall not reduce appropriations under a groundwater appropriations permit, terminate
74.23 groundwater appropriations authorized by a permit, or decline to renew a groundwater
74.24 appropriations permit where:

74.25 (1) the permit was in effect as of December 31, 2021;

74.26 (2) the permit authorized appropriation of groundwater from a site located wholly or
74.27 partially within a five-mile radius of White Bear Lake;

74.28 (3) the permittee is in compliance with applicable permit terms; and

74.29 (4) the permittee is not a municipality.

75.1 **Sec. 68. DEPARTMENT OF NATURAL RESOURCES REGISTRATION SYSTEM.**

75.2 **Subdivision 1. Definitions.** (a) For purposes of this section, the following terms have
75.3 the meanings given.

75.4 (b) "Commissioner" means the commissioner of natural resources.

75.5 (c) "DNR" means the Department of Natural Resources.

75.6 (d) "DNR registration system" means the current Department of Natural Resources
75.7 system for boat, all-terrain vehicle, and snowmobile registrations.

75.8 **Subd. 2. Request for proposals; scoring preference.** When the commissioner issues
75.9 a request for proposals to replace the DNR registration system and scores the responses to
75.10 the request for proposals, the commissioner may give a preference to a software vendor that
75.11 currently provides vehicle registration software to the state in an amount commensurate
75.12 with the commissioner's assessments of the benefits of using an existing software vendor.

75.13 **Subd. 3. Report to legislature.** Within 45 days after a vendor has been selected to
75.14 provide software to replace the DNR registration system, the commissioner must report to
75.15 the chairs and ranking minority members of the legislative committees with jurisdiction
75.16 over transportation policy and finance and natural resources policy and finance. At a
75.17 minimum, the commissioner must include in the report:

75.18 (1) the names of all vendors who submitted a proposal;

75.19 (2) which vendor was selected;

75.20 (3) the estimated timeline for implementing the new registration system;

75.21 (4) if a preference was given as described in subdivision 2, what the preference was and
75.22 how the commissioner arrived at that number; and

75.23 (5) if a software vendor that currently provides vehicle registration software to the state
75.24 submitted a proposal and that vendor was not selected, an explanation of why that vendor
75.25 was not selected.

75.26 **EFFECTIVE DATE.** This section is effective the day following final enactment.

75.27 **Sec. 69. ENSURING SUSTAINABLE GROUNDWATER LEVELS IN WHITE**
75.28 **BEAR LAKE AND RELATED AQUIFERS.**

75.29 The commissioner of natural resources, in cooperation with the Minnesota Department
75.30 of Health, the Metropolitan Council, and representatives of east metropolitan area
75.31 municipalities, must explore available options for supplying east metropolitan area

76.1 communities with safe drinking water in a manner that allows municipal growth while
76.2 simultaneously ensuring the sustainability and quality of the state's water resources in and
76.3 around White Bear Lake and neighboring aquifers. By October 1, 2023, the commissioner
76.4 must report findings and recommendations to the chairs and ranking minority members of
76.5 the legislative committees and divisions with jurisdiction over environment and natural
76.6 resources.

76.7 Sec. 70. **FACILITATING SAFE TRAVEL ON COUNTY STATE-AID HIGHWAY**
76.8 **13 IN MURRAY COUNTY.**

76.9 Subdivision 1. **Requirements.** Notwithstanding any other provision of law, the
76.10 commissioner of natural resources must do all of the following to ensure that the portion
76.11 of County State-Aid Highway 13 in Murray County that extends over Lake Shetek between
76.12 170th Avenue and Lakeview Drive can be widened to a sufficient width to ensure traveler
76.13 safety:

76.14 (1) issue any permits applied for by the county as part of a project to widen the highway;
76.15 and

76.16 (2) convey to the county any right-of-way, easement, or other interest in real property
76.17 administered by the Department of Natural Resources that is necessary to facilitate the
76.18 widening.

76.19 Subd. 2. **Sufficient width.** For purposes of subdivision 1, "sufficient width to ensure
76.20 traveler safety" means a width of at least 70 feet, including room for two lanes of vehicular
76.21 traffic, a shoulder on each side, and a shared-use path on each side to safely accommodate
76.22 bicycle and pedestrian transportation. Any riprap needed to ensure the structural integrity
76.23 of the widened highway must be in addition to the 70-foot width required by this subdivision.

76.24 Subd. 3. **Reporting.** The commissioner of natural resources must immediately report
76.25 to the chairs and ranking minority members of the house of representatives and senate
76.26 committees and divisions with jurisdiction over environment and natural resources if the
76.27 commissioner denies any permit or other request made by Murray County in connection
76.28 with the widening described in this section. A report under this subdivision must explain
76.29 the reason for the denial, including the statute or rule that prohibits the commissioner from
76.30 granting the permit or other request. A policy decision by the Department of Natural
76.31 Resources that the lake is more important than protecting the lives of travelers on the highway
76.32 does not constitute a sufficient explanation for a decision to deny a permit under this
76.33 subdivision.

77.1 **EFFECTIVE DATE.** This section is effective the day after the governing body of
77.2 Murray County and its chief clerical officer comply with the requirements of Minnesota
77.3 Statutes, section 645.021, subdivisions 2 and 3.

77.4 Sec. 71. **FILLING OF CERTAIN POLLUTION CONTROL AGENCY AIR PERMIT**
77.5 **PROGRAM VACANCIES.**

77.6 Subdivision 1. **Duty to fill certain positions.** The commissioner of the Pollution Control
77.7 Agency must do the following for each position in the agency's air permit program that has
77.8 been open for at least one year as of the effective date of this section:

77.9 (1) within 60 days of the effective date of this section, post job opening information for
77.10 each position in the manner normally used by the commissioner to post job openings;

77.11 (2) within 90 days of the effective date of this section, conduct interviews to fill each
77.12 position; and

77.13 (3) within 120 days of the effective date of this section, complete hiring to fill each
77.14 position.

77.15 Subd. 2. **Report.** By January 15, 2024, the commissioner must submit a report to the
77.16 chairs and ranking minority members of the house of representatives and senate committees
77.17 and divisions with jurisdiction over environment and natural resources on efforts to comply
77.18 with this section. The report must include the following:

77.19 (1) a summary of the commissioner's efforts to comply with each clause in subdivision
77.20 1; and

77.21 (2) for any position that receives less than five applicants, an explanation of the need
77.22 for each of the job requirements included in the job posting.

77.23 **EFFECTIVE DATE.** This section is effective the day following final enactment.

77.24 Sec. 72. **INTERIM PROVISIONS.**

77.25 (a) From the effective date of this section until the rules under section 77 are adopted,
77.26 to the extent allowable under the federal Clean Water Act or other federal laws, this section
77.27 applies to discharges from facilities that process sugar beets outside the Lake Superior basin.

77.28 (b) If a whole effluent toxicity test, as defined under Minnesota Rules, part 7050.0218,
77.29 subpart 3, item AAA, is performed on the effluent of a point source discharger that is a
77.30 facility that processes sugar beets and results in less than 50 percent mortality of the test
77.31 organisms or if a demonstration is provided under Minnesota Rules, part 7052.0210, subpart

78.1 1, that 0.3 acute toxic units can be met at the edge of an approved acute mixing zone, the
78.2 effluent must not be considered acutely toxic or lethal to aquatic organisms unless the
78.3 commissioner of the Pollution Control Agency finds that the test species do not represent
78.4 sensitive organisms in the affected surface water body or the whole effluent toxicity test
78.5 was performed on a sample not representative of the effluent quality.

78.6 (c) The commissioner of the Pollution Control Agency must establish whole effluent
78.7 toxicity mixing zones and whole effluent toxicity water-quality-based effluent limitations
78.8 and permit conditions for facilities that process sugar beets according to Minnesota Rules,
78.9 parts 7052.0210, subparts 1 and 2, and 7052.0240.

78.10 (d) The antibacksliding provisions of Minnesota Rules, part 7001.1080, subpart 9, do
78.11 not apply to new or revised permit conditions established under paragraph (c).

78.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

78.13 Sec. 73. **REGISTRATION DECAL FORMAT TRANSITION.**

78.14 Separately displaying registration numbers is not required when a larger-format
78.15 registration decal as provided under Minnesota Statutes, section 84.82, subdivision 2, is
78.16 displayed according to Minnesota Statutes, section 84.82, subdivision 3b. Snowmobiles
78.17 displaying valid but older smaller-format registration decals must display the separate
78.18 registration numbers. Persons may obtain duplicate registration decals in the new, larger
78.19 format, when available, without being required to display the separate registration numbers.

78.20 Sec. 74. **REQUIRED RULEMAKING.**

78.21 (a) The commissioner of natural resources must amend Minnesota Rules as follows:

78.22 (1) part 6100.5000, subpart 1, by striking the last sentence and inserting "The registration
78.23 number remains the same if renewed by July 1 following the expiration date.";

78.24 (2) part 6100.5700, subpart 1, item C, by striking the reference to registration numbers;
78.25 and

78.26 (3) part 6230.0250, subpart 10, item A, subitem (2), by changing the word "hunter" to
78.27 "person".

78.28 (b) The commissioner may use the good-cause exemption under Minnesota Statutes,
78.29 section 14.388, subdivision 1, clause (3), to adopt rules under this section, and Minnesota
78.30 Statutes, section 14.386, does not apply except as provided under Minnesota Statutes, section
78.31 14.388.

79.1 **Sec. 75. RULEMAKING; WALLEYE AND SAUGER POSSESSION LIMIT.**

79.2 (a) By March 1, 2023, the commissioner of natural resources must amend Minnesota
79.3 Rules, part 6262.0200, subpart 1, item F, to provide that the daily and possession limit for
79.4 walleye and sauger in all inland waters is six in aggregate and no more than four may be
79.5 walleye.

79.6 (b) The commissioner may use the good cause exemption under Minnesota Statutes,
79.7 section 14.388, subdivision 1, clause (3), to adopt rules under this section, and Minnesota
79.8 Statutes, section 14.386, does not apply, except as provided under Minnesota Statutes,
79.9 section 14.388.

79.10 **Sec. 76. STATE IMPLEMENTATION PLAN REVISIONS.**

79.11 (a) The commissioner of the Pollution Control Agency must seek approval from the
79.12 federal Environmental Protection Agency for revisions to the state's federal Clean Air Act
79.13 state implementation plan so that under the revised plan, the Pollution Control Agency is
79.14 prohibited from applying a national or state ambient air quality standard in a permit issued
79.15 solely to authorize operations to continue at an existing facility with unmodified emissions
79.16 levels. Nothing in this section must be construed to require the commissioner to apply for
79.17 a revision that would prohibit the agency from applying a national or state ambient air
79.18 quality standard in a permit that authorizes an increase in emissions due to construction of
79.19 a new facility or in a permit that authorizes changes to existing facilities that result in a
79.20 significant net emissions increase of a regulated NSR pollutant, as defined in Code of Federal
79.21 Regulations, title 40, section 52.21(b)(50).

79.22 (b) The commissioner of the Pollution Control Agency must report quarterly to the chairs
79.23 and ranking minority members of the house of representatives and senate committees and
79.24 divisions with jurisdiction over environment and natural resources policy on the status of

80.3 are located outside the Lake Superior basin; and

80.4 (2) the applicability and standards for acute and chronic mixing zones at those facilities.

80.5 (b) Rules adopted under this section must be substantially identical to Minnesota Rules,
80.6 parts 7052.0210, subparts 1 and 2, and 7052.0240, so that, to the greatest extent possible,
80.7 facilities that process sugar beets in all parts of the state are subject to the same mixing
80.8 zones requirements and acute and chronic WET requirements for establishing permit
80.9 conditions.

80.10 **EFFECTIVE DATE.** This section is effective the day following final enactment.

80.11 Sec. 78. **REPEALER.**

80.20 **84.63 CONVEYING INTERESTS IN LANDS TO STATE, FEDERAL, AND**
80.21 **TRIBAL GOVERNMENTS.**

80.22 (a) Notwithstanding any existing law to the contrary, the commissioner of natural
80.23 resources is hereby authorized on behalf of the state to convey to the United States, to a
80.24 federally recognized Indian Tribe, or to the state of Minnesota or any of its subdivisions,
80.25 upon state-owned lands under the administration of the commissioner of natural resources,
80.26 permanent or temporary easements for specified periods or otherwise for trails, highways,
80.27 roads including limitation of right of access from the lands to adjacent highways and roads,
80.28 flowage for development of fish and game resources, stream protection, flood control, and
80.29 necessary appurtenances thereto, such conveyances to be made upon such terms and
80.30 conditions including provision for reversion in the event of non-user as the commissioner
80.31 of natural resources may determine.

81.1 (b) In addition to the fee for the market value of the easement, the commissioner of
81.2 natural resources shall assess the applicant the following fees:

81.3 (1) an application fee of \$2,000 to cover reasonable costs for reviewing the application
81.4 and preparing the easement; and

81.5 (2) a monitoring fee to cover the projected reasonable costs for monitoring the
81.6 construction of the improvement for which the easement was conveyed and preparing special
81.7 terms and conditions for the easement. The commissioner must give the applicant an estimate
81.8 of the monitoring fee before the applicant submits the fee.

81.9 (c) The applicant shall pay these fees to the commissioner of natural resources. The
81.10 commissioner shall not issue the easement until the applicant has paid in full the application
81.11 fee, the monitoring fee, and the market value payment for the easement.

81.12 (d) Upon completion of construction of the improvement for which the easement was
81.13 conveyed, the commissioner shall refund the unobligated balance from the monitoring fee
81.14 revenue. The commissioner shall not return the application fee, even if the application is
81.15 withdrawn or denied.

81.16 (e) Money received under paragraph (b) must be deposited in the land management
81.17 account in the natural resources fund and is appropriated to the commissioner of natural
81.18 resources to cover the reasonable costs incurred for issuing and monitoring easements.

81.19 (f) A county or joint county regional railroad authority is exempt from all fees specified
81.20 under this section for trail easements on state-owned land.

81.21 (g) In addition to fees specified in this section, the applicant must reimburse the state
81.22 for costs incurred for cultural resources review, monitoring, or other services provided by
81.23 the Minnesota Historical Society under contract with the commissioner of natural resources
81.24 or the State Historic Preservation Office of the Department of Administration in connection
81.25 with the easement application, preparing the easement terms, or constructing the trail,
81.26 highway, road, or other improvements.

81.27 (h) Notwithstanding paragraphs (a) to (g), the commissioner of natural resources may
81.28 elect to assume the application fee under paragraph (b), clause (1), and waive or assume
81.29 some or all of the remaining fees and costs imposed under this section if the commissioner
81.30 determines that issuing the easement will benefit the state's land management interests.

82.1 Sec. 2. Minnesota Statutes 2021 Supplement, section 84.631, is amended to read:

82.2 **84.631 ROAD EASEMENTS ACROSS STATE LANDS.**

82.3 (a) Except as provided in section 85.015, subdivision 1b, the commissioner of natural
82.4 resources, on behalf of the state, may convey a road easement across state land under the
82.5 commissioner's jurisdiction to a private person requesting an easement for access to property
82.6 owned by the person only if the following requirements are met: (1) there are no reasonable
82.7 alternatives to obtain access to the property; and (2) the exercise of the easement will not
82.8 cause significant adverse environmental or natural resource management impacts.

82.9 (b) The commissioner shall:

82.10 (1) require the applicant to pay the market value of the easement;

82.11 (2) limit the easement term to 50 years if the road easement is across school trust land;

82.12 (3) provide that the easement reverts to the state in the event of nonuse; and

82.13 (4) impose other terms and conditions of use as necessary and appropriate under the
82.14 circumstances.

82.15 (c) An applicant shall submit an application fee of \$2,000 with each application for a
82.16 road easement across state land. The application fee is nonrefundable, even if the application
82.17 is withdrawn or denied.

82.18 (d) In addition to the payment for the market value of the easement and the application
82.19 fee, the commissioner of natural resources shall assess the applicant a monitoring fee to
82.20 cover the projected reasonable costs for monitoring the construction of the road and preparing
82.21 special terms and conditions for the easement. The commissioner must give the applicant
82.22 an estimate of the monitoring fee before the applicant submits the fee. The applicant shall
82.23 pay the application and monitoring fees to the commissioner of natural resources. The
82.24 commissioner shall not issue the easement until the applicant has paid in full the application
82.25 fee, the monitoring fee, and the market value payment for the easement.

82.26 (e) Upon completion of construction of the road, the commissioner shall refund the
82.27 unobligated balance from the monitoring fee revenue.

82.28 (f) Fees collected under paragraphs (c) and (d) must be credited to the land management
82.29 account in the natural resources fund and are appropriated to the commissioner of natural
82.30 resources to cover the reasonable costs incurred under this section.

82.32 for costs incurred for cultural resources review, monitoring, or other services provided by

83.1 the Minnesota Historical Society under contract with the commissioner of natural resources
83.2 or the State Historic Preservation Office of the Department of Administration in connection
83.3 with the easement application, preparing the easement terms, or constructing the road.

83.4 (h) Notwithstanding paragraphs (a) to (g), the commissioner of natural resources may
83.5 elect to assume the application fee under paragraph (c) and waive or assume some or all of
83.6 the remaining fees and costs imposed under this section if the commissioner determines
83.7 that issuing the easement will benefit the state's land management interests.

83.8 Sec. 3. Minnesota Statutes 2020, section 84.632, is amended to read:

83.9 **84.632 CONVEYANCE OF UNNEEDED STATE EASEMENTS.**

83.10 (a) Notwithstanding section 92.45, the commissioner of natural resources may, in the
83.11 name of the state, release all or part of an easement acquired by the state upon application
83.12 of a landowner whose property is burdened with the easement if the easement is not needed
83.13 for state purposes.

83.14 (b) All or part of an easement may be released by payment of the market value of the
83.15 easement. The release must be in a form approved by the attorney general.

83.16 (c) Money received under paragraph (b) must be credited to the account from which
83.17 money was expended for purchase of the easement. If there is no specific account, the money
83.18 must be credited to the land acquisition account established in section 94.165.

83.19 (d) In addition to payment under paragraph (b), the commissioner of natural resources
83.20 shall assess a landowner who applies for a release under this section an application fee of
83.21 \$2,000 for reviewing the application and preparing the release of easement. The applicant
83.22 shall pay the application fee to the commissioner of natural resources. The commissioner
83.23 shall not issue the release of easement until the applicant has paid the application fee in full.
83.24 The commissioner shall not return the application fee, even if the application is withdrawn
83.25 or denied.

83.26 (e) Money received under paragraph (d) must be credited to the land management account
83.27 in the natural resources fund and is appropriated to the commissioner of natural resources
83.28 to cover the reasonable costs incurred under this section.

83.29 (f) Notwithstanding paragraphs (a) to (e), the commissioner of natural resources may
83.30 elect to assume the application fee under paragraph (d) and waive or assume some or all of
83.31 the remaining fees and costs imposed under this section if the commissioner determines
83.32 that issuing the easement release will benefit the state's land management interests.

84.1 Sec. 4. Minnesota Statutes 2021 Supplement, section 92.502, is amended to read:

84.2 **92.502 LEASING TAX-FORFEITED AND STATE LANDS.**

84.3 (a) Notwithstanding section 282.04 or other law to the contrary, St. Louis County may
84.4 enter a 30-year lease of tax-forfeited land for a wind energy project.

84.5 (b) The commissioner of natural resources may enter a 30-year lease of land administered
84.6 by the commissioner for a wind energy project.

84.7 (c) The commissioner of natural resources may enter a 30-year lease of land administered
84.8 by the commissioner for recreational trails ~~and~~ or facilities. The commissioner may assess
84.9 the lease applicant a monitoring fee to cover the projected reasonable costs of monitoring
84.10 construction of the recreational trail or facility and preparing special terms and conditions
84.11 of the license to ensure proper construction. The commissioner must give the applicant an
84.12 estimate of the monitoring fee before the applicant is required to submit the fee. Upon
84.13 completion of construction of the trail or facility, the commissioner must refund the
84.14 unobligated balance from the monitoring fee revenue.

84.15 (d) Notwithstanding section 282.04 or other law to the contrary, Lake and St. Louis
84.16 Counties may enter into 30-year leases of tax-forfeited land for recreational trails and
84.17 facilities.

84.18 Sec. 5. Minnesota Statutes 2020, section 282.04, subdivision 1, is amended to read:

84.19 Subdivision 1. **Timber sales; land leases and uses.** (a) The county auditor, with terms
84.20 and conditions set by the county board, may sell timber upon any tract that may be approved
84.21 by the natural resources commissioner. The sale of timber shall be made for cash at not less
84.22 than the appraised value determined by the county board to the highest bidder after not less
84.23 than one week's published notice in an official paper within the county. Any timber offered
84.24 at the public sale and not sold may thereafter be sold at private sale by the county auditor
84.25 at not less than the appraised value thereof, until the time as the county board may withdraw
84.26 the timber from sale. The appraised value of the timber and the forestry practices to be
84.27 followed in the cutting of said timber shall be approved by the commissioner of natural
84.28 resources.

84.29 (b) Payment of the full sale price of all timber sold on tax-forfeited lands shall be made
84.30 in cash at the time of the timber sale, except in the case of oral or sealed bid auction sales,
84.31 the down payment shall be no less than 15 percent of the appraised value, and the balance
84.32 shall be paid prior to entry. In the case of auction sales that are partitioned and sold as a
84.33 single sale with predetermined cutting blocks, the down payment shall be no less than 15

85.1 percent of the appraised price of the entire timber sale which may be held until the satisfactory
85.2 completion of the sale or applied in whole or in part to the final cutting block. The value of
85.3 each separate block must be paid in full before any cutting may begin in that block. With
85.4 the permission of the county contract administrator the purchaser may enter unpaid blocks
85.5 and cut necessary timber incidental to developing logging roads as may be needed to log
85.6 other blocks provided that no timber may be removed from an unpaid block until separately
85.7 scaled and paid for. If payment is provided as specified in this paragraph as security under
85.8 paragraph (a) and no cutting has taken place on the contract, the county auditor may credit
85.9 the security provided, less any down payment required for an auction sale under this
85.10 paragraph, to any other contract issued to the contract holder by the county under this chapter
85.11 to which the contract holder requests in writing that it be credited, provided the request and
85.12 transfer is made within the same calendar year as the security was received.

85.13 (c) The county board may sell any timber, including biomass, as appraised or scaled.
85.14 Any parcels of land from which timber is to be sold by scale of cut products shall be so
85.15 designated in the published notice of sale under paragraph (a), in which case the notice shall
85.16 contain a description of the parcels, a statement of the estimated quantity of each species
85.17 of timber, and the appraised price of each species of timber for 1,000 feet, per cord or per
85.18 piece, as the case may be. In those cases any bids offered over and above the appraised
85.19 prices shall be by percentage, the percent bid to be added to the appraised price of each of
85.20 the different species of timber advertised on the land. The purchaser of timber from the
85.21 parcels shall pay in cash at the time of sale at the rate bid for all of the timber shown in the
85.22 notice of sale as estimated to be standing on the land, and in addition shall pay at the same
85.23 rate for any additional amounts which the final scale shows to have been cut or was available
85.24 for cutting on the land at the time of sale under the terms of the sale. Where the final scale
85.25 of cut products shows that less timber was cut or was available for cutting under terms of
85.26 the sale than was originally paid for, the excess payment shall be refunded from the forfeited
85.27 tax sale fund upon the claim of the purchaser, to be audited and allowed by the county board
85.28 as in case of other claims against the county. No timber, except hardwood pulpwood, may
85.29 be removed from the parcels of land or other designated landings until scaled by a person
85.30 or persons designated by the county board and approved by the commissioner of natural
85.31 resources. Landings other than the parcel of land from which timber is cut may be designated
85.32 for scaling by the county board by written agreement with the purchaser of the timber. The
85.33 county board may, by written agreement with the purchaser and with a consumer designated
85.34 by the purchaser when the timber is sold by the county auditor, and with the approval of
85.35 the commissioner of natural resources, accept the consumer's scale of cut products delivered
85.36 at the consumer's landing. No timber shall be removed until fully paid for in cash. Small

86.1 amounts of timber not exceeding 500 cords in appraised volume may be sold for not less
86.2 than the full appraised value at private sale to individual persons without first publishing
86.3 notice of sale or calling for bids, provided that in case of a sale involving a total appraised
86.4 value of more than \$200 the sale shall be made subject to final settlement on the basis of a
86.5 scale of cut products in the manner above provided and not more than two of the sales,
86.6 directly or indirectly to any individual shall be in effect at one time.

86.7 (d) As directed by the county board, the county auditor may lease tax-forfeited land to
86.8 individuals, corporations or organized subdivisions of the state at public or private sale, and
86.9 at the prices and under the terms as the county board may prescribe, for use as cottage and
86.10 camp sites and for agricultural purposes and for the purpose of taking and removing of hay,
86.11 stumpage, sand, gravel, clay, rock, marl, and black dirt from the land, and for garden sites
86.12 and other temporary uses provided that no leases shall be for a period to exceed ~~ten~~ 25 years;
86.13 provided, further that any leases involving a consideration of more than ~~\$12,000~~ \$50,000
86.14 per year, except to an organized subdivision of the state shall first be offered at public sale
86.15 in the manner provided herein for sale of timber. Upon the sale of any leased land, it shall
86.16 remain subject to the lease for not to exceed one year from the beginning of the term of the
86.17 lease. Any rent paid by the lessee for the portion of the term cut off by the cancellation shall
86.18 be refunded from the forfeited tax sale fund upon the claim of the lessee, to be audited and
86.19 allowed by the county board as in case of other claims against the county.

86.20 (e) As directed by the county board, the county auditor may lease tax-forfeited land to
86.21 individuals, corporations, or organized subdivisions of the state at public or private sale, at
86.22 the prices and under the terms as the county board may prescribe, for the purpose of taking
86.23 and removing for use for road construction and other purposes tax-forfeited stockpiled
86.24 iron-bearing material. The county auditor must determine that the material is needed and
86.25 suitable for use in the construction or maintenance of a road, tailings basin, settling basin,
86.26 dike, dam, bank fill, or other works on public or private property, and that the use would
86.27 be in the best interests of the public. No lease shall exceed ten years. The use of a stockpile
86.28 for these purposes must first be approved by the commissioner of natural resources. The
86.29 request shall be deemed approved unless the requesting county is notified to the contrary
86.30 by the commissioner of natural resources within six months after receipt of a request for
86.31 approval for use of a stockpile. Once use of a stockpile has been approved, the county may
86.32 continue to lease it for these purposes until approval is withdrawn by the commissioner of
86.33 natural resources.

86.34 (f) The county auditor, with the approval of the county board is authorized to grant
86.35 permits, licenses, and leases to tax-forfeited lands for the depositing of stripping, lean ores,

87.1 tailings, or waste products from mines or ore milling plants, or to use for facilities needed
87.2 to recover iron-bearing oxides from tailings basins or stockpiles, or for a buffer area needed
87.3 for a mining operation, upon the conditions and for the consideration and for the period of
87.4 time, not exceeding 25 years, as the county board may determine. The permits, licenses, or
87.5 leases are subject to approval by the commissioner of natural resources.

87.6 (g) Any person who removes any timber from tax-forfeited land before said timber has
87.7 been scaled and fully paid for as provided in this subdivision is guilty of a misdemeanor.

87.8 (h) The county auditor may, with the approval of the county board, and without first
87.9 offering at public sale, grant leases, for a term not exceeding 25 years, for the removal of
87.10 peat and for the production or removal of farm-grown closed-loop biomass as defined in
87.11 section 216B.2424, subdivision 1, or short-rotation woody crops from tax-forfeited lands
87.12 upon the terms and conditions as the county board may prescribe. Any lease for the removal
87.13 of peat, farm-grown closed-loop biomass, or short-rotation woody crops from tax-forfeited
87.14 lands must first be reviewed and approved by the commissioner of natural resources if the
87.15 lease covers 320 or more acres. No lease for the removal of peat, farm-grown closed-loop
87.16 biomass, or short-rotation woody crops shall be made by the county auditor pursuant to this
87.17 section without first holding a public hearing on the auditor's intention to lease. One printed
87.18 notice in a legal newspaper in the county at least ten days before the hearing, and posted
87.19 notice in the courthouse at least 20 days before the hearing shall be given of the hearing.

87.20 (i) Notwithstanding any provision of paragraph (c) to the contrary, the St. Louis County
87.21 auditor may, at the discretion of the county board, sell timber to the party who bids the
87.22 highest price for all the several kinds of timber, as provided for sales by the commissioner
87.23 of natural resources under section 90.14. Bids offered over and above the appraised price
87.24 need not be applied proportionately to the appraised price of each of the different species
87.25 of timber.

87.26 (j) In lieu of any payment or deposit required in paragraph (b), as directed by the county
87.27 board and under terms set by the county board, the county auditor may accept an irrevocable
87.28 bank letter of credit in the amount equal to the amount otherwise determined in paragraph
87.29 (b). If an irrevocable bank letter of credit is provided under this paragraph, at the written
87.30 request of the purchaser, the county may periodically allow the bank letter of credit to be
87.31 reduced by an amount proportionate to the value of timber that has been harvested and for
87.32 which the county has received payment. The remaining amount of the bank letter of credit
87.33 after a reduction under this paragraph must not be less than 20 percent of the value of the
87.34 timber purchased. If an irrevocable bank letter of credit or cash deposit is provided for the
87.35 down payment required in paragraph (b), and no cutting of timber has taken place on the

88.1 contract for which a letter of credit has been provided, the county may allow the transfer
88.2 of the letter of credit to any other contract issued to the contract holder by the county under
88.3 this chapter to which the contract holder requests in writing that it be credited.

88.4 (k) As directed by the county board, the county auditor may lease tax-forfeited land
88.5 under the terms and conditions prescribed by the county board for the purposes of
88.6 investigating, analyzing, and developing conservation easements that provide ecosystem
88.7 services.

88.8 Sec. 6. Minnesota Statutes 2020, section 282.04, is amended by adding a subdivision to
88.9 read:

88.10 Subd. 4b. **Conservation easements.** The county auditor, with prior review and
88.11 consultation with the commissioner of natural resources and under the terms and conditions
88.12 prescribed by the county board, including reversion in the event of nonuse, may convey
88.13 conservation easements as defined in section 84C.01 on tax-forfeited land.

88.14 Sec. 7. **ADDITION TO STATE PARK.**
