39.30 in greater Minnesota from the time the business subsidy agreement is executed by two
39.31 employees or ten percent, whichever is greater.

42.28 **EFFECTIVE DATE.** This section is effective July 1, 2017.

42.29 Sec. 11. **[116L.31] DUAL TRAINING COMPETENCY GRANTS.**

42.30 Subdivision 1. **Program created.** The commissioner of employment and economic
 42.31 development shall make grants for the training of employees to achieve the competency
 42.32 standard for an occupation identified by the commissioner of labor and industry under
 42.33 section 175.45 and Laws 2014, chapter 312, article 3, section 21. "Competency standard"
 42.34 has the meaning given in section 175.45, subdivision 2.

43.1 Subd. 2. **Eligible grantees.** An employer or an organization representing the
43.2 employer is eligible to apply for a grant to train employees if the employer has employees
43.3 who are in, or are to be trained to be in, an occupation for which a competency standard
43.4 has been identified and the employee has not attained the competency standard prior
43.5 to the commencement of the planned training. Training need not address all aspects
43.6 of a competency standard but may address only the competencies of a standard that an
43.7 employee is lacking. Employees who have previously received a grant under this program
43.8 are not eligible to receive another grant. Each employee must apply for federal Pell and
43.9 state grants as a condition of participating in the program.

43.10 Subd. 3. **Training institution.** (a) Prior to applying for a grant, an employer or an
43.11 organization representing the employer must enter into an agreement with a state college
43.12 or university operated by the Board of Trustees of the Minnesota State Colleges and
43.13 Universities to provide the employee competency standard training.

43.14 (b) For the purposes of this section, "training institution" means an institution
43.15 operated by the Board of Trustees of the Minnesota State Colleges and Universities or an
43.16 institution designated by the chancellor of the Minnesota State Colleges and Universities.

43.17 Subd. 4. **Contract required.** Prior to the start of a training program, an employer
43.18 and employee must enter into a contract detailing the terms of the work relationship during
43.19 and after the training program.

43.20 Subd. 5. **Application.** Applications must be made to the commissioner on a form
43.21 provided by the commissioner. The commissioner must, to the extent possible, make
43.22 the application form short and simple to complete. The commissioner shall establish a
43.23 schedule for applications and grants. The application must include, without limitation:

43.24 (1) the projected number of employee trainees;

43.25 (2) the competency standard for which training will be provided;

43.26 (3) any credential the employee will receive upon completion of training;

43.27 (4) the name and address of the training institution and a signed statement by the
43.28 institution that it is able to and agrees to provide the training;

43.29 (5) the period of the training; and

43.30 (6) the cost of the training charged by the training institution and certified by the
43.31 institution.

43.32 An application may be made for training of employees of multiple employers either by the
43.33 employers or by an organization on their behalf.

43.34 Subd. 6. **Grant criteria.** To the extent there are sufficient applications, the
43.35 commissioner shall award at least an equal dollar amount of grants for training for
43.36 employees whose work site is projected to be outside the metropolitan area as defined

44.1 in section 473.121, subdivision 2, as for employees whose work site is projected to be
44.2 within the metropolitan area. In determining the award of grants, the commissioner must
44.3 consider, among other factors:

44.4 (1) the aggregate state and regional need for employees with the competency to
44.5 be trained;

44.6 (2) the competency standards developed by the commissioner of labor and industry
44.7 as part of the Minnesota PIPELINE Project;

44.8 (3) the per employee cost of training;

44.9 (4) the additional employment opportunities for employees as a result of the training;

44.10 (5) projected increases in compensation for employees receiving the training; and

44.11 (6) the amount of employer training cost match, on both a per employee and
44.12 aggregate basis.

44.13 Subd. 7. **Employer match.** (a) Employers must pay to the training institution a
44.14 percentage of a training institution's charge for the training after subtracting federal Pell
44.15 and state grants for which an employee is eligible. The amount that an employer must pay
44.16 to the training institution shall be determined as follows:

44.17 (1) an employer with greater than or equal to \$50,000,000 in annual revenue in the
44.18 previous calendar year must pay at least 66 percent of the training institution's charge
44.19 for the training;

44.20 (2) an employer with less than \$50,000,000 in annual revenue in the previous
44.21 calendar year but greater than or equal to \$20,000,000 in annual revenue in the previous
44.22 calendar year must pay at least 50 percent of the training institution's charge for the training;

44.23 (3) an employer with less than \$20,000,000 in annual revenue in the previous calendar
44.24 year but greater than or equal to \$10,000,000 in annual revenue in the previous calendar
44.25 year must pay at least 33 percent of the training institution's charge for the training; and

44.26 (4) an employer with less than \$10,000,000 in annual revenue in the previous
44.27 calendar year must pay at least 20 percent of the training institution's charge for the training.

44.28 (b) The match required under this subdivision shall be based solely on the annual
44.29 revenue of the individual employer without regard to any organization representing the
44.30 employer.

44.31 Subd. 8. **Payment of grant.** The commissioner shall make grant payments to the
44.32 training institution in a manner determined by the commissioner after receiving notice
44.33 from the institution that the employer has paid the employer match.

44.34 Subd. 9. **Grant amounts.** (a) The commissioner shall determine a maximum
44.35 amount that may be awarded in a single grant, and a maximum amount that may be
44.36 awarded per employee trained under a grant. The commissioner shall set the maximum

45.1 grant amount at a level that ensures sufficient funding will be available for multiple
45.2 employers. The maximum grant amount per employee trained may not exceed the cost of
45.3 tuition up to 60 credits.

45.4 (b) A grant for a particular employee must be reduced by the amounts of any federal
45.5 Pell grant or state grant the employee is eligible to receive for the training and the amount
45.6 of the employer match.

45.7 Subd. 10. **Reporting.** Commencing in 2017, the commissioner shall annually by
45.8 February 1 report on the activity of the grant program for the preceding fiscal year to the
45.9 chairs of the legislative committees with jurisdiction over workforce policy and finance.
45.10 At a minimum, the report must include:

45.11 (1) research and analysis on the costs and benefits of the grants for employees and
45.12 employers;

45.13 (2) the number of employees who commenced training and the number who
45.14 completed training; and

65.14 shelter or evacuation plan developed by a park. Failure of a municipality to approve a plan
65.15 submitted by a park shall not be grounds for action against the park by the Department of

65.33 period not exceeding 18 months.

66.20 cleared land must be used for the construction of housing to be owned or rented by persons
66.21 who meet the income limits of this section or for other housing-related purposes that
66.22 primarily benefit the persons residing in the adjacent housing. In making selections for

 69.20 Commissioners and their respective chief clerical officers timely complete their compliance
 69.21 with Minnesota Statutes, section 645.021, subdivisions 2 and 3. Terms of members of the
 69.22 Olmsted County Housing and Redevelopment Authority serving on or after the effective
 69.23 date of this section terminate as provided in the resolution adopted by the county board.

69.24 **ARTICLE 4**

69.25 **LABOR AND INDUSTRY**

69.26 Section 1. Minnesota Statutes 2014, section 79.251, subdivision 1, is amended to read:

69.27 Subdivision 1. **General duties of commissioner.** (a)(1) The commissioner shall
 69.28 have all the usual powers and authorities necessary for the discharge of the commissioner's
 69.29 duties under this section and may contract with individuals in discharge of those duties.
 69.30 The commissioner shall audit the reserves established (i) for individual cases arising under
 69.31 policies and contracts of coverage issued under subdivision 4 and (ii) for the total book
 69.32 of business issued under subdivision 4. If the commissioner determines on the basis of
 69.33 an audit that there is an excess surplus in the assigned risk plan, the commissioner must
 69.34 notify the commissioner of management and budget who shall transfer assets of the plan

70.1 equal to the excess surplus to the ~~budget reserve account in the general fund~~ assigned risk
 70.2 safety account in the special compensation fund in the state treasury for grants under
 70.3 section 79.253.

70.4 (2) The commissioner shall monitor the operations of section 79.252 and this section
 70.5 and shall periodically make recommendations to the governor and legislature when
 70.6 appropriate, for improvement in the operation of those sections.

70.7 (3) All insurers and self-insurance administrators issuing policies or contracts under
 70.8 subdivision 4 shall pay to the commissioner a .25 percent assessment on premiums for
 70.9 policies and contracts of coverage issued under subdivision 4 for the purpose of defraying
 70.10 the costs of performing the duties under clauses (1) and (2). Proceeds of the assessment
 70.11 shall be deposited in the state treasury and credited to the general fund.

70.12 (4) The assigned risk plan shall not be deemed a state agency.

70.13 (5) The commissioner shall monitor and have jurisdiction over all reserves
 70.14 maintained for assigned risk plan losses.

70.15 (b) As used in this subdivision, "excess surplus" means the amount of assigned
 70.16 risk plan assets in excess of the amount needed to pay all current liabilities of the plan,
 70.17 including, but not limited to:

70.18 (1) administrative expenses;

70.19 (2) benefit claims; and

70.20 (3) if the assigned risk plan is dissolved under subdivision 8, the amounts that would
 70.21 be due insurers who have paid assessments to the plan.

70.22 **Sec. 2. [175.45] COMPETENCY STANDARDS FOR DUAL TRAINING.**

70.23 **Subdivision 1. Duties; goal.** The commissioner of labor and industry shall identify
 70.24 competency standards for dual training. The goal of dual training is to provide current
 70.25 employees of an employer with training to acquire competencies that the employer
 70.26 requires. The standards shall be identified for employment in occupations in advanced
 70.27 manufacturing, health care services, information technology, and agriculture. Competency
 70.28 standards are not rules and are exempt from the rulemaking provisions of chapter 14, and
 70.29 the provisions in section 14.386 concerning exempt rules do not apply.

70.30 **Subd. 2. Definition; competency standard.** For purposes of this section,
 70.31 "competency standards" means the specific knowledge and skills necessary for a particular
 70.32 occupation.

70.33 **Subd. 3. Competency standard identification process.** In identifying competency
 70.34 standards, the commissioner shall consult with the commissioner of employment and
 70.35 economic development and convene recognized industry experts, representative employers,

71.1 higher education institutions, and representatives of labor to assist in identifying credible
 71.2 competency standards. Competency standards must be based on recognized international
 71.3 and national standards, to the extent that such standards are available and practical.

71.4 Subd. 4. **Duties.** The commissioner shall:

71.5 (1) establish competency standards for entry level and higher skill levels;

71.6 (2) verify the competency standards and skill levels and their transferability by
 71.7 subject matter with expert representatives of each respective industry;

71.8 (3) create and execute a plan for dual training outreach, development, and awareness;

71.9 (4) develop models for Minnesota educational institutions to engage in providing
 71.10 education and training to meet the competency standards established;

71.11 (5) encourage participation by employers in the standard identification process for
 71.12 occupations in their industry; and

71.13 (6) align dual training competency standards with other workforce initiatives.

71.14 Subd. 5. **Notification.** The commissioner must communicate identified competency
 71.15 standards to the commissioner of employment and economic development for the purpose
 71.16 of the dual training competency grant program under section 116L.31. The commissioner
 71.17 of labor and industry shall maintain the competency standards on the department's Web site.

71.18 Sec. 3. Minnesota Statutes 2014, section 177.24, subdivision 1, is amended to read:

71.19 Subdivision 1. **Amount.** (a) For purposes of this subdivision, the terms defined in
 71.20 this paragraph have the meanings given them.

71.21 (1) "Large employer" means an enterprise whose annual gross volume of sales
 71.22 made or business done is not less than \$500,000 (exclusive of excise taxes at the retail

 71.24 sections 177.21 to 177.35.

71.25 (2) "Small employer" means an enterprise whose annual gross volume of sales made

71.29 (b) Except as otherwise provided in sections 177.21 to 177.35:

71.30 (1) every large employer must pay each employee wages at a rate of at least:

71.32 (ii) \$9.00 per hour beginning August 1, 2015;

- 72.10 (4) the rate established under paragraph (f) beginning January 1, 2018.

72.11 No employer may take any action to displace an employee, including a partial

72.12 displacement through a reduction in hours, wages, or employment benefits, in order to

72.13 hire an employee at the wage authorized in this paragraph.

72.14 ~~(d) Notwithstanding paragraph (b), an employer that is a "hotel or motel," "lodging~~

72.15 ~~establishment," or "resort" as defined in Minnesota Statutes 2012, section 157.15,~~

72.16 ~~subdivisions 7, 8, and 11, must pay an employee working under a contract with the~~

72.17 ~~employer that includes the provision by the employer of a food or lodging benefit, if the~~

- 72.23 ~~(4) the rate established under paragraph (f) beginning January 1, 2018.~~

72.24 ~~No employer may take any action to displace an employee, including a partial~~

72.25 ~~displacement through a reduction in hours, wages, or employment benefits, in order to~~

72.26 ~~hire an employee at the wage authorized in this paragraph.~~

72.27 ~~(e) (d)~~ Notwithstanding paragraph (b), a large employer must pay an employee under

72.28 the age of 18 at a rate of at least:

- 72.29 (1) \$6.50 per hour beginning August 1, 2014;
- 72.30 (2) \$7.25 per hour beginning August 1, 2015;
- 72.31 (3) \$7.75 per hour beginning August 1, 2016; and
- 72.32 (4) the rate established under paragraph (f) beginning January 1, 2018.

72.33 No employer may take any action to displace an employee, including a partial

72.34 displacement through a reduction in hours, wages, or employment benefits, in order to

72.35 hire an employee at the wage authorized in this paragraph.

73.1 (e) Notwithstanding paragraph (b), every employer must pay an employee receiving
73.2 gratuities a wage of at least:

73.3 (1) \$8.00 per hour if the employee earns sufficient gratuities during the workweek
73.4 so that the sum of \$8.00 per hour and gratuities received averages at least \$12.00 per
73.5 hour for the workweek; or

73.6 (2) the greater of the wage rate under this section or United States Code, title 29,
73.7 section 206(a)(1), if the employee does not earn sufficient gratuities during the workweek
73.8 so that the sum of \$8.00 per hour and gratuities received averages at least \$12.00 per
73.9 hour for the workweek.

73.10 For the purposes of this section, "employee receiving gratuities" means an employee who
73.11 customarily and regularly receives more than \$30 per month in gratuities. The employer
73.12 must inform a potential employee who may receive gratuities, during the employment
73.13 interview, of the applicable wage under this paragraph. The employer must provide the
73.14 potential employee with a written copy of the wages required under this paragraph and
73.15 the potential employee shall initial the form indicating he or she has received the notice.
73.16 A copy of the signed notice must be kept on file by the employer. If the Minnesota
73.17 Department of Human Rights makes three or more probable cause determinations of
73.18 sexual harassment as defined in section 363A.03, subdivision 43, regarding a single
73.19 employer, this paragraph no longer applies to that employer and the employer must pay all
73.20 employees the otherwise applicable minimum wage under this section.

73.21 (f) No later than August 31 of each year, beginning in 2017, the commissioner shall
73.22 determine the percentage increase in the rate of inflation, as measured by the implicit
73.23 price deflator, national data for personal consumption expenditures as determined by
73.24 the United States Department of Commerce, Bureau of Economic Analysis during the
73.25 12-month period immediately preceding that August or, if that data is unavailable, during
73.26 the most recent 12-month period for which data is available. The minimum wage rates in
73.27 paragraphs (b), (c), (d), and (e) are increased by the lesser of: (1) 2.5 percent, rounded
73.28 to the nearest cent; or (2) the percentage calculated by the commissioner, rounded to the
73.29 nearest cent. A minimum wage rate shall not be reduced under this paragraph. The new
73.30 minimum wage rates determined under this paragraph take effect on the next January 1.

73.31 (g)(1) No later than September 30 of each year, beginning in 2017, the commissioner
73.32 may issue an order that an increase calculated under paragraph (f) not take effect. The
73.33 commissioner may issue the order only if the commissioner, after consultation with the
73.34 commissioner of management and budget, finds that leading economic indicators, including
73.35 but not limited to projections of gross domestic product calculated by the United States
73.36 Department of Commerce, Bureau of Economic Analysis; the Consumer Confidence Index

74.1 issued by the Conference Board; and seasonally adjusted Minnesota unemployment rates,
74.2 indicate the potential for a substantial downturn in the state's economy. Prior to issuing
74.3 an order, the commissioner shall also calculate and consider the ratio of the rate of the
74.4 calculated change in the minimum wage rate to the rate of change in state median income
74.5 over the same time period used to calculate the change in wage rate. Prior to issuing the
74.6 order, the commissioner shall hold a public hearing, notice of which must be published in
74.7 the State Register, on the department's Web site, in newspapers of general circulation, and
74.8 by other means likely to inform interested persons of the hearing, at least ten days prior to
74.9 the hearing. The commissioner must allow interested persons to submit written comments
74.10 to the commissioner before the public hearing and for 20 days after the public hearing.

74.11 (2) The commissioner may in a year subsequent to issuing an order under clause (1),
74.12 make a supplemental increase in the minimum wage rate in addition to the increase for
74.13 a year calculated under paragraph (f). The supplemental increase may be in an amount
74.14 up to the full amount of the increase not put into effect because of the order. If the
74.15 supplemental increase is not the full amount, the commissioner may make a supplemental
74.16 increase of the difference, or any part of a difference, in a subsequent year until the full
74.17 amount of the increase ordered not to take effect has been included in a supplemental
74.18 increase. In making a determination to award a supplemental increase under this clause,
74.19 the commissioner shall use the same considerations and use the same process as for an
74.20 order under clause (1). A supplemental wage increase is not subject to and shall not be
74.21 considered in determining whether a wage rate increase exceeds the limits for annual wage
74.22 rate increases allowed under paragraph (f).

74.23 Sec. 4. Minnesota Statutes 2014, section 177.24, is amended by adding a subdivision
74.24 to read:

74.25 Subd. 3a. **Gratuities; credit cards or charges.** (a) Gratuities presented to an
74.26 employee via inclusion on a debit, charge, or credit card shall be credited to that pay
74.27 period in which they are received by the employee and for which they appear on the
74.28 employee's tip statement.

74.29 (b) Where a gratuity is given by a customer through a debit, charge, or credit card,
74.30 the full amount of gratuity must be allowed the employee.

75.2 provided in this subdivision, a local unit of government may not require the payment of a
75.3 minimum wage that is different than the minimum wage set by this section.

75.4 (b) This subdivision does not apply to wages paid:

75.5 (1) to an employee of the local unit of government;

75.6 (2) for services provided by an individual to the local unit of government under a

75.8 (3) for services provided by an individual that are funded in whole or part by
75.9 financial assistance from the local unit of government.

75.10 (c) For the purpose of this subdivision, "local unit of government" means a statutory
75.11 or home rule charter city, town, county, Metropolitan Council, Metropolitan Airports
75.12 Commission, other metropolitan agencies, and other political subdivisions.

75.13 **EFFECTIVE DATE.** This section is effective the day following final enactment
75.14 and applies to a local unit of government requirement that was established before, on, or
75.15 after that date.

75.16 Sec. 6. **[181.741] LOCAL GOVERNMENT; UNIFORMITY OF PRIVATE**
75.17 **EMPLOYER BENEFIT MANDATES.**

75.18 (a) A local unit of government may not establish, mandate, or otherwise require a
75.19 private employer to provide an employee who is employed within the jurisdiction of
75.20 the local unit of government a benefit that exceeds the requirements of federal or state
75.21 law, rules, or regulations.

75.22 (b) This section does not apply to benefits paid or granted:

75.23 (1) to an employee of the local unit of government;

75.24 (2) under a contract or subcontract for services provided by an individual to the
75.25 local unit of government; or

75.26 (3) under a contract for services provided by an individual that are funded in whole
75.27 or in part by financial assistance from the local unit of government.

75.28 (c) For purposes of this section, "local unit of government" must be broadly
75.29 construed and includes, without limitation, a statutory or home rule charter city, town,
75.30 county, Metropolitan Council, Metropolitan Airports Commission, other metropolitan
75.31 agencies, and other political subdivisions.

75.32 (d) For purposes of this section, the term "benefit" must be broadly construed
75.33 and includes, without limitation, attendance or leave policy, scheduling policy, term of
75.34 employment, paid or unpaid leave, any monetary or nonmonetary compensation.

76.1 **EFFECTIVE DATE.** This section is effective the day following final enactment
 76.2 and applies to a local unit of government mandate or requirement that was established
 76.3 before, on, or after that date.

76.4 Sec. 7. Minnesota Statutes 2014, section 299F.011, is amended by adding a subdivision
 76.5 to read:

76.6 **Subd. 4d. Single-family dwelling; fire sprinklers.** (a) The State Building Code,
 76.7 the State Fire Code, or a political subdivision of the state by code, by ordinance, as a
 76.8 condition of receiving public funding, or in any other way, must not require the installation
 76.9 of fire sprinklers, any fire sprinkler system components, or automatic fire-extinguishing
 76.10 equipment or devices in any new or existing single-family detached dwelling unit.

76.11 (b) Nothing in this subdivision shall be construed to affect or limit a requirement
 76.12 for smoke or fire detectors, alarms, or their components.

76.13 **EFFECTIVE DATE.** This section is effective the day following final enactment.

76.14 Sec. 8. Minnesota Statutes 2014, section 326B.092, subdivision 7, is amended to read:

 76.16 license is the base license fee plus any applicable board fee, continuing education fee, and
 76.17 contractor recovery fund fee and additional assessment, as set forth in this subdivision.

76.18 (b) For purposes of this section, "license duration" means the number of years for
 76.19 which the license is issued except that:

76.20 (1) if the initial license is not issued for a whole number of years, the license duration
 76.21 shall be rounded up to the next whole number; and

76.22 (2) if the department receives an application for license renewal after the renewal
 76.23 deadline, license duration means the number of years for which the renewed license would
 76.24 have been issued if the renewal application had been submitted on time and all other
 76.25 requirements for renewal had been met.

76.26 (c) The base license fee shall depend on whether the license is classified as an entry
 76.27 level, master, journeyman, or business license, and on the license duration. The base
 76.28 license fee shall be:

 77.4 is one year; and \$20 if the renewal license duration is two years; ~~and \$30 if the renewal~~
 77.5 ~~license duration is three years.~~

77.6 (e) If the license is issued under sections 326B.31 to 326B.59 or 326B.90 to

77.25 Sec. 9. Minnesota Statutes 2014, section 326B.096, is amended to read:

77.26 **326B.096 REINSTATEMENT OF LICENSES.**

77.27 Subdivision 1. **Reinstatement after revocation.** (a) If a license is revoked under
 77.28 this chapter and if an applicant for a license needs to pass an examination administered by
 77.29 the commissioner before becoming licensed, then, in order to have the license reinstated,
 77.30 the person who holds the revoked license must:

- 77.31 (1) retake the examination and achieve a passing score; and
- 77.32 (2) meet all other requirements for an initial license, including payment of the
 77.33 application and examination fee and the license fee. The person holding the revoked
 77.34 license is not eligible for Minnesota licensure without examination based on reciprocity.

78.1 (b) If a license is revoked under a chapter other than this chapter, then, in order to
78.2 have the license reinstated, the person who holds the revoked license must:

78.3 (1) apply for reinstatement to the commissioner no later than two years after the
78.4 effective date of the revocation;

78.5 (2) pay a ~~\$100~~ \$50 reinstatement application fee and any applicable renewal license
78.6 fee; and

78.7 (3) meet all applicable requirements for licensure, except that, unless required by the
78.8 order revoking the license, the applicant does not need to retake any examination and does
78.9 not need to repay a license fee that was paid before the revocation.

78.10 Subd. 2. **Reinstatement after suspension.** If a license is suspended, then, in order
78.11 to have the license reinstated, the person who holds the suspended license must:

78.15 fee; and

78.16 (3) meet all applicable requirements for licensure, except that, unless required by the
78.17 order suspending the license, the applicant does not need to retake any examination and
78.18 does not need to repay a license fee that was paid before the suspension.

78.19 Subd. 3. **Reinstatement after voluntary termination.** A licensee who is not an
78.20 individual may voluntarily terminate a license issued to the person under this chapter. If a
78.21 licensee has voluntarily terminated a license under this subdivision, then, in order to have
78.22 the license reinstated, the person who holds the terminated license must:

78.23 (1) apply for reinstatement to the commissioner no later than the date that the license
78.24 would have expired if it had not been terminated;

78.25 (2) pay a ~~\$100~~ \$50 reinstatement application fee and any applicable renewal license

78.27 (3) meet all applicable requirements for licensure, except that the applicant does not

78.29 **EFFECTIVE DATE.** The amendments to this section are effective July 1, 2015,
78.30 and expire July 1, 2017.

78.31 Sec. 10. Minnesota Statutes 2014, section 326B.106, subdivision 1, is amended to read:

78.32 Subdivision 1. **Adoption of code.** (a) Subject to paragraphs (c) and (d) and
78.33 sections 326B.101 to 326B.194, the commissioner shall by rule and in consultation
78.34 with the Construction Codes Advisory Council establish a code of standards for the
78.35 construction, reconstruction, alteration, and repair of buildings, governing matters of

79.1 structural materials, design and construction, fire protection, health, sanitation, and safety,
79.2 including design and construction standards regarding heat loss control, illumination,
79.3 and climate control. The code must also include duties and responsibilities for code
79.4 administration, including procedures for administrative action, penalties, and suspension
79.5 and revocation of certification. The code must conform insofar as practicable to model
79.6 building codes generally accepted and in use throughout the United States, including a
79.7 code for building conservation. In the preparation of the code, consideration must be
79.8 given to the existing statewide specialty codes presently in use in the state. Model codes
79.9 with necessary modifications and statewide specialty codes may be adopted by reference.
79.10 The code must be based on the application of scientific principles, approved tests, and
79.11 professional judgment. To the extent possible, the code must be adopted in terms of
79.12 desired results instead of the means of achieving those results, avoiding wherever possible
79.13 the incorporation of specifications of particular methods or materials. To that end the code
79.14 must encourage the use of new methods and new materials. Except as otherwise provided
79.15 in sections 326B.101 to 326B.194, the commissioner shall administer and enforce the
79.16 provisions of those sections.

79.17 (b) The commissioner shall develop rules addressing the plan review fee assessed

89.19 must provide a written cancellation request to the creditor, administrator, or other party.
89.20 If such a request is being made because of the termination of the finance agreement,

90.7 (b) In the event of a borrower's cancellation of the GAP waiver or early termination
90.8 of the finance agreement, after the agreement has been in effect beyond the free-look
90.9 period, the borrower may be entitled to a refund of any unearned portion of the purchase

97.33 "I UNDERSTAND AND ACKNOWLEDGE THAT:

97.34 If I make an investment in an offering through this MNvest portal, it is very likely

 97.36 complete loss of my investment, and I need to be able to afford such a loss.

98.1 This offering has not been reviewed or approved by any state or federal securities
98.2 commission or division or other regulatory authority and that no such person or authority
98.3 has confirmed the accuracy or determined the adequacy of any disclosure made to me
98.4 relating to this offering.

98.5 If I make an investment in an offering through this MNvest portal, it is very likely
98.6 that the investment will be difficult to transfer or sell and, accordingly, I may be required
98.7 to hold the investment indefinitely.

98.8 By entering into this transaction with the company, I am affirmatively representing

108.17 (2) any earnings with respect to that week are less than the applicant's weekly
108.18 unemployment benefit amount.

108.19 **EFFECTIVE DATE.** This section is effective August 2, 2015.

108.20 Sec. 4. Minnesota Statutes 2014, section 268.035, subdivision 30, is amended to read:

108.21 Subd. 30. **Wages paid.** (a) "Wages paid" means the amount of wages:

108.22 (1) that have been actually paid; or

108.23 (2) that have been credited to or set apart so that payment and disposition is under
108.24 the control of the employee.

108.25 (b) Wage payments delayed beyond the regularly scheduled pay date are considered
108.26 "wages paid" on the missed pay date. Back pay is considered "wages paid" on the date
108.27 of actual payment. Any wages earned but not paid with no scheduled date of payment is
108.28 considered "wages paid" on the last day of employment.

108.29 ~~(b)~~ (c) Wages paid does not include wages earned but not paid except as provided
108.30 for in this subdivision.

108.31 **EFFECTIVE DATE.** This section is effective August 2, 2015.

109.1 Sec. 5. Minnesota Statutes 2014, section 268.051, is amended by adding a subdivision
109.2 to read:

109.3 Subd. 2a. **Unemployment insurance tax reduction.** (a) If the balance in the trust
109.4 fund on December 31 of any calendar year exceeds the average high cost multiple of 0.9,
109.5 future unemployment taxes payable must be reduced by all amounts above 0.9. The
109.6 amount of tax reduction for any taxpaying employer is the same percentage of the total
109.7 amount above 0.9 as the percentage of taxes paid by nonmaximum experience rated
109.8 employers for the prior calendar year.

109.9 (b) This subdivision only applies if the balance in the trust fund on December 31 is
109.10 four percent or more above the average high cost multiple of 0.9.

109.11 (c) For the purposes of this subdivision, "average high cost multiple" has the same
109.12 meaning as given in Code of Federal Regulations, title 20, section 606.3, as amended
109.13 through the effective date of this section.

109.14 (d) This subdivision does not apply to employers that are at the maximum experience
109.15 rating for the calendar year, nor to high experience rating industry employers under section
109.16 268.051, subdivision 5, paragraph (b). Computations under paragraph (a) are not subject
109.17 to the rounding requirement of section 268.034. The refund provisions of section 268.057,
109.18 subdivision 7, do not apply. Computations under paragraph (a) are based upon taxes paid
109.19 on or before February 15 of the calendar year.

109.20 (e) The unemployment tax reduction under this subdivision applies to taxes paid
109.21 between March 1 and December 15 of the year following the December 31 calculation
109.22 under paragraph (a).

109.23 Sec. 6. Minnesota Statutes 2014, section 268.051, subdivision 7, is amended to read:

109.24 Subd. 7. **Tax rate buydown.** (a) Any taxpaying employer that has been assigned
109.25 a tax rate based upon an experience rating, and has no amounts past due under this
109.26 chapter, may, upon the payment of an amount equivalent to any portion or all of the
109.27 unemployment benefits used in computing the experience rating plus a surcharge of 25
109.28 percent, obtain a cancellation of unemployment benefits used equal to the payment made,
109.29 less the surcharge. The payment is applied to the most recent unemployment benefits paid
109.30 that are used in computing the experience rating. Upon the payment, the commissioner
109.31 must compute a new experience rating for the employer, and compute a new tax rate.

109.32 (b) Payments for a tax rate buydown may be made only by electronic payment
109.33 and must be received within 120 calendar days from the beginning of the calendar year
109.34 for which the tax rate is effective.

110.1 (e) For calendar years 2011, 2012, and 2013, the surcharge of 25 percent provided
110.2 for in paragraph (a) does not apply.

110.3 **EFFECTIVE DATE.** This section is effective August 2, 2015.

110.4 Sec. 7. Minnesota Statutes 2014, section 268.07, subdivision 2, is amended to read:

110.5 Subd. 2. **Benefit account requirements.** (a) Unless paragraph (b) applies, to
110.6 establish a benefit account an applicant must have total wage credits in the applicant's four
110.7 quarter base period of at least: ~~(1) \$2,400; or (2) 5.3 percent of the state's average annual~~
110.8 wage rounded down to the next lower \$100, ~~whichever is higher.~~

110.9 (b) To establish a new benefit account ~~within 52 calendar weeks~~ following the
110.10 expiration of the benefit year on a prior benefit account, an applicant must have performed
110.11 ~~services~~ actual work in subsequent covered employment and have been paid wages in one
110.12 or more completed calendar quarters that started after the effective date of the prior benefit
110.13 account. The wages paid for ~~those services~~ that employment must be at least enough to
110.14 meet the requirements of paragraph (a). A benefit account under this paragraph may not
110.15 be established effective earlier than the Sunday following the end of the most recent
110.16 completed calendar quarter in which the requirements of paragraph (a) were met. ~~One~~
110.17 ~~of the reasons for this paragraph is to prevent~~ An applicant ~~from establishing~~ may not
110.18 establish a second benefit account as a result of one loss of employment.

110.19 **EFFECTIVE DATE.** This section is effective August 2, 2015, except the amendment
110.20 striking "within 52 calendar weeks" is effective the day following final enactment.

110.21 Sec. 8. Minnesota Statutes 2014, section 268.07, subdivision 3b, is amended to read:

110.22 Subd. 3b. **Limitations on applications and benefit accounts.** (a) An application for
110.23 unemployment benefits is effective the Sunday of the calendar week that the application
110.24 was filed. An application for unemployment benefits may be backdated one calendar week
110.25 before the Sunday of the week the application was actually filed if the applicant requests
110.26 the backdating at the time the application is filed. An application may be backdated only
110.27 if the applicant was unemployed during the period of the backdating. If an individual
110.28 attempted to file an application for unemployment benefits, but was prevented from filing
110.29 an application by the department, the application is effective the Sunday of the calendar
110.30 week the individual first attempted to file an application.

110.31 (b) A benefit account established under subdivision 2 is effective the date the
110.32 application for unemployment benefits was effective.

110.33 (c) A benefit account, once established, may later be withdrawn only if:

111.1 (1) the applicant has not been paid any unemployment benefits on that benefit
111.2 account; and

111.3 (2) a new application for unemployment benefits is filed and a new benefit account is
111.4 established at the time of the withdrawal.

111.5 A determination or amended determination of eligibility or ineligibility issued under
111.6 section 268.101, that was sent before the withdrawal of the benefit account, remains in
111.7 effect and is not voided by the withdrawal of the benefit account.

111.8 (d) An application for unemployment benefits is not allowed before the Sunday
111.9 following the expiration of the benefit year on a prior benefit account. Except as allowed
111.10 under paragraph (c), an applicant may establish only one benefit account each 52 calendar
111.11 weeks. This paragraph applies to benefit accounts established under any federal law or
111.12 the law of any other state.

111.13 **EFFECTIVE DATE.** This section is effective August 2, 2015.

111.14 Sec. 9. Minnesota Statutes 2014, section 268.085, subdivision 1, is amended to read:

111.15 Subdivision 1. **Eligibility conditions.** An applicant may be eligible to receive
111.16 unemployment benefits for any week if:

111.17 (1) the applicant has filed a continued request for unemployment benefits for that
111.18 week under section 268.0865;

111.19 (2) the week for which unemployment benefits are requested is in the applicant's
111.20 benefit year;

111.21 (3) the applicant was unemployed as defined in section 268.035, subdivision 26;

111.22 (4) the applicant was available for suitable employment as defined in subdivision

111.23 15. The applicant's weekly unemployment benefit amount is reduced one-fifth for each
111.24 day the applicant is unavailable for suitable employment. This clause does not apply to
111.25 an applicant who is in reemployment assistance training, or each day the applicant is on
111.26 jury duty or serving as an election judge;

111.27 (5) the applicant was actively seeking suitable employment as defined in subdivision
111.28 16. This clause does not apply to an applicant who is in reemployment assistance training
111.29 or who was on jury duty throughout the week;

111.30 (6) the applicant has served a nonpayable period of one week that the applicant is
111.31 otherwise entitled to some amount of unemployment benefits. This clause does not apply
111.32 if the applicant would have been entitled to federal disaster unemployment assistance
111.33 because of a disaster in Minnesota, but for the applicant's establishment of a benefit
111.34 account under section 268.07; and

112.1 (7) the applicant has been participating in reemployment assistance services, such as
 112.2 ~~job development of, and adherence to, a work search and resume writing classes plan~~, if
 112.3 the applicant has been ~~determined in need of reemployment assistance services~~ directed
 112.4 to participate by the commissioner, ~~unless~~. This clause does not apply if the applicant
 112.5 has good cause for failing to participate.

112.6 **EFFECTIVE DATE.** This section is effective August 2, 2015.

112.7 Sec. 10. Minnesota Statutes 2014, section 268.085, subdivision 2, is amended to read:

112.8 Subd. 2. **Not eligible.** An applicant is ineligible for unemployment benefits for
 112.9 any week:

112.10 (1) that occurs before the effective date of a benefit account;

112.11 (2) that the applicant, at the beginning of the week, has an outstanding fraud
 112.12 overpayment balance under section 268.18, subdivision 2, including any penalties and
 112.13 interest;

112.14 (3) that occurs in a period when the applicant is a student in attendance at, or on
 112.15 vacation from a secondary school including the period between academic years or terms;

112.16 (4) that the applicant is incarcerated or performing court-ordered community service.
 112.17 The applicant's weekly unemployment benefit amount is reduced by one-fifth for each day
 112.18 the applicant is incarcerated or performing court-ordered community service;

112.19 (5) that the applicant fails or refuses to provide information on an issue of
 112.20 ineligibility required under section 268.101;

112.21 (6) that the applicant is performing services 32 hours or more, in employment,
 112.22 covered employment, noncovered employment, volunteer work, or self-employment
 112.23 regardless of the amount of any earnings; or

112.24 (7) with respect to which the applicant ~~is receiving, has received, or has filed an~~
 112.25 application for unemployment benefits under any federal law or the law of any other
 112.26 state. If the appropriate agency finally determines that the applicant is not entitled to ~~the~~
 112.27 ~~unemployment benefits~~ establish a benefit account under federal law of the law of any
 112.28 other state, this clause does not apply.

112.29 **EFFECTIVE DATE.** This section is effective August 2, 2015.

112.30 Sec. 11. Minnesota Statutes 2014, section 268.095, subdivision 1, is amended to read:

112.31 Subdivision 1. **Quit.** An applicant who quit employment is ineligible for all
 112.32 unemployment benefits according to subdivision 10 except when:

113.1 (1) the applicant quit the employment because of a good reason caused by the
113.2 employer as defined in subdivision 3;

113.3 (2) the applicant quit the employment to accept other covered employment that
113.4 provided substantially equal to or better terms and conditions of employment, but
113.5 the applicant did not work long enough at the second employment to have sufficient
113.6 subsequent earnings to satisfy the period of ineligibility that would otherwise be imposed
113.7 under subdivision 10 for quitting the first employment;

113.8 (3) the applicant quit the employment within 30 calendar days of beginning the
113.9 employment because the employment was unsuitable for the applicant;

113.10 (4) the employment was unsuitable for the applicant and the applicant quit to enter
113.11 reemployment assistance training;

113.12 (5) the employment was part time and the applicant also had full-time employment
113.13 in the base period, from which full-time employment the applicant separated because of
113.14 reasons for which the applicant ~~was held~~ is not to be ineligible, and the wage credits from
113.15 the full-time employment are sufficient to meet the minimum requirements to establish a
113.16 benefit account under section 268.07;

113.17 (6) the applicant quit because the employer notified the applicant that the applicant
113.18 was going to be laid off because of lack of work within 30 calendar days. An applicant
113.19 who quit employment within 30 calendar days of a notified date of layoff because of lack
113.20 of work is ineligible for unemployment benefits through the end of the week that includes
113.21 the scheduled date of layoff;

113.22 (7) the applicant quit the employment (i) because the applicant's serious illness or
113.23 injury made it medically necessary that the applicant quit; or (ii) in order to provide
113.24 necessary care because of the illness, injury, or disability of an immediate family member
113.25 of the applicant. This exception only applies if the applicant informs the employer of
113.26 the medical problem and requests accommodation and no reasonable accommodation
113.27 is made available.

113.28 If the applicant's serious illness is chemical dependency, this exception does not
113.29 apply if the applicant was previously diagnosed as chemically dependent or had treatment
113.30 for chemical dependency, and since that diagnosis or treatment has failed to make
113.31 consistent efforts to control the chemical dependency.

113.32 This exception raises an issue of the applicant's being available for suitable
113.33 employment under section 268.085, subdivision 1, that the commissioner must determine;

113.34 (8) the applicant's loss of child care for the applicant's minor child caused the
113.35 applicant to quit the employment, provided the applicant made reasonable effort to obtain

114.1 other child care and requested time off or other accommodation from the employer and no
114.2 reasonable accommodation is available.

114.3 This exception raises an issue of the applicant's being available for suitable
114.4 employment under section 268.085, subdivision 1, that the commissioner must determine;

114.5 (9) the applicant quit because domestic abuse, sexual assault, or stalking of the
114.6 applicant or an immediate family member of the applicant, necessitated the applicant's
114.7 quitting the employment.

114.8 For purposes of this subdivision:

114.9 (i) "domestic abuse" has the meaning given in section 518B.01;

114.10 (ii) "sexual assault" means an act that would constitute a violation of sections
114.11 609.342 to 609.3453 or 609.352; and

114.12 (iii) "stalking" means an act that would constitute a violation of section 609.749; or

114.13 (10) the applicant quit in order to relocate to accompany a spouse whose job location
114.14 changed making it impractical for the applicant to commute. This exception only applies
114.15 if the spouse's job is in the military or provides total wages and other compensation that
114.16 is equal to or better than the applicant's employment. When determining if total wages
114.17 and compensation are equal to or better than the applicant's employment, differences in
114.18 cost of living must be considered.

114.19 **EFFECTIVE DATE.** This section is effective August 2, 2015.

114.20 Sec. 12. Minnesota Statutes 2014, section 268.095, subdivision 10, is amended to read:

114.21 Subd. 10. **Ineligibility duration.** (a) Ineligibility from the payment of all
114.22 unemployment benefits under subdivisions 1 and 4 is for the duration of the applicant's
114.23 unemployment and until the end of the calendar week that the applicant had total wages
114.24 paid for actual work performed in subsequent covered employment sufficient to meet
114.25 one-half of the requirements of section 268.07, subdivision 2, paragraph (a).

114.26 (b) Ineligibility imposed under subdivisions 1 and 4 begins on the Sunday of the
114.27 week that the applicant became separated from employment.

114.28 (c) In addition to paragraph (a), if the applicant was discharged from employment
114.29 because of aggravated employment misconduct, wage credits from that employment are
114.30 canceled and cannot be used for purposes of a benefit account under section 268.07,
114.31 subdivision 2.

114.32 **EFFECTIVE DATE.** This section is effective August 2, 2015.

114.33 Sec. 13. Minnesota Statutes 2014, section 268.105, subdivision 3, is amended to read:

115.2 an unemployment law judge may be withdrawn by the appealing ~~person~~ party, or an
115.3 authorized representative of that ~~person~~ party, ~~upon~~ by filing of a notice of withdrawal. A
115.4 notice of withdrawal may be filed by mail or by electronic transmission.

115.5 (b) The appeal must, by order, be dismissed if a notice of withdrawal is filed, unless
115.6 an unemployment law judge directs that further ~~adjudication is~~ proceedings are required
115.7 for a proper result. An order of dismissal issued as a result of a notice of withdrawal is
115.8 not subject to reconsideration or appeal.

115.9 (c) ~~A notice of withdrawal may be filed by mail or by electronic transmission.~~ A
115.10 party may file a new appeal after the order of dismissal, but the original 20-calendar-day
115.11 period for appeal begins from the date of issuance of the determination and that time
115.12 period is not suspended or restarted by the notice of withdrawal and order of dismissal.
115.13 The new appeal may only be filed by mail or facsimile transmission.

115.14 (d) For purposes of this subdivision, "appeals" includes a request for reconsideration
115.15 filed under subdivision 2.

115.16 **EFFECTIVE DATE.** This section is effective August 2, 2015.

115.17 Sec. 14. Minnesota Statutes 2014, section 268.105, subdivision 7, is amended to read:

115.18 Subd. 7. **Judicial review.** (a) The Minnesota Court of Appeals must, by writ
115.19 of certiorari to the department, review the unemployment law judge's decision on
115.20 reconsideration, provided a petition for the writ is filed with the court and a copy is served
115.21 upon the unemployment law judge or the commissioner and any other party within 30
115.22 calendar days of the sending of the unemployment law judge's decision on reconsideration
115.23 under subdivision 2. Three days are added to the 30-calendar-day period if the decision on
115.24 reconsideration was mailed to the parties.

115.25 (b) Any employer petitioning for a writ of certiorari must pay to the court the
115.26 required filing fee in accordance with the Rules of Civil Appellate Procedure. If the
115.27 employer requests a written transcript of the testimony received at the hearing conducted
115.28 under subdivision 1, the employer must pay to the department the cost of preparing the
115.29 transcript. That money is credited to the administration account.

115.30 (c) Upon issuance by the Minnesota Court of Appeals of a writ of certiorari as a
115.31 result of an applicant's petition, the department must furnish to the applicant at no cost a
115.32 written transcript of any testimony received at the hearing conducted under subdivision 1,
115.33 and, if requested, a copy of all exhibits entered into evidence. No filing fee or cost bond is
115.34 required of an applicant petitioning the Minnesota Court of Appeals for a writ of certiorari.

116.1 (d) The Minnesota Court of Appeals may affirm the decision of the unemployment
116.2 law judge or remand the case for further proceedings; or it may reverse or modify the
116.3 decision if the substantial rights of the petitioner may have been prejudiced because the
116.4 findings, inferences, conclusion, or decision are:

116.7 (3) made upon unlawful procedure;

116.8 (4) affected by other error of law;

116.9 (5) unsupported by substantial evidence in view of the entire record as submitted; or

120.16 **EFFECTIVE DATE.** This section is effective the day following final enactment.

120.17 **ARTICLE 8**

120.18 **ENERGY CONSERVATION**

120.19 Section 1. Minnesota Statutes 2014, section 216B.16, subdivision 6b, is amended to
120.20 read:

120.21 Subd. 6b. **Energy conservation improvement.** (a) Except as otherwise provided
120.22 in this subdivision, all investments and expenses of a public utility as defined in section
120.23 216B.241, subdivision 1, paragraph (h), incurred in connection with energy conservation
120.24 improvements shall be recognized and included by the commission in the determination of
120.25 just and reasonable rates as if the investments and expenses were directly made or incurred
120.26 by the utility in furnishing utility service.

120.27 (b) The commission shall not include investments and expenses for energy
120.28 conservation improvements in determining (i) just and reasonable electric rates for retail
120.29 electric service provided to large customer facilities whose electric utilities have been
120.30 exempted by the commissioner under section 216B.241, subdivision 1a, paragraph (b),
120.31 with respect to those large customer facilities; or (ii) just and reasonable gas rates for
120.32 large energy facilities, large customer facilities whose natural gas utilities have been
120.33 exempted by the commissioner under section 216B.241, subdivision 1a, paragraph (b), or

121.1 commercial gas customer facilities whose natural gas utilities have been exempted by the
121.2 commissioner under section 216B.241, subdivision 1a, paragraph (c).

121.3 (c) The commission may permit a public utility to file rate schedules providing for
121.4 annual recovery of the costs of energy conservation improvements. These rate schedules
121.5 may be applicable to less than all the customers in a class of retail customers if necessary
121.6 to reflect the requirements of section 216B.241. The commission shall allow a public
121.7 utility, without requiring a general rate filing under this section, to reduce the electric rates
121.8 applicable to large customer facilities that have been exempted by the commissioner under
121.9 section 216B.241, subdivision 1a, paragraph (b), and to reduce the gas rate applicable to a
121.10 large energy facility, a large customer facility or commercial customer facility that has
121.11 been exempted by the commissioner under section 216B.241, subdivision 1a, paragraph
121.12 (b) or (c), or by the commission under section 216B.241, subdivision 2, by an amount that
121.13 reflects the elimination of energy conservation improvement investments or expenditures
121.14 for those facilities. In the event that the commission has set electric or gas rates based on
121.15 the use of an accounting methodology that results in the cost of conservation improvements
121.16 being recovered from utility customers over a period of years, the rate reduction may
121.17 occur in a series of steps to coincide with the recovery of balances due to the utility for
121.18 conservation improvements made by the utility on or before December 31, 2007.

121.19 (d) Investments and expenses of a public utility shall not include electric utility
121.20 infrastructure costs as defined in section 216B.1636, subdivision 1, paragraph (b).

121.21 (e) This subdivision expires December 31, 2016.

121.22 Sec. 2. Minnesota Statutes 2014, section 216B.16, subdivision 6c, is amended to read:

121.23 Subd. 6c. **Incentive plan for energy conservation improvement.** (a) The
121.24 commission may order public utilities to develop and submit for commission approval
121.25 incentive plans that describe the method of recovery and accounting for utility
121.26 conservation expenditures and savings. In developing the incentive plans the commission
121.27 shall ensure the effective involvement of interested parties.

121.28 (b) In approving incentive plans, the commission shall consider:

121.29 (1) whether the plan is likely to increase utility investment in cost-effective energy
121.30 conservation;

121.31 (2) whether the plan is compatible with the interest of utility ratepayers and other
121.32 interested parties;

121.33 (3) whether the plan links the incentive to the utility's performance in achieving
121.34 cost-effective conservation; and

121.35 (4) whether the plan is in conflict with other provisions of this chapter.

122.1 (c) The commission may set rates to encourage the vigorous and effective
122.2 implementation of utility conservation programs. The commission may:

122.3 (1) increase or decrease any otherwise allowed rate of return on net investment based
122.4 upon the utility's skill, efforts, and success in conserving energy;

122.5 (2) share between ratepayers and utilities the net savings resulting from energy
122.6 conservation programs to the extent justified by the utility's skill, efforts, and success in
122.7 conserving energy; and

122.8 (3) adopt any mechanism that satisfies the criteria of this subdivision, such that
122.9 implementation of cost-effective conservation is a preferred resource choice for the public
122.10 utility considering the impact of conservation on earnings of the public utility.

122.11 (d) This subdivision expires December 31, 2016.

122.12 Sec. 3. Minnesota Statutes 2014, section 216B.2401, is amended to read:

122.13 **216B.2401 ENERGY SAVINGS POLICY GOAL.**

122.14 (a) The legislature finds that energy savings are an energy resource, and that
122.15 cost-effective energy savings are preferred over all other energy resources. The legislature
122.16 further finds that cost-effective energy savings should be procured systematically and
122.17 aggressively in order to reduce utility costs for businesses and residents, improve the
122.18 competitiveness and profitability of businesses, create more energy-related jobs, reduce
122.19 the economic burden of fuel imports, and reduce pollution and emissions that cause
122.20 climate change. Therefore, it is the energy policy of the state of Minnesota to achieve
122.21 annual energy savings equal to at least 1.5 percent of annual retail energy sales of
122.22 electricity and natural gas through cost-effective energy conservation improvement
122.23 programs and rate design, energy efficiency achieved by energy consumers without
122.24 direct utility involvement, energy codes and appliance standards, programs designed
122.25 to transform the market or change consumer behavior, energy savings resulting from
122.26 efficiency improvements to the utility infrastructure and system, and other efforts to
122.27 promote energy efficiency and energy conservation.

122.28 (b) This section expires December 31, 2016.

122.29 Sec. 4. Minnesota Statutes 2014, section 216B.241, is amended by adding a
122.30 subdivision to read:

122.31 Subd. 11. **Expiration.** This section expires December 31, 2016.

124.4 dwelling installation is the lesser of 25 percent of the installed cost of a complete system
124.5 or \$2,500. The maximum rebate for a multiple family residential dwelling installation
124.6 is the lesser of 25 percent of the installed cost of a complete system or \$5,000. The
124.7 maximum rebate for a commercial or industrial installation is the lesser of 25 percent of
124.8 the installation cost of the complete system or \$25,000. The system must be installed
124.9 by a factory authorized installer.

124.10 (d) For a wind energy conversion system, the rebate amount is equal to the lesser of
124.11 30 percent of the installation and equipment cost or \$15,000.

124.12 Sec. 6. Minnesota Statutes 2014, section 216C.435, subdivision 5, is amended to read:

124.13 Subd. 5. **Energy improvement.** "Energy improvement" means:

124.14 (1) any renovation or retrofitting of a building to improve energy efficiency that
124.15 is permanently affixed to the property and that results in a net reduction in energy
124.16 consumption without altering the principal source of energy;

124.17 (2) permanent installation of new or upgraded electrical circuits and related
124.18 equipment to enable electrical vehicle charging; ~~or~~

124.19 (3) a renewable energy system attached to, installed within, or proximate to a

124.28 (a) By July 1, 2015, the commissioner of commerce shall convene an energy
124.29 conservation advisory task force to examine the feasibility of reorganizing the delivery
124.30 of energy conservation services under Minnesota Statutes, section 216B.241, in order to
124.31 increase energy savings, make energy more affordable to ratepayers, and reduce pollution
124.32 from energy generation. As part of its inquiry, the task force shall examine new and
124.33 emerging energy technologies and the experience of states that deliver energy conservation
124.34 services to ratepayers through a third-party provider.

125.1 (b) The commissioner of commerce or the commissioner's designee shall serve as

127.26 the discontinued Prairie Island facility and \$5,250,000 for the discontinued Monticello
127.27 facility for any year in which the commission finds, by the preponderance of the evidence,
127.28 that the public utility did not make a good faith effort to remove the spent nuclear
127.29 fuel stored at the facility to a permanent or interim storage site out of the state. This
127.30 determination shall be made at least every two years.

127.34 ~~(2) to promote the start-up, expansion, and attraction of renewable electric energy~~
127.35 ~~projects and companies within the state;~~

128.1 ~~(3) to stimulate research and development within the state into renewable electric~~
128.2 ~~energy technologies; and~~

128.3 ~~(4) to develop near-commercial and demonstration-scale renewable electric projects~~
128.4 ~~or near-commercial and demonstration-scale electric infrastructure delivery projects if~~
128.5 ~~those delivery projects enhance the delivery of renewable electric energy.~~

128.6 ~~The utility that owns a nuclear generating plant is eligible to apply for renewable~~
128.7 ~~development account grants.~~

128.8 ~~(e) Expenditures authorized by this subdivision from the account may be made only~~
128.9 ~~after approval by order of the Public Utilities Commission upon a petition by the public~~
128.10 ~~utility. The commission may approve proposed expenditures, may disapprove proposed~~
128.11 ~~expenditures that it finds to be not in compliance with this subdivision or otherwise~~
128.12 ~~not in the public interest, and may, if agreed to by the public utility, modify proposed~~
128.13 ~~expenditures. The commission may approve reasonable and necessary expenditures~~
128.14 ~~for administering the account in an amount not to exceed five percent of expenditures.~~
128.15 ~~Commission approval is not required for expenditures required under subdivisions 2~~
128.16 ~~and 3, section 116C.7791, or other law.~~

128.17 ~~(f) The account shall be managed by the public utility but the public utility must~~
128.18 ~~consult about account expenditures with an advisory group that includes, among others,~~
128.19 ~~representatives of its ratepayers. The commission may require that other interests be~~
128.20 ~~represented on the advisory group. The advisory group must be consulted with respect to~~
128.21 ~~the general scope of expenditures in designing a request for proposal and in evaluating~~
128.22 ~~projects submitted in response to a request for proposals. In addition to consulting with the~~
128.23 ~~advisory group, the public utility must utilize an independent third-party expert to evaluate~~
128.24 ~~proposals submitted in response to a request for proposal, including all proposals made by~~
128.25 ~~the public utility. A request for proposal for research and development under paragraph (d),~~
128.26 ~~clause (3), may be limited to or include a request to higher education institutions located in~~
128.27 ~~Minnesota for multiple projects authorized under paragraph (d), clause (3). The request for~~
128.28 ~~multiple projects may include a provision that exempts the projects from the third-party~~
128.29 ~~expert review and instead provides for project evaluation and selection by a merit peer~~
128.30 ~~review grant system. The utility should attempt to reach agreement with the advisory~~
128.31 ~~group after consulting with it but the utility has full and sole authority to determine which~~
128.32 ~~expenditures shall be submitted to the commission for commission approval. In the~~
128.33 ~~process of determining request for proposal scope and subject and in evaluating responses~~
128.34 ~~to request for proposals, the public utility must strongly consider, where reasonable,~~
128.35 ~~potential benefit to Minnesota citizens and businesses and the utility's ratepayers.~~

129.1 ~~(g) Funds in the account may not be directly appropriated by the legislature by a law~~
129.2 ~~enacted after January 1, 2012, and unless appropriated by a law enacted prior to that date~~
129.3 ~~may be expended only pursuant to an order of the commission according to this subdivision.~~

129.4 ~~(h) A request for proposal for renewable energy generation projects must, when~~
129.5 ~~feasible and reasonable, give preference to projects that are most cost-effective for a~~
129.6 ~~particular energy source.~~

129.7 ~~(i) The public utility must annually, by February 15, report to the chairs and ranking~~
129.8 ~~minority members of the legislative committees with jurisdiction over energy policy on~~
129.9 ~~projects funded by the account for the prior year and all previous years. The report must,~~
129.10 ~~to the extent possible and reasonable, itemize the actual and projected financial benefit to~~
129.11 ~~the public utility's ratepayers of each project.~~

129.12 ~~(j) A project receiving funds from the account must produce a written final report~~
129.13 ~~that includes sufficient detail for technical readers and a clearly written summary for~~
129.14 ~~nontechnical readers. The report must include an evaluation of the project's financial,~~
129.15 ~~environmental, and other benefits to the state and the public utility's ratepayers.~~

129.16 ~~(k) Final reports, any mid-project status reports, and renewable development account~~
129.17 ~~financial reports must be posted online on a public Web site designated by the commission.~~

129.18 ~~(l) All final reports must acknowledge that the project was made possible in whole~~
129.19 ~~or part by the Minnesota renewable development fund, noting that the fund is financed~~
129.20 ~~by the public utility's ratepayers.~~

129.21 **EFFECTIVE DATE.** This section is effective the day following final enactment.

129.22 Sec. 3. Minnesota Statutes 2014, section 116C.7792, is amended to read:

129.23 **116C.7792 SOLAR ENERGY INCENTIVE PROGRAM.**

129.24 (a) The utility subject to section 116C.779 shall operate a program to provide solar
129.25 energy production incentives for solar energy systems of no more than a total nameplate
129.26 capacity of 20 kilowatts direct current. The program shall be operated for five consecutive
129.27 calendar years commencing in 2014. The utility shall allocate up to \$5,000,000 shall be
129.28 allocated for each of the five years year during which applications are accepted from the
129.29 renewable development account established in section 116C.779 to a separate account for
129.30 the purpose of the solar production incentive program. The solar system must be sized to
129.31 less than 120 percent of the customer's on-site annual energy consumption. The production
129.32 incentive must be paid for ten years commencing with the commissioning of the system.
129.33 The utility must file a plan to operate the program with the commissioner of commerce.
129.34 The utility may not operate the program until it is approved by the commissioner.

130.1 (b) The utility shall not make incentive payments under this section for any
130.2 application received after the effective date of this act.

130.3 Sec. 4. Minnesota Statutes 2014, section 216B.164, subdivision 3, is amended to read:

130.4 Subd. 3. **Purchases; small facilities.** (a) This paragraph applies to cooperative
130.5 electric associations and municipal utilities. For a qualifying facility having less than
130.6 40-kilowatt capacity, the customer shall be billed for the net energy supplied by the utility
130.7 according to the applicable rate schedule for sales to that class of customer. A cooperative
130.8 electric association or municipal utility may charge an additional fee to recover the
130.9 remaining fixed costs required to serve the customer. In the case of net input into the utility
130.10 system by a qualifying facility having less than 40-kilowatt capacity, compensation to the
130.11 customer shall be at a per kilowatt-hour rate determined under paragraph (c) ~~or~~ (d), or (f).

130.12 (b) This paragraph applies to public utilities. For a qualifying facility having less
130.13 than 1,000-kilowatt capacity, the customer shall be billed for the net energy supplied by
130.14 the utility according to the applicable rate schedule for sales to that class of customer. In
130.15 the case of net input into the utility system by a qualifying facility having: (1) more than
130.16 40-kilowatt but less than 1,000-kilowatt capacity, compensation to the customer shall be
130.17 at a per kilowatt-hour rate determined under paragraph (c); or (2) less than 40-kilowatt
130.18 capacity, compensation to the customer shall be at a per-kilowatt rate determined under
130.19 paragraph (c) or paragraph (d).

130.20 (c) In setting rates, the commission shall consider the fixed distribution costs to the
130.21 utility not otherwise accounted for in the basic monthly charge and shall ensure that the
130.22 costs charged to the qualifying facility are not discriminatory in relation to the costs
130.23 charged to other customers of the utility. The commission shall set the rates for net
130.24 input into the utility system based on avoided costs as defined in the Code of Federal
130.25 Regulations, title 18, section 292.101, paragraph (b)(6), the factors listed in Code of
130.26 Federal Regulations, title 18, section 292.304, and all other relevant factors.

130.27 (d) This paragraph applies to qualifying facilities having less than 40-kilowatt
130.28 capacity that have elected a rate of compensation for net input into the utility system before
130.29 the effective date of this act. Notwithstanding any provision in this chapter to the contrary,
130.30 a qualifying facility having less than 40-kilowatt capacity may elect that the compensation
130.31 for net input by the qualifying facility into the utility system shall be at the average retail
130.32 utility energy rate. "Average retail utility energy rate" is defined as the average of the retail
130.33 energy rates, exclusive of special rates based on income, age, or energy conservation,
130.34 according to the applicable rate schedule of the utility for sales to that class of customer.

131.1 (e) If the qualifying facility or net metered facility is interconnected with a
131.2 nongenerating utility which has a sole source contract with a municipal power agency or a
131.3 generation and transmission utility, the nongenerating utility may elect to treat its purchase
131.4 of any net input under this subdivision as being made on behalf of its supplier and shall
131.5 be reimbursed by its supplier for any additional costs incurred in making the purchase.
131.6 Qualifying facilities or net metered facilities having less than 1,000-kilowatt capacity if
131.7 interconnected to a public utility, or less than 40-kilowatt capacity if interconnected to a
131.8 cooperative electric association or municipal utility may, at the customer's option, elect to
131.9 be governed by the provisions of subdivision 4.

131.10 (f) A customer with a qualifying facility or net metered facility having a capacity
131.11 below 40 kilowatts that is interconnected to a cooperative electric association or a
131.12 municipal utility may elect to be compensated for the customer's net input into the utility
131.13 system in the form of a kilowatt-hour credit on the customer's energy bill carried forward
131.14 and applied to subsequent energy bills. Any kilowatt-hour credits carried forward by the
131.15 customer cancel at the end of the calendar year with no additional compensation.

131.16 **EFFECTIVE DATE.** This section is effective the day following final enactment.

131.17 Sec. 5. Minnesota Statutes 2014, section 216B.1641, is amended to read:

131.18 **216B.1641 COMMUNITY SOLAR GARDEN.**

131.19 (a) The public utility subject to section 116C.779 shall file by September 30, 2013, a
131.20 plan with the commission to operate a community solar garden program which shall begin
131.21 operations within 90 days after commission approval of the plan. Other public utilities
131.22 may file an application at their election. The community solar garden program must be
131.23 designed to offset the energy use of not less than five subscribers in each community
131.24 solar garden facility of which no single subscriber has more than a 40 percent interest.
131.25 The owner of the community solar garden may be a public utility or any other entity or
131.26 organization that contracts to sell the output from the community solar garden to the
131.27 utility under section 216B.164. There shall be no limitation on the number or cumulative
131.28 generating capacity of community solar garden facilities other than the limitations imposed
131.29 under section 216B.164, subdivision 4c, or other limitations provided in law or regulations.

131.30 (b) A solar garden is a facility that generates electricity by means of a ground-mounted
131.31 or roof-mounted solar photovoltaic device whereby subscribers receive a bill credit for
131.32 the electricity generated in proportion to the size of their subscription. The solar garden
131.33 must have a nameplate capacity of no more than one megawatt. Each subscription shall be
131.34 sized to represent at least 200 watts of the community solar garden's generating capacity

132.1 and to supply, when combined with other distributed generation resources serving the
132.2 premises, no more than 120 percent of the average annual consumption of electricity by
132.3 each subscriber at the premises to which the subscription is attributed.

132.4 (c) The solar generation facility must be located in the service territory of the public
132.5 utility filing the plan. Subscribers must be retail customers of the public utility located in
132.6 the same county or a county contiguous to where the facility is located.

132.7 (d) The public utility must purchase from the community solar garden all energy
132.8 generated by the solar garden. The purchase shall be at ~~the rate calculated under section~~
132.9 ~~216B.164, subdivision 10, or, until that rate for the public utility has been approved by~~
132.10 ~~the commission,~~ the applicable retail rate. A solar garden is eligible for any incentive
132.11 programs offered under either section 116C.7792 or section 216C.415. A subscriber's
132.12 portion of the purchase shall be provided by a credit on the subscriber's bill.

132.13 (e) The commission may approve, disapprove, or modify a community solar garden
132.14 program. Any plan approved by the commission must:

132.15 (1) reasonably allow for the creation, financing, and accessibility of community
132.16 solar gardens;

132.17 (2) establish uniform standards, fees, and processes for the interconnection
132.18 of community solar garden facilities that allow the utility to recover reasonable
132.19 interconnection costs for each community solar garden;

132.20 (3) not apply different requirements to utility and nonutility community solar garden
132.21 facilities;

132.22 (4) be consistent with the public interest;

132.23 (5) identify the information that must be provided to potential subscribers to ensure
132.24 fair disclosure of future costs and benefits of subscriptions;

132.25 (6) include a program implementation schedule;

132.26 (7) identify all proposed rules, fees, and charges; and

132.27 (8) identify the means by which the program will be promoted.

132.28 (f) Notwithstanding any other law, neither the manager of nor the subscribers to a
132.29 community solar garden facility shall be considered a utility solely as a result of their
132.30 participation in the community solar garden facility.

132.31 (g) Within 180 days of commission approval of a plan under this section, a utility
132.32 shall begin crediting subscriber accounts for each community solar garden facility in
132.33 its service territory, and shall file with the commissioner of commerce a description of
132.34 its crediting system.

132.35 (h) For the purposes of this section, the following terms have the meanings given:

133.1 (1) "subscriber" means a retail customer of a utility who owns one or more
 133.2 subscriptions of a community solar garden facility interconnected with that utility; and

133.3 (2) "subscription" means a contract between a subscriber and the owner of a solar
 133.4 garden.

133.5 Sec. 6. Minnesota Statutes 2014, section 216B.1691, is amended to read:

133.6 **216B.1691 RENEWABLE ADVANCED ENERGY OBJECTIVES**
 133.7 **STANDARDS.**

133.8 Subdivision 1. **Definitions.** (a) Unless otherwise specified in law, "eligible energy
 133.9 technology" means an energy technology that:

133.10 (1) generates electricity from the following renewable energy sources:

133.11 ~~(1)~~ (i) solar;

133.12 ~~(2)~~ (ii) wind;

133.13 ~~(3)~~ (iii) hydroelectric with a capacity of less than 100 megawatts;

133.14 ~~(4) hydrogen, provided that after January 1, 2010, the hydrogen must be generated~~
 133.15 ~~from the resources listed in this paragraph; or~~

133.16 (iv) hydroelectric with a capacity of 100 megawatts or greater that was first placed
 133.17 into service after January 1, 2015; or

133.18 ~~(5)~~ (v) biomass, which includes, without limitation, landfill gas; an anaerobic
 133.19 digester system; the predominantly organic components of wastewater effluent, sludge, or
 133.20 related by-products from publicly owned treatment works, but not including incineration
 133.21 of wastewater sludge to produce electricity; and an energy recovery facility used to
 133.22 capture the heat value of mixed municipal solid waste or refuse-derived fuel from mixed
 133.23 municipal solid waste as a primary fuel; or

133.24 (2) stores electricity previously generated from a renewable resource listed in clause
 133.25 (1) that can be released for use at a later time.

133.26 (b) "Electric utility" means a public utility providing electric service, a generation
 133.27 and transmission cooperative electric association, a municipal power agency, or a power
 133.28 district.

133.29 (c) "Total retail electric sales" means the kilowatt-hours of electricity sold in a year
 133.30 by an electric utility to retail customers of the electric utility or to a distribution utility
 133.31 for distribution to the retail customers of the distribution utility. "Total retail electric
 133.32 sales" does not include the sale of hydroelectricity supplied by a federal power marketing
 133.33 administration or other federal agency, regardless of whether the sales are directly to a
 133.34 distribution utility or are made to a generation and transmission utility and pooled for
 133.35 further allocation to a distribution utility.

134.1 ~~Subd. 2. **Eligible energy objectives.** Each electric utility shall make a good~~
 134.2 ~~faith effort to generate or procure sufficient electricity generated by an eligible energy~~
 134.3 ~~technology to provide its retail consumers, or the retail customers of a distribution utility~~
 134.4 ~~to which the electric utility provides wholesale electric service, so that commencing~~
 134.5 ~~in 2005, at least one percent of the electric utility's total retail electric sales to retail~~
 134.6 ~~customers in Minnesota is generated by eligible energy technologies and seven percent of~~
 134.7 ~~the electric utility's total retail electric sales to retail customers in Minnesota by 2010 is~~
 134.8 ~~generated by eligible energy technologies.~~

134.9 Subd. 2a. **Eligible Advanced energy technology standard; schedule.** (a) Except
 134.10 as provided in paragraph (b), each electric utility shall generate or procure sufficient
 134.11 electricity generated by an eligible energy technology to provide its retail customers in
 134.12 Minnesota, or the retail customers of a distribution utility to which the electric utility
 134.13 provides wholesale electric service, so that at least the following standard percentages of
 134.14 the electric utility's total retail electric sales to retail customers in Minnesota are generated
 134.15 by eligible energy technologies by the end of the year indicated:

- | | | | |
|--------|-----|------|-------------|
| 134.16 | (1) | 2012 | 12 percent |
| 134.17 | (2) | 2016 | 17 percent |
| 134.18 | (3) | 2020 | 20 percent |
| 134.19 | (4) | 2025 | 25 percent. |

134.20 (b) An electric utility that owned a nuclear generating facility as of January 1, 2007,
 134.21 must meet the requirements of this paragraph rather than paragraph (a). An electric utility
 134.22 subject to this paragraph must generate or procure sufficient electricity generated by
 134.23 an eligible energy technology to provide its retail customers in Minnesota or the retail
 134.24 customer of a distribution utility to which the electric utility provides wholesale electric
 134.25 service so that at least the following percentages of the electric utility's total retail electric
 134.26 sales to retail customers in Minnesota are generated by eligible energy technologies by the
 134.27 end of the year indicated:

- | | | | |
|--------|-----|------|-------------|
| 134.28 | (1) | 2010 | 15 percent |
| 134.29 | (2) | 2012 | 18 percent |
| 134.30 | (3) | 2016 | 25 percent |
| 134.31 | (4) | 2020 | 30 percent. |

134.32 ~~Of the 30 percent in 2020, at least 25 percent must be generated by solar energy~~
 134.33 ~~or wind energy conversion systems and the remaining five percent by other eligible~~
 134.34 ~~energy technology. Of the 25 percent that must be generated by wind or solar, no more~~
 134.35 ~~than one percent may be solar generated and the remaining 24 percent or greater must~~
 134.36 ~~be wind generated.~~

135.1 Subd. 2b. **Modification or delay of standard.** (a) The commission shall modify or
135.2 delay the implementation of a standard obligation, in whole or in part, if the commission
135.3 determines it is in the public interest to do so. The commission, when requested to modify
135.4 or delay implementation of a standard, must consider:

135.5 (1) the impact of implementing the standard on its customers' utility costs, including
135.6 the economic and competitive pressure on the utility's customers;

135.7 (2) the effects of implementing the standard on the reliability of the electric system;

135.8 (3) technical advances or technical concerns;

135.9 (4) delays in acquiring sites or routes due to rejection or delays of necessary siting or
135.10 other permitting approvals;

135.11 (5) delays, cancellations, or nondelivery of necessary equipment for construction or
135.12 commercial operation of an eligible energy technology facility;

135.13 (6) transmission constraints preventing delivery of service; and

135.14 (7) other statutory obligations imposed on the commission or a utility.

135.15 The commission may modify or delay implementation of a standard obligation
135.16 under clauses (1) to (3) only if it finds implementation would cause significant rate impact,
135.17 requires significant measures to address reliability, or raises significant technical issues.

135.18 The commission may modify or delay implementation of a standard obligation under
135.19 clauses (4) to (6) only if it finds that the circumstances described in those clauses were due
135.20 to circumstances beyond an electric utility's control and make compliance not feasible.

135.21 (b) When considering whether to delay or modify implementation of a standard
135.22 obligation, the commission must give due consideration to a preference for electric
135.23 generation through use of eligible energy technology and to the achievement of the
135.24 standards set by this section.

135.25 (c) An electric utility requesting a modification or delay in the implementation of a
135.26 standard must file a plan to comply with its standard obligation in the same proceeding
135.27 that it is requesting the delay.

135.28 (d) If a utility reports under subdivision 2e that its retail rates have increased by two
135.29 percent or more over the previous year as a result of activities necessary to comply with
135.30 this section, the commission shall delay by three years the required achievement of the
135.31 utility's next scheduled standard under subdivision 2a.

135.32 Subd. 2c. **Use of integrated resource planning process.** The commission may
135.33 exercise its authority under subdivision 2b to modify or delay implementation of a standard
135.34 obligation as part of an integrated resource planning proceeding under section 216B.2422.
135.35 The commission's authority must be exercised according to subdivision 2b. The order to
135.36 delay or modify shall not be considered advisory with respect to any electric utility. This

136.1 subdivision is in addition to and does not limit the commission's authority to modify or
136.2 delay implementation of a standard obligation in other proceedings before the commission.

136.3 ~~Subd. 2d. **Commission order.** The commission shall issue necessary orders detailing~~
136.4 ~~the criteria and standards by which it will measure an electric utility's efforts to meet the~~
136.5 ~~renewable energy objectives of subdivision 2 to determine whether the utility is making~~
136.6 ~~the required good faith effort. In this order, the commission shall include criteria and~~
136.7 ~~standards that protect against undesirable impacts on the reliability of the utility's system~~
136.8 ~~and economic impacts on the utility's ratepayers and that consider technical feasibility.~~

136.9 Subd. 2e. **Rate impact of standard compliance; report.** Each electric utility must
136.10 submit to the commission and the legislative committees with primary jurisdiction over
136.11 energy policy a report containing an estimation of the rate impact of activities of the
136.12 electric utility necessary to comply with this section. In consultation with the Department
136.13 of Commerce, the commission shall determine a uniform reporting system to ensure that
136.14 individual utility reports are consistent and comparable, and shall, by order, require each
136.15 electric utility subject to this section to use that reporting system. The rate impact estimate
136.16 must be for wholesale rates and, if the electric utility makes retail sales, the estimate
136.17 shall also be for the impact on the electric utility's retail rates. Those activities include,
136.18 without limitation, energy purchases, generation facility acquisition and construction,
136.19 and transmission improvements. ~~An initial report must be submitted within 150 days of~~
136.20 ~~May 28, 2011. After the initial report, A report under this subdivision must be updated~~
136.21 ~~and submitted as part of each integrated resource plan or plan modification filed by the~~
136.22 ~~electric utility under section 216B.2422. A utility may file more frequent reports under~~
136.23 ~~this subdivision. The reporting obligation of an electric utility under this subdivision~~
136.24 ~~expires December 31, 2025, for an electric utility subject to subdivision 2a, paragraph (a),~~
136.25 ~~and December 31, 2020, for an electric utility subject to subdivision 2a, paragraph (b).~~

136.26 Subd. 2f. **Solar energy standard.** (a) In addition to the requirements of subdivisions
136.27 2a and 2b, each public utility shall generate or procure sufficient electricity generated
136.28 by solar energy to serve its retail electricity customers in Minnesota so that by the end
136.29 of 2020, at least 1.5 percent of the utility's total retail electric sales to retail customers in
136.30 Minnesota is generated by solar energy. ~~At least ten percent of the 1.5 percent goal must~~
136.31 ~~be met by solar energy generated by or procured from solar photovoltaic devices with a~~
136.32 ~~nameplate capacity of 20 kilowatts or less.~~

136.33 (b) The solar energy standard established in this subdivision is subject to all the
136.34 provisions of this section governing a utility's standard obligation under subdivision 2a.

136.35 (c) ~~It is an energy goal of the state of Minnesota that, by 2030, ten percent of the~~
136.36 ~~retail electric sales in Minnesota be generated by solar energy.~~

137.1 ~~(d) For the purposes of calculating the total retail electric sales of a public utility~~
137.2 ~~under this subdivision, there shall be excluded retail electric sales to customers that are:~~

137.3 ~~(1) an iron mining extraction and processing facility, including a scarn mining~~
137.4 ~~facility as defined in Minnesota Rules, part 6130.0100, subpart 16; or~~

137.5 ~~(2) a paper mill, wood products manufacturer, sawmill, or oriented strand board~~
137.6 ~~manufacturer.~~

137.7 ~~Those customers may not have included in the rates charged to them by the public~~
137.8 ~~utility any costs of satisfying the solar standard specified by this subdivision.~~

137.9 ~~(e) (c)~~ A public utility may not use energy used to satisfy the solar energy standard
137.10 under this subdivision to satisfy its standard obligation under subdivision 2a. A public
137.11 utility may not use energy used to satisfy the standard obligation under subdivision 2a to
137.12 satisfy the solar standard under this subdivision.

137.13 ~~(f) (d)~~ Notwithstanding any law to the contrary, a solar renewable energy credit
137.14 associated with a solar photovoltaic device installed and generating electricity in
137.15 Minnesota after August 1, 2013, but before 2020 may be used to meet the solar energy
137.16 standard established under this subdivision.

137.17 ~~(g) (e)~~ Beginning July 1, 2014, and each July 1 through 2020, each public utility
137.18 shall file a report with the commission reporting its progress in achieving the solar energy
137.19 standard established under this subdivision.

137.20 ~~(f) The requirement established in paragraph (a) may be met through the use of solar~~
137.21 ~~energy or any other more affordable eligible energy technology.~~

137.22 **Subd. 3. Utility plans filed with commission.** (a) Each electric utility shall
137.23 report on its plans, activities, and progress with regard to the ~~objectives and~~ standards
137.24 of this section in its filings under section 216B.2422 or in a separate report submitted
137.25 to the commission every two years, whichever is more frequent, demonstrating to the
137.26 commission the utility's effort to comply with this section. In its resource plan or a
137.27 separate report, each electric utility shall provide a description of:

137.28 (1) the status of the utility's renewable energy mix relative to the ~~objective and~~
137.29 ~~standards;~~

137.30 (2) efforts taken to meet the objective and standards;

137.31 (3) any obstacles encountered or anticipated in meeting the ~~objective or~~ standards; and

137.32 (4) potential solutions to the obstacles.

137.33 (b) The commissioner shall compile the information provided to the commission
137.34 under paragraph (a), and report to the chairs of the house of representatives and senate
137.35 committees with jurisdiction over energy and environment policy issues as to the progress
137.36 of utilities in the state, including the progress of each individual electric utility, in increasing

138.1 the amount of renewable energy provided to retail customers, with any recommendations
138.2 for regulatory or legislative action, by January 15 of each odd-numbered year.

138.3 Subd. 4. **Renewable energy credits.** (a) To facilitate compliance with this section,
138.4 the commission, by rule or order, shall establish by January 1, 2008, a program for tradable
138.5 renewable energy credits for electricity generated by an eligible energy technology. The
138.6 credits must represent energy produced by an eligible energy technology, as defined in
138.7 subdivision 1. Each kilowatt-hour of renewable energy credits must be treated the same as
138.8 a kilowatt-hour of eligible energy technology generated or procured by an electric utility if
138.9 it is produced by an eligible energy technology. The program must permit a credit to be
138.10 used only once. The program must treat all eligible energy ~~technology~~ technologies equally
138.11 and shall not give more or less credit to energy based on the state where the energy ~~was~~ is
138.12 generated or the technology with which the energy ~~was~~ is generated. The commission
138.13 must determine the period in which the credits may be used for purposes of the program.

138.14 (b) In lieu of generating or procuring energy directly to satisfy the ~~eligible~~ advanced
138.15 energy ~~technology~~ objective or standard of this section, an electric utility may utilize
138.16 renewable energy credits allowed under the program to satisfy the ~~objective~~ or standard.

138.17 (c) The commission shall facilitate the trading of renewable energy credits between
138.18 states.

138.19 (d) The commission shall require all electric utilities to participate in a
138.20 commission-approved credit-tracking system or systems. Once a credit-tracking system is
138.21 in operation, the commission shall issue an order establishing protocols for trading credits.

138.22 (e) An electric utility subject to subdivision 2a, paragraph (b), may not sell renewable
138.23 energy credits to an electric utility subject to subdivision 2a, paragraph (a), until 2021.

138.24 Subd. 5. **Technology based on fuel combustion.** (a) Electricity produced by fuel
138.25 combustion through fuel blending or co-firing under paragraph (b) may only count toward
138.26 a utility's ~~objectives~~ or standards if the generation facility:

138.27 (1) was constructed in compliance with new source performance standards
138.28 promulgated under the federal Clean Air Act, United States Code, title 42, section 7401 et
138.29 seq., for a generation facility of that type; or

138.30 (2) employs the maximum achievable or best available control technology available
138.31 for a generation facility of that type.

138.32 (b) An eligible energy technology may blend or co-fire a fuel listed in subdivision 1,
138.33 paragraph (a), clause (5), with other fuels in the generation facility, but only the percentage
138.34 of electricity that is attributable to a fuel listed in that clause can be counted toward an
138.35 electric utility's renewable energy objectives.

139.1 Subd. 7. **Compliance.** The commission must regularly investigate whether an
139.2 electric utility is in compliance with its ~~good faith objective under subdivision 2 and~~
139.3 standard obligation under subdivision 2a. If the commission finds noncompliance, it may
139.4 order the electric utility to construct facilities, purchase energy generated by eligible
139.5 energy technology, purchase renewable energy credits, or engage in other activities
139.6 to achieve compliance. If an electric utility fails to comply with an order under this
139.7 subdivision, the commission may impose a financial penalty on the electric utility in an
139.8 amount not to exceed the estimated cost of the electric utility to achieve compliance. The
139.9 penalty may not exceed the lesser of the cost of constructing facilities or purchasing
139.10 credits. The commission must deposit financial penalties imposed under this subdivision
139.11 in the energy and conservation account established in the special revenue fund under
139.12 section 216B.241, subdivision 2a. This subdivision is in addition to and does not limit any
139.13 other authority of the commission to enforce this section.

139.14 Subd. 8. **Relation to other law.** This section does not limit the authority of the
139.15 commission under any other law, including, without limitation, sections 216B.2422 and
139.16 216B.243.

139.17 Subd. 9. **Local benefits.** The commission shall take all reasonable actions within
139.18 its statutory authority to ensure this section is implemented to maximize benefits to
139.19 Minnesota citizens, balancing factors such as local ownership of or participation in
139.20 energy production, development and ownership of eligible energy technology facilities by
139.21 independent power producers, Minnesota utility ownership of eligible energy technology
139.22 facilities, the costs of energy generation to satisfy the renewable advanced energy
139.23 standard, and the reliability of electric service to Minnesotans.

139.24 Subd. 10. **Utility acquisition of resources.** A competitive resource acquisition
139.25 process established by the commission prior to June 1, 2007, shall not apply to a utility
139.26 for the construction, ownership, and operation of generation facilities used to satisfy the
139.27 requirements of this section unless, upon a finding that it is in the public interest, the
139.28 commission issues an order on or after June 1, 2007, that requires compliance by a utility
139.29 with a competitive resource acquisition process. A utility that owns a nuclear generation
139.30 facility and intends to construct, own, or operate facilities under this section shall file with
139.31 the commission on or before March 1, 2008, a renewable energy plan setting forth the
139.32 manner in which the utility proposes to meet the requirements of this section, ~~including~~
139.33 ~~a proposed schedule for purchasing renewable energy from C-BED and non-C-BED~~
139.34 ~~projects.~~ The utility shall update the plan as necessary in its filing under section
139.35 216B.2422. The commission shall approve the plan unless it determines, after public
139.36 hearing and comment, that the plan is not in the public interest. ~~As part of its determination~~

140.1 ~~of public interest, the commission shall consider the plan's allocation of projects among~~
140.2 ~~C-BED, non-C-BED, and utility-owned projects, balancing the state's interest in:~~

140.3 ~~(1) promoting the policy of economic development in rural areas through the~~
140.4 ~~development of renewable energy projects, as expressed in subdivision 9;~~

140.5 ~~(2) maintaining the reliability of the state's electric power grid; and~~

140.6 ~~(3) minimizing cost impacts on ratepayers.~~

140.7 **EFFECTIVE DATE.** This section is effective the day following final enactment.

140.8 Sec. 7. Minnesota Statutes 2014, section 216B.243, subdivision 8, is amended to read:

140.9 Subd. 8. **Exemptions.** (a) This section does not apply to:

140.10 (1) cogeneration or small power production facilities as defined in the Federal Power
140.11 Act, United States Code, title 16, section 796, paragraph (17), subparagraph (A), and
140.12 paragraph (18), subparagraph (A), and having a combined capacity at a single site of less
140.13 than 80,000 kilowatts; plants or facilities for the production of ethanol or fuel alcohol; or

140.15 that its application has been preempted by federal law;

140.16 (2) a high-voltage transmission line proposed primarily to distribute electricity to
140.17 serve the demand of a single customer at a single location, unless the applicant opts to
140.18 request that the commission determine need under this section or section 216B.2425;

140.19 (3) the upgrade to a higher voltage of an existing transmission line that serves the
140.20 demand of a single customer that primarily uses existing rights-of-way, unless the applicant
140.21 opts to request that the commission determine need under this section or section 216B.2425;

140.22 (4) a high-voltage transmission line of one mile or less required to connect a new or
140.23 upgraded substation to an existing, new, or upgraded high-voltage transmission line;

140.24 (5) conversion of the fuel source of an existing electric generating plant to using
140.25 natural gas;

140.26 (6) the modification of an existing electric generating plant to increase efficiency,
140.27 as long as the capacity of the plant is not increased more than ten percent or more than

140.32 or wholesale electric service to another entity in Minnesota other than an entity that is a
140.33 federally recognized regional transmission organization or independent system operator; or

141.1 (8) a large wind energy conversion system, as defined in section 216F.01, subdivision
141.2 2, or a solar energy generating large energy facility, as defined in section 216B.2421,

141.4 (i) will not result in the facility exceeding the nameplate capacity under its most
141.5 recent interconnection agreement; or

141.6 (ii) will result in the facility exceeding the nameplate capacity under its most recent
141.7 interconnection agreement, provided that the Midcontinent Independent System Operator
141.8 has provided a signed generator interconnection agreement that reflects the expected
141.9 net power increase.

141.10 (b) For the purpose of this subdivision, "repowering project" means:

141.11 (1) modifying a large wind energy conversion system or a solar energy generating
141.12 large energy facility to increase its efficiency without increasing its nameplate capacity;

141.13 (2) replacing turbines in a large wind energy conversion system without increasing
141.14 the nameplate capacity of the system; or

141.15 (3) increasing the nameplate capacity of a large wind energy conversion system.

141.16 **Sec. 8. [216C.417] PROGRAM ADMINISTRATION; "MADE IN MINNESOTA"**
141.17 **SOLAR ENERGY PRODUCTION INCENTIVES.**

141.18 Subdivision 1. **General provisions.** Payment of a "Made in Minnesota" solar energy
141.19 production incentive to an owner whose application was approved by the commissioner
141.20 of commerce under Minnesota Statutes 2014, section 216C.415, prior to the effective
141.21 date of this act shall be administered under the provisions of Minnesota Statutes 2014,
141.22 sections 216C.411, 216C.413, 216C.414, subdivisions 1 to 3 and 5 to 6, and 216C.415.
141.23 No incentive payments may be made under this section to an owner whose application
141.24 was approved by the commissioner after the effective date of this act.

141.25 Subd. 2. **Appropriation.** (a) Unspent and unobligated money remaining in the
141.26 account established under Minnesota Statutes 2014, section 216C.412, as of July 1, 2015,
141.27 must be transferred to the energy fund account established under section 116C.779,
141.28 subdivision 1.

141.29 (b) There is annually appropriated from the energy fund account established in
141.30 section 116C.779 to the commissioner of commerce money sufficient to make the
141.31 incentive payments required under Minnesota Statutes 2014, section 216C.415, and to
141.32 administer that section.

141.33 Subd. 3. **Eligibility window; payment duration.** (a) Payments may be made
141.34 under this subdivision only for solar photovoltaic module installations that meet the

142.1 requirements of subdivision 1 and that first begin generating electricity between January 1,
142.2 2014, and December 31, 2015.

142.3 (b) The payment eligibility window of the incentive begins and runs consecutively
142.4 from the date the solar photovoltaic modules first begins generating electricity.

142.5 (c) An owner of solar photovoltaic modules may receive payments under this
142.6 section for a particular module for a period of ten years, provided that sufficient funds are
142.7 available in the account.

142.8 (d) No payment may be made under this section for electricity generated after
142.9 December 31, 2025.

142.10 **Sec. 9. [216C.419] ENERGY FUND ACCOUNT SOLAR INCENTIVE**
142.11 **PAYMENT.**

142.12 Subdivision 1. **Eligibility.** A qualifying facility that is a solar energy system, as
142.13 defined in section 216C.06, subdivision 17, with a capacity no greater than ten kilowatts,
142.14 that first elects compensation under section 216B.164 after the effective date of this act is
142.15 eligible to receive an incentive payment under this section.

142.16 Subd. 2. **Amount.** The per kilowatt-hour amount of the energy fund account
142.17 incentive payment shall be determined by the commissioner.

142.18 Subd. 3. **Incentive payment.** (a) An incentive payment is equal to the
142.19 per kilowatt-hour amount calculated in subdivision 3 multiplied by the number of
142.20 kilowatt-hours purchased from the qualifying facility by the utility to which it is
142.21 interconnected.

142.22 (b) An incentive payment may be made under this section to an owner of a particular
142.23 solar energy system or wind energy conversion system for a period of ten years.

142.24 (c) A qualifying facility seeking an incentive payment under this section must file an
142.25 application with the commissioner, on a form determined by the commissioner, and must
142.26 satisfy any other requirements the commissioner deems are necessary. Payment of the
142.27 incentive may only be made upon certification by the commissioner of commerce that the
142.28 qualifying facility is eligible to receive payment under this section.

142.29 (d) The commissioner shall develop administrative procedures governing the
142.30 application process and the awarding of incentive payments as necessary to implement
142.31 this section.

142.32 **Sec. 10. [216E.022] SETBACK FOR SOLAR ENERGY GENERATING**
142.33 **SYSTEMS.**

143.1 Solar panels that are part of a solar energy generating system that has been issued a
143.2 site permit under this chapter must be set back at least 400 feet from any dwelling unless:
143.3 (1) a local ordinance or regulation requires a greater setback; or
143.4 (2) the property owner of the adjacent property and the owner of the solar energy
143.5 generating system have reached a mutual agreement in writing allowing for a smaller
143.6 setback, provided that the agreement is not less restrictive than allowed under any
143.7 applicable ordinance or regulation unless a valid variance to the setback requirement
143.8 imposed by the ordinance or regulation has been granted.

143.9 **EFFECTIVE DATE.** This section is effective the day following final enactment,
143.10 and applies to solar energy generating systems for which site permit applications under
143.11 this chapter have been filed after January 1, 2015.

143.12 Sec. 11. **[216E.023] SURETY BONDS; LARGE SOLAR ENERGY**
143.13 **GENERATING FACILITIES.**

143.14 (a) A large energy facility, as defined in section 216B.2421, that is powered by a
143.15 solar energy generating system must maintain a current, valid corporate surety bond issued
143.16 by a surety company admitted to do business in Minnesota in an amount sufficient to pay
143.17 the entire cost of (1) disassembling and removing the solar energy generating system, and
143.18 (2) land reclamation, in the event the large energy facility discontinues operations.

143.19 (b) The commission may not approve an application for a certificate of need under
143.20 section 216B.243 or a site permit under this chapter unless the applicant demonstrates it
143.21 meets the requirements of paragraph (a).

143.22 **EFFECTIVE DATE.** This section is effective the day following final enactment.

143.23 Sec. 12. Minnesota Statutes 2014, section 216E.03, subdivision 5, is amended to read:

143.24 Subd. 5. **Environmental review.** (a) The commissioner of the Department of
143.25 Commerce shall prepare for the commission an environmental impact statement on each
143.26 proposed large electric generating plant or high-voltage transmission line for which a
143.27 complete application has been submitted. The commissioner shall not consider whether
143.28 or not the project is needed. No other state environmental review documents shall be
143.29 required. The commissioner shall study and evaluate any site or route proposed by an
143.30 applicant and any other site or route the commission deems necessary that was proposed in
143.31 a manner consistent with rules concerning the form, content, and timeliness of proposals
143.32 for alternate sites or routes.

144.1 (b) If the proposed large electric power generating plant is to be constructed on
144.2 agricultural land, the environmental impact statement must include an analysis of the
144.3 impact of construction on any agricultural drainage system under the surface of the
144.4 construction site, including the impact on other agricultural land that is part of the same
144.5 drainage system.

144.6 (c) For the purpose of this subdivision, "agricultural drainage system" means a
144.7 publicly or privately owned drainage system that is installed or modified to improve the
144.8 productivity of agricultural land. Agricultural drainage system includes all tile, pipe, or
144.9 tubing of any material beneath the surface, and any associated inlets and outlets.

144.10 (d) If the proposed large electric generating plant is a solar energy generating
144.11 system, the environmental impact statement must include the results of an analysis of
144.12 reflected solar irradiance from the solar panels and its impact at specific observation
144.13 points, including but not limited to nearby airports, air traffic, highways, and residences.
144.14 The analysis must measure the incidence and duration of solar glare at these observation
144.15 points during various seasons of the year and times of day, and discuss how such impacts
144.16 can be mitigated by relocating solar panels or changing the angles at which they are set.

144.17 Sec. 13. Minnesota Statutes 2014, section 216E.03, subdivision 7, is amended to read:

144.18 Subd. 7. **Considerations in designating sites and routes.** (a) The commission's
144.19 site and route permit determinations must be guided by the state's goals to conserve
144.20 resources, minimize environmental impacts, minimize human settlement and other land
144.21 use conflicts, and ensure the state's electric energy security through efficient, cost-effective
144.22 power supply and electric transmission infrastructure.

144.23 (b) To facilitate the study, research, evaluation, and designation of sites and routes,
144.24 the commission shall be guided by, but not limited to, the following considerations:

144.25 (1) evaluation of research and investigations relating to the effects on land, water
144.26 and air resources of large electric power generating plants and high-voltage transmission
144.27 lines and the effects of water and air discharges and electric and magnetic fields resulting
144.28 from such facilities on public health and welfare, vegetation, animals, materials and
144.29 aesthetic values, including baseline studies, predictive modeling, and evaluation of new or
144.30 improved methods for minimizing adverse impacts of water and air discharges and other
144.31 matters pertaining to the effects of power plants on the water and air environment;

144.32 (2) environmental evaluation of sites and routes proposed for future development and
144.33 expansion and their relationship to the land, water, air and human resources of the state;

145.1 (3) evaluation of the effects of new electric power generation and transmission
145.2 technologies and systems related to power plants designed to minimize adverse
145.3 environmental effects;

145.4 (4) evaluation of the potential for beneficial uses of waste energy from proposed
145.5 large electric power generating plants;

145.6 (5) analysis of the direct and indirect economic impact of proposed sites and routes
145.7 including, but not limited to, productive agricultural land lost or impaired;

145.8 (6) evaluation of adverse direct and indirect environmental effects that cannot be
145.9 avoided should the proposed site and route be accepted;

145.10 (7) evaluation of alternatives to the applicant's proposed site or route proposed
145.11 pursuant to subdivisions 1 and 2;

145.12 (8) evaluation of potential routes that would use or parallel existing railroad and
145.13 highway rights-of-way;

145.14 (9) evaluation of governmental survey lines and other natural division lines of
145.15 agricultural land so as to minimize interference with agricultural operations;

145.16 (10) evaluation of the future needs for additional high-voltage transmission lines
145.17 in the same general area as any proposed route, and the advisability of ordering the
145.18 construction of structures capable of expansion in transmission capacity through multiple
145.19 circuiting or design modifications;

145.20 (11) evaluation of irreversible and irretrievable commitments of resources should the
145.21 proposed site or route be approved; ~~and~~

145.22 (12) ~~when appropriate, consideration~~ evaluation of problems raised by other state
145.23 and federal agencies and local entities; and

145.24 (13) evaluation of the impact on local land use, including the extent to which the
145.25 proposed site conflicts with county or local comprehensive plans, or official controls
145.26 governing future development.

145.27 (c) If the commission's rules are substantially similar to existing regulations of a
145.28 federal agency to which the utility in the state is subject, the federal regulations must
145.29 be applied by the commission.

145.30 (d) No site or route shall be designated which violates state agency rules.

145.31 (e) The commission must make specific findings that it has considered locating a
145.32 route for a high-voltage transmission line on an existing high-voltage transmission route
145.33 and the use of parallel existing highway right-of-way and, to the extent those are not used
145.34 for the route, the commission must state the reasons.

145.35 Sec. 14. Minnesota Statutes 2014, section 216E.04, subdivision 5, is amended to read:

146.1 Subd. 5. **Environmental review.** (a) For the projects identified in subdivision 2
146.2 and following these procedures, the commissioner of the Department of Commerce shall
146.3 prepare for the commission an environmental assessment. The environmental assessment
146.4 shall contain information on the human and environmental impacts of the proposed project
146.5 and other sites or routes identified by the commission and shall address mitigating measures
146.6 for all of the sites or routes considered. If the proposed project is a large electric power
146.7 generating plant to be constructed on agricultural land, the environmental assessment must
146.8 include an analysis of the construction's impact on any agricultural drainage system under
146.9 the surface of the construction site, including the impact on other agricultural land that is
146.10 part of the same drainage system. The environmental assessment shall be the only state
146.11 environmental review document required to be prepared on the project.

146.12 (b) For the purpose of this subdivision, "agricultural drainage system" means a
146.13 publicly or privately owned drainage system that is installed or modified to improve the
146.14 productivity of agricultural land. Agricultural drainage system includes all tile, pipe, or
146.15 tubing of any material beneath the surface, and any associated inlets and outlets.

146.16 (c) If the proposed large electric generating plant is a solar energy generating system,
146.17 the environmental assessment must include the results of an analysis of reflected solar
146.18 irradiance from the solar panels and its impact at specific observation points, including
146.19 but not limited to nearby airports, air traffic, highways, and residences. The analysis
146.20 must measure the incidence and duration of solar glare at these observation points during
146.21 various seasons of the year and times of day, and discuss how such impacts can be
146.22 mitigated by relocating solar panels or changing the angles at which they are set.

146.23 Sec. 15. **[216E.19] REQUIREMENT FOR LOCAL APPROVAL.**

146.24 Notwithstanding the provisions of this chapter, the commission may not issue a
146.25 site permit for a solar energy generating system until all required local permits have
146.26 been granted and a resolution approving construction of the project is adopted by the
146.27 local governing body in which the proposed project site is located, provided that the
146.28 local governing body:

146.29 (1) has intervened as a formal party to the public hearing conducted under section
146.30 216E.03, subdivision 6, or 216E.04, subdivision 6; and

146.31 (2) has participated fully in the public hearing and has made its concerns regarding

147.26 subdivision to read:

147.27 **Subd. 1a. Cogeneration facility or combined heat and power facility.**

147.28 "Cogeneration facility" or "combined heat and power facility" means a facility that: (1)
147.29 has the meaning given in United States Code, title 16, section 796, clause (18), paragraph
147.30 (A); and (2) meets the applicable operating and efficiency standards contained in Code of
147.31 Federal Regulations, title 18, part 292.205.

148.1 Sec. 2. Minnesota Statutes 2014, section 216H.02, subdivision 1, is amended to read:

148.2 Subdivision 1. **Greenhouse gas emissions-reduction goal.** It is the goal of the state
148.3 to reduce statewide greenhouse gas emissions ~~across all sectors producing those emissions~~
148.4 ~~to a level at least 15 percent below 2005 levels by 2015, to a level at least 30 percent~~
148.5 ~~below 2005 levels by 2025, and to a level at least 80 percent below 2005 levels by 2050.~~
148.6 ~~The levels shall be reviewed based on the climate change action plan study~~ to the level
148.7 proposed in the plan approved under section 216H.077.

148.8 **EFFECTIVE DATE.** This section is effective the day following final enactment.

148.9 Sec. 3. Minnesota Statutes 2014, section 216H.03, subdivision 1, is amended to read:

148.10 Subdivision 1. **Definition; new large energy facility.** For the purpose of this
148.11 section, "new large energy facility" means a large energy facility, as defined in section
148.12 216B.2421, subdivision 2, clause (1), that is not in operation as of January 1, 2007,
148.13 but does not include a facility that (1) uses natural gas as a primary fuel, (2) is a
148.14 cogeneration facility or combined heat and power facility, or is designed to provide
148.15 peaking, intermediate, emergency backup, or contingency services, (3) uses a simple cycle
148.16 or combined cycle turbine technology, and (4) is capable of achieving full load operations
148.17 within 45 minutes of startup for a simple cycle facility, or is capable of achieving
148.18 minimum load operations within 185 minutes of startup for a combined cycle facility.

148.19 Sec. 4. Minnesota Statutes 2014, section 216H.03, subdivision 3, is amended to read:

148.20 Subd. 3. **Long-term increased emissions from power plants prohibited.** Unless
148.21 preempted by federal law, until a comprehensive and enforceable state law or rule
148.22 pertaining to greenhouse gases that directly limits and substantially reduces, over time,
148.23 statewide power sector carbon dioxide emissions is enacted and in effect, and except as
148.24 allowed in subdivisions 4 to 7, on and after August 1, 2009, no person shall:

148.25 (1) construct within the state a new large energy facility that would contribute to
148.26 statewide power sector carbon dioxide emissions;

148.27 (2) ~~import or commit to import from outside the state power from a new large energy~~
148.28 ~~facility that would contribute to statewide power sector carbon dioxide emissions; or~~

148.29 (3) ~~enter into a new long-term power purchase agreement that would increase~~
148.30 ~~statewide power sector carbon dioxide emissions. For purposes of this section, a long-term~~
148.31 ~~power purchase agreement means an agreement to purchase 50 megawatts of capacity~~
148.32 ~~or more for a term exceeding five years.~~

149.3 (1) a new large energy facility under consideration by the Public Utilities

149.4 Commission pursuant to proposals or applications filed with the Public Utilities

149.5 Commission before April 1, 2007, or to any power purchase agreement related to a facility

149.6 described in this clause. The exclusion of pending proposals and applications from the

149.7 prohibitions in subdivision 3 does not limit the applicability of any other law and is not an

149.8 expression of legislative intent regarding whether any pending proposal or application

149.9 should be approved or denied;

149.10 (2) a contract not subject to commission approval that was entered into prior to

149.11 April 1, 2007, to purchase power from a new large energy facility that was approved by

149.12 a comparable authority in another state prior to that date, for which municipal or public

149.13 power district bonds have been issued, and on which construction has begun;

149.14 (3) a new large energy facility ~~or a power purchase agreement between a Minnesota~~

149.15 ~~utility and a new large energy facility~~ located ~~outside~~ within Minnesota that the Public

149.16 Utilities Commission has determined is essential to ensure the long-term reliability of

149.17 Minnesota's electric system, to allow electric service for increased industrial demand,

149.18 or to avoid placing a substantial financial burden on Minnesota ratepayers. An order

149.19 of the commission granting an exemption under this clause is stayed until the June 1

149.20 following the next regular or annual session of the legislature that begins after the date of

149.21 the commission's final order; or

149.22 (4) a new large energy facility with a combined electric generating capacity of less

149.23 than 100 megawatts, which did not require a Minnesota certificate of need, which received

149.24 an air pollution control permit to construct from an adjoining state before January 1, 2008,

149.25 and on which construction began before July 1, 2008, or to any power purchase agreement

149.26 related to a facility described in this clause.

149.27 **EFFECTIVE DATE.** This section is effective the day following final enactment.

149.28 Sec. 6. Minnesota Statutes 2014, section 216H.07, is amended to read:

149.29 **216H.07 EMISSIONS-REDUCTION ATTAINMENT; POLICY**

149.30 **DEVELOPMENT PROCESS.**

149.31 Subdivision 1. **Definition.** For the purpose of this section, "reductions" means the

149.32 greenhouse gas emissions-reductions ~~goals~~ goal specified in section 216H.02, subdivision

149.33 1.

150.1 Subd. 2. **Purpose.** This section is intended to create a nonexclusive, regular,
 150.2 mandated process for the state to develop policies to attain the greenhouse gas reduction
 150.3 ~~goals~~ goal specified in section 216H.02.

150.4 Subd. 3. **Biennial report.** (a) By January 15 of each odd-numbered year, the
 150.5 commissioners of commerce and the Pollution Control Agency shall jointly report to the
 150.6 chairs and ranking minority members of the legislative committees with primary policy
 150.7 jurisdiction over energy and environmental issues the most recent and best available
 150.8 evidence identifying the level of reductions already achieved and the ~~level necessary to~~
 150.9 ~~achieve the prospects for achieving future reductions timetable in section 216H.02.~~

150.10 (b) The report must be in easily understood nontechnical terms.

150.11 Subd. 5. **Reduction principles.** Legislation proposed under subdivision 4 must be
 150.12 based on the following principles:

150.13 (1) the greenhouse gas emissions-reduction ~~goals~~ goal specified in section 216H.02,
 150.14 subdivision 1, must be ~~attained~~ pursued;

150.15 (2) ~~the reductions must be attained on a schedule that keeps pace with the reduction~~
 150.16 ~~timetable required by section 216H.02, subdivision 1;~~

150.17 (3) conservation, including ceasing some activities, doing some activities less, and
 150.18 doing some activities more energy efficiently, is the first choice for reduction;

150.19 (4) (3) public education is a key component;

150.20 (5) (4) all levels of government should lead by example;

150.21 (6) (5) strategies that may lead to economic dislocation should be phased in and
 150.22 should be coupled with strategies that address the dislocation; and

150.23 (7) (6) there must be coordination with other federal and regional greenhouse gas
 150.24 emissions-reduction requirements so that the state benefits and is not penalized from its
 150.25 reduction activities.

150.26 **EFFECTIVE DATE.** This section is effective the day following final enactment.

150.27 Sec. 7. **[216H.077] REQUIREMENT FOR LEGISLATIVE APPROVAL.**

150.28 The commissioner of the Pollution Control Agency may not submit a plan to the
 150.29 federal Environmental Protection Agency to comply with the proposed rule for the federal
 150.30 Clean Power Plan for Existing Power Plants, as published in the Federal Register on June
 150.31 18, 2014, Docket No. EPA-HQ-OAR-2013-0602, or any final rule issued in that docket or
 150.32 federal order pertaining thereto, unless the plan has been approved by state law.

150.33 Sec. 8. **REPEALER.**

150.34 Minnesota Statutes 2014, section 216H.02, subdivisions 2, 3, 4, 5, and 6, are repealed.

ARTICLE 11

MISCELLANEOUS ENERGY POLICY

151.1
151.2
151.3 Section 1. Minnesota Statutes 2014, section 3.8851, subdivision 7, is amended to read:

151.4 Subd. 7. **Assessment; appropriation.** (a) Upon request by the cochairs of the
151.5 commission, the commissioner of commerce shall assess the amount requested for the
151.6 operation of the commission, not to exceed ~~\$250,000~~ \$150,000 in a fiscal year, from the
151.7 following sources:

151.8 (1) 50 percent of the assessment must come from all public utilities, municipal
151.9 utilities, electric cooperative associations, generation and transmission cooperative electric
151.10 associations, and municipal power agencies providing electric or natural gas services
151.11 in Minnesota; and

151.12 (2) 50 percent of the assessment must come from all bulk terminals located in this
151.13 state from which petroleum products and liquid petroleum gas are dispensed.

151.14 (b) The commissioner of commerce shall apportion the assessment amount requested
151.15 among the entities in paragraph (a), clause (1), in proportion to their respective gross
151.16 operating revenues from energy sold within the state during the most recent calendar year.

151.17 (c) The commissioner of commerce shall apportion the assessment amount requested
151.18 equally among the referenced entities in paragraph (a), clause (2).

151.19 (d) The entities in paragraph (a), clause (1), must provide information to the
151.20 commissioner of commerce to allow for calculation of the assessment.

151.21 (e) The assessments under this subdivision are in addition to assessments made
151.22 under section 216B.62. The amount assessed under this section must be deposited in
151.23 the Legislative Energy Commission account in the special revenue fund. Funds in the
151.24 Legislative Energy Commission account are appropriated to the director of the Legislative
151.25 Coordinating Commission for the purposes of this section, and are available until
151.26 expended. Utilities selling gas and electric service at retail must be assessed and billed
151.27 in accordance with the procedures provided in section 216B.62, to the extent that these
151.28 procedures do not conflict with this subdivision.

151.29 (f) The commission shall provide a detailed report of its income and expenses in the
151.30 prior calendar year by January 1 of each year to the standing committees of the house of
151.31 representatives and the senate with jurisdiction over energy issues.

151.32 Sec. 2. Minnesota Statutes 2014, section 12A.15, subdivision 1, is amended to read:

151.33 Subdivision 1. **State cost-share for federal assistance.** State appropriations may be
151.34 used to pay 100 percent of the nonfederal share for state agencies and, local governments,

152.1 and utility cooperatives under section 12.221. An appropriation from the bond proceeds
152.2 fund may be used as cost-share for federal disaster assistance for publicly owned capital
152.3 improvement projects.

152.4 Sec. 3. Minnesota Statutes 2014, section 216B.16, subdivision 6, is amended to read:

152.5 Subd. 6. **Factors considered, generally.** The commission, in the exercise of its
152.6 powers under this chapter to determine just and reasonable rates for public utilities, shall
152.7 give due consideration to the public need for adequate, efficient, and reasonable service
152.8 and to the need of the public utility for revenue sufficient to enable it to meet the cost of
152.9 furnishing the service, including adequate provision for depreciation of its utility property
152.10 used and useful in rendering service to the public, and to earn a fair and reasonable return
152.11 upon the investment in such property. In determining the rate base upon which the utility
152.12 is to be allowed to earn a fair rate of return, the commission shall give due consideration to
152.13 evidence of the cost of the property when first devoted to public use, to prudent acquisition
152.14 cost to the public utility less appropriate depreciation on each, to construction work in
152.15 progress, to offsets in the nature of capital provided by sources other than the investors,
152.16 and to other expenses of a capital nature. For purposes of determining rate base, the
152.17 commission shall consider the original cost of utility property included in the base and
152.18 shall make no allowance for its estimated current replacement value. Upon petition by
152.19 a public utility, if the commission determines that an order it issued has the effect of
152.20 terminating the operation of a generating facility before the end of the facility's book life
152.21 in order to comply with a specific state or federal energy or environmental statute or
152.22 policy, the commission may allow the public utility to recover any positive net book value
152.23 of the facility as determined by the commission.

152.24 Sec. 4. Minnesota Statutes 2014, section 216B.16, subdivision 7b, is amended to read:

152.25 Subd. 7b. **Transmission cost adjustment.** (a) Notwithstanding any other provision
152.26 of this chapter, the commission may approve a tariff mechanism for the automatic annual
152.27 adjustment of charges for the Minnesota jurisdictional costs net of associated revenues of:

152.28 (i) new transmission facilities that have been separately filed and reviewed and
152.29 approved by the commission under section 216B.243 or new transmission or distribution
152.30 facilities that are certified as a priority project or deemed to be a priority transmission
152.31 project under section 216B.2425;

152.32 (ii) new transmission facilities approved by the regulatory commission of the state
152.33 in which the new transmission facilities are to be constructed, to the extent approval

153.1 is required by the laws of that state, and determined by the Midcontinent Independent
153.2 System Operator to benefit the utility or integrated transmission system; and

153.3 (iii) charges incurred by a utility under a federally approved tariff that accrue
153.4 from other transmission owners' regionally planned transmission projects that have been
153.5 determined by the Midcontinent Independent System Operator to benefit the utility or
153.6 integrated transmission system.

153.7 (b) Upon filing by a public utility or utilities providing transmission service, the
153.8 commission may approve, reject, or modify, after notice and comment, a tariff that:

153.9 (1) allows the utility to recover on a timely basis the costs net of revenues of
153.10 facilities approved under section 216B.243 or certified or deemed to be certified under
153.11 section 216B.2425 or exempt from the requirements of section 216B.243;

153.12 (2) allows the utility to recover charges incurred under a federally approved tariff that
153.13 accrue from other transmission owners' regionally planned transmission projects that have
153.14 been determined by the Midcontinent Independent System Operator to benefit the utility
153.15 or integrated transmission system. These charges must be reduced or offset by revenues
153.16 received by the utility and by amounts the utility charges to other regional transmission
153.17 owners, to the extent those revenues and charges have not been otherwise offset;

153.18 (3) allows the utility to recover on a timely basis the costs net of revenues of facilities
153.19 approved by the regulatory commission of the state in which the new transmission
153.20 facilities are to be constructed and determined by the Midcontinent Independent System
153.21 Operator to benefit the utility or integrated transmission system;

153.22 (4) allows the utility to recover costs associated with investments in distribution
153.23 facilities to modernize the utility's grid that have been certified by the commission under
153.24 section 216B.2425;

153.25 (5) allows a return on investment at the level approved in the utility's last general
153.26 rate case, unless a different return is found to be consistent with the public interest;

153.27 ~~(5)~~ (6) provides a current return on construction work in progress, provided that
153.28 recovery from Minnesota retail customers for the allowance for funds used during
153.29 construction is not sought through any other mechanism;

153.30 ~~(6)~~ (7) allows for recovery of other expenses if shown to promote a least-cost project
153.31 option or is otherwise in the public interest;

153.32 ~~(7)~~ (8) allocates project costs appropriately between wholesale and retail customers;

153.33 ~~(8)~~ (9) provides a mechanism for recovery above cost, if necessary to improve the
153.34 overall economics of the project or projects or is otherwise in the public interest; and

153.35 ~~(9)~~ (10) terminates recovery once costs have been fully recovered or have otherwise
153.36 been reflected in the utility's general rates.

154.1 (c) A public utility may file annual rate adjustments to be applied to customer bills
154.2 paid under the tariff approved in paragraph (b). In its filing, the public utility shall provide:

154.3 (1) a description of and context for the facilities included for recovery;

154.4 (2) a schedule for implementation of applicable projects;

154.5 (3) the utility's costs for these projects;

154.6 (4) a description of the utility's efforts to ensure the lowest costs to ratepayers for
154.7 the project; and

154.8 (5) calculations to establish that the rate adjustment is consistent with the terms
154.9 of the tariff established in paragraph (b).

154.10 (d) Upon receiving a filing for a rate adjustment pursuant to the tariff established in
154.11 paragraph (b), the commission shall approve the annual rate adjustments provided that,
154.12 after notice and comment, the costs included for recovery through the tariff were or are
154.13 expected to be prudently incurred and achieve transmission system improvements at the
154.14 lowest feasible and prudent cost to ratepayers.

154.15 Sec. 5. Minnesota Statutes 2014, section 216B.16, subdivision 8, is amended to read:

154.16 Subd. 8. **Advertising expense.** (a) The commission shall disapprove the portion of
154.17 any rate which makes an allowance directly or indirectly for expenses incurred by a public
154.18 utility to provide a public advertisement which:

154.19 (1) is designed to influence or has the effect of influencing public attitudes toward
154.20 legislation or proposed legislation, or toward a rule, proposed rule, authorization or
154.21 proposed authorization of the Public Utilities Commission or other agency of government
154.22 responsible for regulating a public utility;

154.23 (2) is designed to justify or otherwise support or defend a rate, proposed rate,
154.24 practice or proposed practice of a public utility;

154.25 (3) is designed primarily to promote consumption of the services of the utility,
154.26 except for the promotion of:

154.27 (i) electric vehicles;

154.28 (ii) electric water heaters that are electronically activated by a utility to operate when
154.29 low-priced electricity generated from a renewable source is available;

154.30 (iii) ground or air source heat pumps that displace propane or fuel oil; or

154.31 (iv) vehicles fueled with compressed natural gas;

154.32 (4) is designed primarily to promote good will for the public utility or improve the
154.33 utility's public image; or

154.34 (5) is designed to promote the use of nuclear power or to promote a nuclear waste
154.35 storage facility.

155.1 (b) The commission may approve a rate which makes an allowance for expenses
155.2 incurred by a public utility to disseminate information which:

155.3 (1) is designed to encourage conservation of energy supplies;

155.4 (2) is designed to promote safety; or

155.5 (3) is designed to inform and educate customers as to financial services made
155.6 available to them by the public utility.

155.7 (c) The commission shall not withhold approval of a rate because it makes an
155.8 allowance for expenses incurred by the utility to disseminate information about corporate
155.9 affairs to its owners.

155.10 (d) For the purposes of this subdivision:

155.11 (1) "electric vehicle" has the meaning given in section 169.011, subdivision 26a; and

155.12 (2) "renewable source" has the meaning given to "eligible energy technology" in
155.13 section 216B.1691, subdivision 1.

155.14 **EFFECTIVE DATE.** This section is effective the day following final enactment.

155.15 Sec. 6. Minnesota Statutes 2014, section 216B.16, subdivision 12, is amended to read:

155.16 Subd. 12. **Exemption for small gas utility franchise.** (a) A municipality may file
155.17 with the commission a resolution of its governing body requesting exemption from the
155.18 provisions of this section for a public utility that is under a franchise with the municipality
155.19 to supply natural, manufactured, or mixed gas and that serves 650 or fewer customers in
155.20 the municipality as long as the public utility serves no more than a total of ~~2,000~~ 5,000
155.21 customers.

155.22 (b) The commission shall grant an exemption from this section for that portion of
155.23 a public utility's business that is requested by each municipality it serves. Furthermore,
155.24 the commission shall also grant the public utility an exemption from this section for any
155.25 service provided outside of a municipality's border that is considered by the commission
155.26 to be incidental. The public utility shall file with the commission and the department
155.27 all initial and subsequent changes in rates, tariffs, and contracts for service outside the
155.28 municipality at least 30 days in advance of implementation.

155.29 (c) However, the commission shall require the utility to adopt the commission's
155.30 policies and procedures governing disconnection during cold weather. The utility shall
155.31 annually submit a copy of its municipally approved rates to the commission.

155.32 (d) In all cases covered by this subdivision in which an exemption for service outside
155.33 of a municipality is granted, the commission may initiate an investigation under section
155.34 216B.17, on its own motion or upon complaint from a customer.

156.1 (e) If a municipality files with the commission a resolution of its governing body
156.2 rescinding the request for exemption, the commission shall regulate the public utility's
156.3 business in that municipality under this section.

156.4 **EFFECTIVE DATE.** This section is effective the day following final enactment.

156.5 Sec. 7. Minnesota Statutes 2014, section 216B.16, subdivision 19, is amended to read:

156.6 Subd. 19. **Multiyear rate plan.** (a) A public utility may propose, and the
156.7 commission may approve, approve as modified, or reject, a multiyear rate plan as provided
156.8 in this subdivision. The term "multiyear rate plan" refers to a plan establishing the rates
156.9 the utility may charge for each year of the specified period of years, which cannot exceed
156.10 ~~three~~ five years, to be covered by the plan.

156.11 (b) A utility proposing a multiyear rate plan shall provide a general description of
156.12 the utility's major planned investments over the plan period. The commission may also
156.13 require the utility to provide a set of reasonable performance measures and incentives that
156.14 are quantifiable, verifiable, and consistent with state energy policies. The commission
156.15 may allow the utility to adjust recovery of its cost of capital or other costs in a reasonable
156.16 manner within the plan period.

156.17 (c) The utility may propose:

156.18 (1) recovery of the utility's forecasted rate base, based on a formula, a budget
156.19 forecast, or a fixed escalation rate, individually or in combination. The forecasted rate
156.20 base must include the utility's planned capital investments and investment-related costs,
156.21 including income tax impacts, depreciation and property taxes, as well as forecasted
156.22 capacity-related costs from purchased power agreements that are not recovered through
156.23 section 216B.16, subdivision 7;

156.24 (2) recovery of operations and maintenance expenses, based on an electricity-related
156.25 price index or other formula;

156.26 (3) tariffs that expand the products and services available to customers, including
156.27 but not limited to an affordability rate for low-income residential customers; and

156.28 (4) procedures under which a utility may request that the commission make
156.29 adjustments to the rates approved under the multiyear plan, including, but not limited to,
156.30 changes in the cost of operating its nuclear facilities or other significant investments
156.31 not addressed in the plan.

156.32 (d) A utility that has filed a petition with the commission to approve a multiyear
156.33 rate plan may request to be allowed to implement interim rates for the first and second
156.34 years of the multiyear plan. If the commission approves the request, interim rates shall be
156.35 implemented in the same manner as allowed under subdivision 3.

157.1 (e) The commission may approve a multiyear rate plan only if it finds that the plan
157.2 establishes just and reasonable rates for the utility, applying the factors described in
157.3 subdivision 6. Consistent with subdivision 4, the burden of proof to demonstrate that the
157.4 multiyear rate plan is just and reasonable is on the public utility proposing the plan.

157.5 ~~(b)~~ (f) Rates charged under the multiyear rate plan must be based only upon the
157.6 utility's reasonable and prudent costs of service over the term of the plan, as determined
157.7 by the commission, provided that the costs are not being recovered elsewhere in rates.
157.8 Rate adjustments authorized under subdivisions 6b and 7 may continue outside of a plan
157.9 authorized under this subdivision.

157.10 ~~(e)~~ (g) The commission may, by order, establish terms, conditions, and procedures
157.11 for a multiyear rate plan necessary to implement this section and ensure that rates remain
157.12 just and reasonable during the course of the plan, including terms and procedures for rate
157.13 adjustment. At any time prior to conclusion of a multiyear rate plan, the commission,
157.14 upon its own motion or upon petition of any party, has the discretion to examine the
157.15 reasonableness of the utility's rates under the plan, and adjust rates as necessary.

157.16 ~~(d)~~ (h) In reviewing a multiyear rate plan proposed in a general rate case under
157.17 this section, the commission may extend the time requirements for issuance of a final
157.18 determination prescribed in this section by an additional 90 days beyond its existing
157.19 authority under subdivision 2, paragraph (f).

157.20 ~~(e)~~ (i) A utility may not file a multiyear rate plan that would establish rates under the
157.21 terms of the plan until after May 31, 2012.

157.22 (j) The commission may initiate a proceeding to determine a set of performance
157.23 measures and incentives that may be incorporated by a utility in a multiyear rate plan.

157.24 Sec. 8. **[216B.1616] ELECTRIC VEHICLE REBATES.**

157.31 on a form developed by the commissioner. The commissioner shall develop administrative
157.32 procedures governing the application and rebate award process. Applications will be
157.33 reviewed and rebates awarded on a first-come, first-served basis.

157.34 Subd. 3. **Eligibility.** The purchaser of an electric vehicle is eligible for a \$2,500

158.4 (iii) is purchased after the effective date of this act for use by the purchaser and
158.5 not for resale; and

158.6 (2) the purchaser:
158.7 (i) is a natural person who is a resident of Minnesota, as defined in section 290.01,
158.8 subdivision 7, paragraph (a), when the electric vehicle is purchased;
158.9 (ii) has not received a rebate or tax credit for the purchase of the same electric
158.10 vehicle from another state;
158.11 (iii) registers the electric vehicle in Minnesota; and

158.21 the revenue generated from the customers served by the project.

158.22 (c) "Developer" means a developer of the project or a person that owns or will own
158.23 the property served by the project.

159.7 general rate case for a rider that shall include all of the utility's customers, including
159.8 transport customers, to recover the revenue deficiency from a natural gas extension project.

159.9 (b) The petition shall include:

159.10 (1) a description of the natural gas extension project, including the number and
159.11 location of new customers to be served and the distance over which natural gas will be
159.12 distributed to serve the unserved or inadequately served area;

159.13 (2) the project's construction schedule;

159.14 (3) the proposed project budget;

159.17 through contributions in aid to construction;

159.18 (6) the amount of the revenue deficiency, and how recovery of the revenue deficiency
159.19 will be allocated among industrial, commercial, residential, and transport customers;

159.21 customer class, such as a flat fee, a volumetric charge, or another form of recovery;

159.22 (8) the proposed termination date of the rider to recover the revenue deficiency; and

159.23 (9) a description of benefits to the public utility's existing natural gas customers that
159.24 will accrue from the natural gas extension project.

159.25 Subd. 3. **Review; approval.** (a) The commission shall allow opportunity for
159.26 comment on the petition.

159.27 (b) The commission shall approve a public utility's petition for a rider to recover the
159.28 costs of a natural gas extension project if it determines that:

159.29 (1) the project is designed to extend natural gas service to an unserved or
159.30 inadequately served area; and

159.31 (2) project costs are reasonable and prudently incurred.

159.32 (c) The commission must not approve a rider under this section that allows a utility
159.33 to recover more than 33 percent of the costs of a natural gas extension project.

159.34 (d) The revenue deficiency from a natural gas extension project recoverable through
159.35 a rider under this section must include the currently authorized rate of return, incremental

160.1 income taxes, incremental property taxes, incremental depreciation expenses, and any
 160.2 incremental operation and maintenance costs.

160.3 Subd. 4. **Commission authority; order.** The commission may issue orders
 160.4 necessary to implement and administer this section.

160.5 Subd. 5. **Implementation.** Nothing in this section commits a public utility to
 160.6 implement a project approved by the commission. The public utility seeking to provide
 160.7 natural gas service shall notify the commission whether it intends to proceed with the
 160.8 project as approved by the commission.

160.9 Subd. 6. **Evaluation and report.** By January 15, 2017, and every three years
 160.10 thereafter, the commission shall report to the chairs and ranking minority members of the
 160.11 senate and house of representatives committees having jurisdiction over energy policy:

160.12 (1) the number of public utilities and projects proposed and approved under this
 160.13 section;

160.14 (2) the total cost of each project;

160.15 (3) rate impacts of the cost recovery mechanism; and

160.16 (4) an assessment of the effectiveness of the cost recovery mechanism in realizing
 160.17 increased natural gas service to unserved or inadequately served areas from natural gas
 160.18 extension projects.

160.19 Sec. 10. **[216B.1647] PROPERTY TAX ADJUSTMENT; COOPERATIVE**

160.21 A cooperative electric association that has elected to be subject to rate regulation
 160.22 under section 216B.026 is eligible to file for commission approval an adjustment for real
 160.23 personal property taxes, fees, and permits.

160.24 **EFFECTIVE DATE.** This section is effective the day following final enactment.

160.25 Sec. 11. **[216B.1696] COMPETITIVE RATE FOR ENERGY-INTENSIVE**
 160.26 **TRADE-EXPOSED ELECTRIC UTILITY CUSTOMER.**

160.27 Subdivision 1. **Definitions.** (a) For the purposes of this section, the following terms
 160.28 have the meanings given them.

160.29 (b) "Clean energy technology" is energy technology that generates electricity from a
 160.30 noncarbon-emitting resource, including but not limited to solar, wind, hydroelectric,
 160.31 and nuclear.

160.32 (c) "Energy-intensive trade-exposed customer" is defined to include:

160.33 (1) an iron mining extraction and processing facility, including a scam mining
 160.34 facility as defined in Minnesota Rules, part 6130.0100, subpart 16;

161.1 (2) a paper mill, wood products manufacturer, sawmill, or oriented strand board
161.2 manufacturer;

161.3 (3) a copper, nickel, or precious metals mining extraction and processing facility;

161.4 (4) a steel mill and related facilities;

161.5 (5) an oil and liquids pipeline;

161.6 (6) a ceiling panel manufacturer; and

161.7 (7) any other globally competitive electric utility customer who can demonstrate
161.8 that energy costs are a significant portion of the customer's overall cost of production and
161.9 impede the customer's ability to compete in the global market.

161.10 (d) "EITE rate schedule" means a rate schedule of an investor-owned electric
161.11 utility that establishes the terms of service for an individual or group of energy-intensive,
161.12 trade-exposed customers.

161.13 (e) "EITE rate" means the rate or rates offered by the utility under an EITE rate
161.14 schedule.

161.15 Subd. 2. **Rates and terms of EITE rate schedule.** (a) It is the energy policy
161.16 of the state of Minnesota to promote competitive electric rates for energy-intensive,
161.17 trade-exposed customers, as provided in this section. To achieve this objective, an
161.18 investor-owned electric utility may propose an EITE rate schedule for commission
161.19 approval that includes various EITE rate options, including fixed rates, market-based rates,
161.20 and rates to encourage utilization of clean energy technology.

161.21 (b) Notwithstanding section 216B.03, 216B.05, 216B.06, 216B.07, or 216B.16, the
161.22 commission shall approve a proposed EITE rate schedule if it finds the schedule provides
161.23 net benefits to the utility and its customers, considering among other things:

161.24 (1) potential cost impacts to the utility customers;

161.25 (2) the net benefit to the local or state economy through the retention of or increase
161.26 to existing jobs;

161.27 (3) a net increase in economic development in the utility's service territory; and

161.28 (4) avoiding a significant increase in rates due to a reduction of EITE customer load.

161.29 (c) An EITE rate offered by an electric utility under an approved EITE rate schedule
161.30 must be filed with the commission. The commission shall review and approve the EITE
161.31 rate offered by an electric utility if it finds the rate provides net benefits to the utility and
161.32 its customers as described above. The commission shall make a final determination in
161.33 any proceeding begun under this section within 90 days of a miscellaneous rate filing by
161.34 the electric utility.

161.35 (d) Upon approval of an EITE rate, the utility may recover the incremental costs
161.36 associated with providing service to a customer under the EITE rate from the utility's

162.1 nonenergy-intensive, trade-exposed customers, except low-income residential ratepayers,
162.2 as defined in section 216B.16, subdivision 15.

162.3 Sec. 12. Minnesota Statutes 2014, section 216B.2425, is amended to read:

162.9 commission by each utility, organization, or company that:

162.10 (1) is a public utility, a municipal utility, a cooperative electric association, the
162.11 generation and transmission organization that serves each utility or association, or a
162.12 transmission company; and

162.13 (2) owns or operates electric transmission lines in Minnesota, except a company or
162.14 organization that owns a transmission line that serves a single customer or interconnects a
162.15 single generating facility.

162.16 (b) The report may be submitted jointly or individually to the commission.

162.17 (c) The report must:

162.18 (1) list specific present and reasonably foreseeable future inadequacies in the
162.19 transmission system in Minnesota;

162.20 (2) identify alternative means of addressing each inadequacy listed;

162.21 (3) identify general economic, environmental, and social issues associated with
162.22 each alternative; and

162.23 (4) provide a summary of public input related to the list of inadequacies and the role
162.24 of local government officials and other interested persons in assisting to develop the list
162.25 and analyze alternatives.

162.26 (d) To meet the requirements of this subdivision, reporting parties may rely on
162.27 available information and analysis developed by a regional transmission organization
162.28 or any subgroup of a regional transmission organization and may develop and include
162.29 additional information as necessary.

162.30 (e) In addition to providing the information required under this subdivision,
162.31 a utility operating under a multiyear rate plan approved by the commission under
162.32 section 216B.16, subdivision 19, shall identify in its report investments that it considers
162.33 necessary to modernize the transmission and distribution system by enhancing reliability,
162.34 improving security against cyber and physical threats, and increasing energy conservation
162.35 opportunities by facilitating communication between the utility and its customers

163.1 through the use of two-way meters, control technologies, energy storage and microgrids,
163.2 technologies to enable demand response, and other innovative technologies.

163.3 Subd. 3. **Commission approval.** By June 1 of each even-numbered year, the
163.4 commission shall adopt a state transmission project list and shall certify, certify as
163.5 modified, or deny certification of the transmission and distribution projects proposed
163.6 under subdivision 2. The commission may only certify a project that is a high-voltage
163.7 transmission line as defined in section 216B.2421, subdivision 2, that the commission
163.8 finds is:

163.9 (1) necessary to maintain or enhance the reliability of electric service to Minnesota
163.10 consumers;

163.11 (2) needed, applying the criteria in section 216B.243, subdivision 3; and

163.12 (3) in the public interest, taking into account electric energy system needs and
163.13 economic, environmental, and social interests affected by the project.

163.14 Subd. 4. **List; effect.** Certification of a project as a priority electric transmission
163.15 project satisfies section 216B.243. A certified project on which construction has not begun
163.16 more than six years after being placed on the list, must be reapproved by the commission.

163.17 Subd. 5. **Transmission inventory.** The Department of Commerce shall create,
163.18 maintain, and update annually an inventory of transmission lines in the state.

163.19 Subd. 6. **Exclusion.** This section does not apply to any transmission line proposal
163.20 that has been approved by, or was pending before, a local unit of government, the
163.21 Environmental Quality Board, or the Public Utilities Commission on August 1, 2001.

163.22 Subd. 7. **Transmission needed to support renewable resources.** (a) Each entity
163.23 subject to this section shall determine necessary transmission upgrades to support
163.24 development of renewable energy resources required to meet objectives under section
163.25 216B.1691 and shall include those upgrades in its report under subdivision 2.

163.26 (b) MS 2008 [Expired]

163.27 Subd. 8. **Distribution study for distributed generation.** Each entity subject to
163.28 this section that is operating under a multiyear rate plan approved under section 216B.16,
163.29 subdivision 19, shall conduct a distribution study to identify interconnection points on its
163.30 distribution system for small-scale distributed generation resources and identify necessary
163.31 distribution upgrades to support the continued development of distributed generation
163.32 resources. The study shall be included in its report required under subdivision 2.

163.33 Sec. 13. Minnesota Statutes 2014, section 216B.243, subdivision 3b, is amended to read:

164.1 Subd. 3b. ~~Nuclear power plant; new construction prohibited; relicensing~~
164.2 Additional storage of spent nuclear fuel. ~~(a) The commission may not issue a certificate~~
164.3 ~~of need for the construction of a new nuclear-powered electric generating plant.~~

164.4 ~~(b) Any certificate of need for additional storage of spent nuclear fuel for a facility~~
164.5 ~~seeking a license extension shall address the impacts of continued operations over the~~
164.6 ~~period for which approval is sought.~~

167.12 resources and the commission;

167.13 (2) assess any duplicative functions of staff and redundant management positions;

167.14 (3) assess whether transferring specific functions and staff would result in a clearer
167.15 and more functional link between authority and responsibility for accomplishing various

170.34 239.7911; or

170.35 (6) increase the use of green chemistry, as defined in section 116.9401.

171.1 For the purpose of clause (3), "green economy" includes strategies that reduce carbon
171.2 emissions, such as utilizing existing buildings and other infrastructure, and utilizing mass
171.3 transit or otherwise reducing commuting for employees.

171.4 Sec. 4. Minnesota Statutes 2014, section 216B.164, subdivision 3a, is amended to read:

171.5 Subd. 3a. **Net metered facility.** (a) ~~Except for customers receiving a value of solar~~
171.6 ~~rate under subdivision 10,~~ A customer with a net metered facility having a capacity of
171.7 40 kilowatts or greater but less than 1,000 kilowatts that is interconnected to a public
171.8 utility may elect to be compensated for the customer's net input into the utility system
171.9 in the form of a kilowatt-hour credit on the customer's energy bill carried forward and
171.10 applied to subsequent energy bills. Any net input supplied by the customer into the utility
171.11 system that exceeds energy supplied to the customer by the utility during a calendar year
171.12 must be compensated at the applicable rate.

171.13 (b) A public utility may not impose a standby charge on a net metered or qualifying
171.14 facility:

171.15 (1) of 100 kilowatts or less capacity; or

171.16 (2) of more than 100 kilowatts capacity, except in accordance with an order of the
171.17 commission establishing the allowable costs to be recovered through standby charges.

171.18 Sec. 5. Minnesota Statutes 2014, section 216B.1645, subdivision 1, is amended to read:

171.19 Subdivision 1. **Commission authority.** Upon the petition of a public utility, the
171.20 Public Utilities Commission shall approve or disapprove power purchase contracts,
171.21 investments, or expenditures entered into or made by the utility to satisfy the wind and
171.22 biomass mandates contained in sections 216B.169, 216B.2423, and 216B.2424, and
171.23 to satisfy the renewable advanced energy objectives and standards set forth in section
171.24 216B.1691, including reasonable investments and expenditures made to:

171.25 (1) transmit the electricity generated from sources developed under those sections
171.26 that is ultimately used to provide service to the utility's retail customers, including
171.27 studies necessary to identify new transmission facilities needed to transmit electricity to
171.28 Minnesota retail customers from generating facilities constructed to satisfy the renewable
171.29 advanced energy objectives and standards, provided that the costs of the studies have not
171.30 been recovered previously under existing tariffs and the utility has filed an application
171.31 for a certificate of need or for certification as a priority project under section 216B.2425
171.32 for the new transmission facilities identified in the studies;

171.33 (2) provide storage facilities for renewable energy generation facilities that
171.34 contribute to the reliability, efficiency, or cost-effectiveness of the renewable facilities; or

172.1 (3) develop renewable energy sources from the account required in section 116C.779.

172.2 Sec. 6. Minnesota Statutes 2014, section 216B.241, subdivision 5c, is amended to read:

172.3 Subd. 5c. **Large solar electric generating plant.** (a) For the purpose of this
172.4 subdivision:

172.5 (1) "project" means a solar electric generation project consisting of arrays of solar
172.6 photovoltaic cells with a capacity of up to two megawatts located on the site of a closed
172.7 landfill in Olmsted County owned by the Minnesota Pollution Control Agency; and

172.8 (2) "cooperative electric association" means a generation and transmission
172.9 cooperative electric association that has a member distribution cooperative association to
172.10 which it provides wholesale electric service in whose service territory a project is located.

172.11 (b) A cooperative electric association may elect to count all of its purchases of
172.12 electric energy from a project toward only one of the following:

172.13 (1) its energy-savings goal under subdivision 1c; or

172.14 (2) its advanced energy objective ~~or~~ standard under section 216B.1691.

172.15 (c) A cooperative electric association may include in its conservation plan purchases
172.16 of electric energy from a project. The cost-effectiveness of project purchases may be
172.17 determined by a different standard than for other energy conservation improvements
172.18 under this section if the commissioner determines that doing so is in the public interest
172.19 in order to encourage solar energy. The kilowatt hours of solar energy purchased by a
172.20 cooperative electric association from a project may count for up to 33 percent of its one
172.21 percent savings goal under subdivision 1c or up to 22 percent of its 1.5 percent savings
172.22 goal under that subdivision. Expenditures made by a cooperative association for the
172.23 purchase of energy from a project may not be used to meet the revenue expenditure
172.24 requirements of subdivisions 1a and 1b.

172.25 Sec. 7. Minnesota Statutes 2014, section 216B.241, subdivision 9, is amended to read:

172.26 Subd. 9. **Building performance standards; Sustainable Building 2030.** (a) The
172.27 purpose of this subdivision is to establish cost-effective energy-efficiency performance
172.28 standards for new and substantially reconstructed commercial, industrial, and institutional
172.29 buildings that can significantly reduce carbon dioxide emissions by lowering energy use in
172.30 new and substantially reconstructed buildings. For the purposes of this subdivision, the
172.31 establishment of these standards may be referred to as Sustainable Building 2030.

172.32 (b) The commissioner shall contract with the Center for Sustainable Building
172.33 Research at the University of Minnesota to coordinate development and implementation
172.34 of energy-efficiency performance standards, strategic planning, research, data analysis,

173.1 technology transfer, training, and other activities related to the purpose of Sustainable
173.2 Building 2030. The commissioner and the Center for Sustainable Building Research
173.3 shall, in consultation with utilities, builders, developers, building operators, and experts
173.4 in building design and technology, develop a Sustainable Building 2030 implementation
173.5 plan that must address, at a minimum, the following issues:

173.6 (1) training architects to incorporate the performance standards in building design;

173.7 (2) incorporating the performance standards in utility conservation improvement
173.8 programs; and

173.9 (3) developing procedures for ongoing monitoring of energy use in buildings that
173.10 have adopted the performance standards.

173.11 The plan must be submitted to the chairs and ranking minority members of the senate and
173.12 house of representatives committees with primary jurisdiction over energy policy by
173.13 July 1, 2009.

173.14 (c) Sustainable Building 2030 energy-efficiency performance standards must be firm,
173.15 quantitative measures of total building energy use and associated carbon dioxide emissions
173.16 per square foot for different building types and uses, that allow for accurate determinations
173.17 of a building's conformance with a performance standard. Performance standards must
173.18 address energy use by electric vehicle charging infrastructure in or adjacent to buildings as
173.19 that infrastructure begins to be made widely available. The energy-efficiency performance
173.20 standards must be updated every three or five years to incorporate all cost-effective
173.21 measures. The performance standards must reflect the reductions in carbon dioxide
173.22 emissions per square foot resulting from actions taken by utilities to comply with the
173.23 ~~renewable~~ advanced energy standards in section 216B.1691. The performance standards
173.24 should be designed to achieve reductions equivalent to the following reduction schedule,
173.25 measured against energy consumption by an average building in each applicable building
173.26 sector in 2003: (1) 60 percent in 2010; (2) 70 percent in 2015; (3) 80 percent in 2020;
173.27 and (4) 90 percent in 2025. A performance standard must not be established or increased
173.28 absent a conclusive engineering analysis that it is cost-effective based upon established
173.29 practices used in evaluating utility conservation improvement programs.

173.30 (d) The annual amount of the contract with the Center for Sustainable Building
173.31 Research is up to \$500,000. The Center for Sustainable Building Research shall expend
173.32 no more than \$150,000 of this amount each year on administration, coordination, and
173.33 oversight activities related to Sustainable Building 2030. The balance of contract funds
173.34 must be spent on substantive programmatic activities allowed under this subdivision that
173.35 may be conducted by the Center for Sustainable Building Research and others, and for
173.36 subcontracts with not-for-profit energy organizations, architecture and engineering firms,

174.1 and other qualified entities to undertake technical projects and activities in support of
174.2 Sustainable Building 2030. The primary work to be accomplished each year by qualified
174.3 technical experts under subcontracts is the development and thorough justification of
174.4 recommendations for specific energy-efficiency performance standards. Additional work
174.5 may include:

174.6 (1) research, development, and demonstration of new energy-efficiency technologies
174.7 and techniques suitable for commercial, industrial, and institutional buildings;

174.8 (2) analysis and evaluation of practices in building design, construction,
174.9 commissioning and operations, and analysis and evaluation of energy use in the
174.10 commercial, industrial, and institutional sectors;

174.11 (3) analysis and evaluation of the effectiveness and cost-effectiveness of Sustainable
174.12 Building 2030 performance standards, conservation improvement programs, and building
174.13 energy codes;

174.14 (4) development and delivery of training programs for architects, engineers,
174.15 commissioning agents, technicians, contractors, equipment suppliers, developers, and
174.16 others in the building industries; and

174.17 (5) analysis and evaluation of the effect of building operations on energy use.

174.18 (e) The commissioner shall require utilities to develop and implement conservation
174.19 improvement programs that are expressly designed to achieve energy efficiency goals
174.20 consistent with the Sustainable Building 2030 performance standards. These programs
174.21 must include offerings of design assistance and modeling, financial incentives, and the
174.22 verification of the proper installation of energy-efficient design components in new and
174.23 substantially reconstructed buildings. A utility's design assistance program must consider
174.24 the strategic planting of trees and shrubs around buildings as an energy conservation
174.25 strategy for the designed project. A utility making an expenditure under its conservation
174.26 improvement program that results in a building meeting the Sustainable Building 2030
174.27 performance standards may claim the energy savings toward its energy-savings goal
174.28 established in subdivision 1c.

174.29 (f) The commissioner shall report to the legislature every three years, beginning
174.30 January 15, 2010, on the cost-effectiveness and progress of implementing the Sustainable
174.31 Building 2030 performance standards and shall make recommendations on the need to
174.32 continue the program as described in this section.

174.33 Sec. 8. Minnesota Statutes 2014, section 216B.2411, subdivision 3, is amended to read:

174.34 Subd. 3. **Other provisions.** (a) Electricity generated by a facility constructed with
174.35 funds provided under this section and using an eligible renewable energy source may be

175.1 counted toward the renewable advanced energy objectives standards in section 216B.1691,
175.2 subject to the provisions of that section, ~~except as provided in paragraph (e).~~

175.3 (b) Two or more entities may pool resources under this section to provide assistance
175.4 jointly to proposed eligible renewable energy projects. The entities shall negotiate and
175.5 agree among themselves for allocation of benefits associated with a project, such as
175.6 the ability to count energy generated by a project toward a utility's renewable advance
175.7 energy objectives under section 216B.1691, except as provided in paragraph (c). The
175.8 entities shall provide a summary of the allocation of benefits to the commissioner. A
175.9 utility may spend funds under this section for projects in Minnesota that are outside the
175.10 service territory of the utility.

175.11 (c) Electricity generated by a solar photovoltaic device constructed with funds
175.12 provided under this section may be counted toward a public utility's solar energy standard
175.13 under section 216B.1691, subdivision 2f.

175.14 Sec. 9. Minnesota Statutes 2014, section 216B.2422, subdivision 2c, is amended to read:

175.15 Subd. 2c. **Long-range emission reduction planning.** Each utility required to file a
175.16 resource plan under subdivision 2 shall include in the filing a narrative identifying and
175.17 describing the costs, opportunities, and technical barriers to the utility continuing to make
175.18 progress on its system toward achieving the state greenhouse gas emission reduction ~~goals~~
175.19 goal established in section 216H.02, subdivision 1, and the technologies, alternatives, and
175.20 steps the utility is considering to address those opportunities and barriers.

175.21 **EFFECTIVE DATE.** This section is effective the day following final enactment.

175.22 Sec. 10. Minnesota Statutes 2014, section 216B.2422, subdivision 4, is amended to read:

175.23 Subd. 4. **Preference for renewable energy facility.** The commission shall not
175.24 approve a new or refurbished nonrenewable energy facility in an integrated resource plan
175.25 or a certificate of need, pursuant to section 216B.243, nor shall the commission allow rate
175.26 recovery pursuant to section 216B.16 for such a nonrenewable energy facility, unless the
175.27 utility has demonstrated that a renewable energy facility is not in the public interest. The
175.28 public interest determination must include whether the resource plan helps the utility
175.29 achieve the greenhouse gas reduction ~~goals~~ goal under section 216H.02; or the renewable
175.30 advanced energy standard under section 216B.1691, or the solar energy standard under
175.31 section 216B.1691, subdivision 2f.

175.32 Sec. 11. Minnesota Statutes 2014, section 216B.2425, subdivision 7, is amended to read:

176.1 Subd. 7. **Transmission needed to support renewable resources.** (a) Each entity
176.2 subject to this section shall determine necessary transmission upgrades to support
176.3 development of renewable energy resources required to meet ~~objectives~~ the advanced
176.4 energy standards under section 216B.1691 and shall include those upgrades in its report
176.5 under subdivision 2.

176.6 (b) MS 2008 [Expired]

176.7 Sec. 12. Minnesota Statutes 2014, section 216B.243, subdivision 9, is amended to read:

176.8 Subd. 9. **Renewable energy standard facilities.** This section does not apply to a
176.9 wind energy conversion system or a solar electric generation facility that is intended to be

176.11 that, after notice and comment, the commission determines that the facility is a reasonable
176.12 and prudent approach to meeting a utility's obligations under that section. When making
176.13 this determination, the commission must consider:

176.14 (1) the size of the facility relative to a utility's total need for renewable resources;

176.15 (2) alternative approaches for supplying the renewable energy to be supplied by
176.16 the proposed facility;

176.17 (3) the facility's ability to promote economic development, as required under section
176.18 216B.1691, subdivision 9;

176.19 (4) the facility's ability to maintain electric system reliability;

176.20 (5) impacts on ratepayers; and

176.21 (6) other criteria as the commission may determine are relevant.

176.26 electric energy generated and sold by the facility, (3) a publicly owned hydropower facility
176.27 for electric energy that is generated by the facility and used by the owner of the facility
176.28 outside the facility, or (4) the owner of a publicly owned dam that is in need of substantial
176.29 repair, for electric energy that is generated by a hydropower facility at the dam and the
176.30 annual incentive payments will be used to fund the structural repairs and replacement of
176.31 structural components of the dam, or to retire debt incurred to fund those repairs.

176.32 (b) Payment may only be made upon receipt by the commissioner of commerce of
176.33 an incentive payment application that establishes that the applicant is eligible to receive an

177.1 incentive payment and that satisfies other requirements the commissioner deems necessary.

177.2 The application must be in a form and submitted at a time the commissioner establishes.

177.3 (c) There is annually appropriated from the ~~renewable development~~ energy fund

177.4 account established under section 116C.779 to the commissioner of commerce sums

177.5 sufficient to make the payments required under this section, in addition to the amounts

177.32 or a combination of both, of the following ways:

178.1 (1) by reducing an existing facility's contribution to statewide power sector carbon
178.2 dioxide emissions; or

178.3 (2) by purchasing carbon dioxide allowances from a state or group of states that has a
178.4 carbon dioxide cap and trade system in place that produces verifiable emissions reductions.

178.5 (c) The Public Utilities Commission shall not find that a proposed carbon dioxide
178.6 reduction project identified in paragraph (b) acceptably offsets a new contribution to
178.7 statewide power sector carbon dioxide emissions unless the proposed offsets are permanent,
178.8 quantifiable, verifiable, enforceable, and would not have otherwise occurred. This section
178.9 does not exempt emissions that have been offset under this subdivision and emissions
178.10 exempted under subdivisions 5 to 7 from a cap and trade system if adopted by the state.

178.16 that enters into a multiyear agreement for purchase of energy or acquires an interest in

178.17 a project, ~~including C-BED projects pursuant to section 216B.1612, subdivision 9,~~ may

178.18 finance the estimated cost of the energy to be purchased during the term of the agreement

178.19 or the cost to the county of the interest in the project by the issuance of revenue bonds of

178.20 the county, including clean renewable energy revenue bonds, provided that the annual debt

178.21 service on all bonds issued under this section, together with the amounts to be paid by the

178.22 county in any year for the purchase of energy under agreements entered into under this

178.23 section, must not exceed the estimated revenues of the project.

178.24 (b) An agreement entered into under section 471.59 as provided by this section

178.25 may provide that:

178.26 (1) each county issues bonds to pay their respective shares of the cost of the projects;

178.27 (2) one of the counties issues bonds to pay the full costs of the project and that the

178.28 other participating counties pay any available revenues of the project and pledge the

178.29 revenues to the county that issues the bonds; or

178.30 (3) the joint powers board issues revenue bonds to pay the full costs of the project

178.31 and that the participating counties pay any available revenues of the project under this

3.8852 PLANNING STRATEGY FOR SUSTAINABLE ENERGY FUTURE.

(a) The Legislative Energy Commission, in consultation with the commissioner of commerce and other state agencies, shall develop a framework for the state of Minnesota to transition to a renewable energy economy that ends Minnesota's contribution to greenhouse gases from burning fossil fuels within the next few decades. The framework and strategy should aim to make Minnesota the first state in the nation to use only renewable energy.

(b) In developing the framework for this transition, the commission must consult with stakeholders, including, but not limited to, representatives from cooperative, municipal, and investor-owned utilities, natural resources and environmental advocacy groups, labor and industry, and technical and scientific experts to examine the challenges and opportunities involved to develop a strategy and timeline to protect the environment and create jobs. The timeline must establish goals and strategies to reach the state's renewable energy standards and prepare for the steps beyond reaching those standards. The Department of Commerce, Division of Energy Resources shall provide technical support.

(c) The commission and its stakeholders must consider the following in creating the framework:

- (1) the economic and environmental costs of continued reliance on fossil fuels;
- (2) the creation of jobs and industry in the state that result from moving ahead of other states in transitioning to a sustainable energy economy;
- (3) the appropriate energy efficiency and renewable energy investments in Minnesota to reduce the economic losses to the Minnesota economy from importation of fossil fuels; and
- (4) the new technologies for energy efficiency, storage, transmission, and renewable generation needed to reliably meet the demand for energy.

(d) The framework shall be modified as needed to take advantage of new technological developments to facilitate ending fossil fuel use in power generation, heating and cooling, industry, and transportation.

(e) The commission shall report to the legislative committees and divisions with jurisdiction over energy policy by January 15, 2014, and annually thereafter, on progress toward achieving the framework goals.

The order must include a statement of the reasons for the order and whether the commissioner will seek a civil penalty or costs of the investigation, and notice that the person must within 30 days of being served with the order, request in writing a hearing and that within 15 days after receipt of a written hearing request from the person, the matter will be scheduled for a hearing. If a person subject to the order does not request a hearing within 30 days after the date of service of the order, the order becomes final as to that person by operation of law. If a hearing is requested, the commissioner, after notice of an opportunity for hearing to each person subject to the order, may modify or vacate the order or extend it until final determination.

(c) If a hearing is requested pursuant to paragraph (b), a hearing must be held under chapter 14 and a final order may not be issued unless the commissioner makes findings of fact and conclusions of law in a record according to chapter 14. The final order may make final, vacate, or modify the order issued under paragraph (a).

(d) If a petition for judicial review of a final order is not filed in accordance with chapter 14, the commissioner may file a certified copy of the final order with the clerk of a court of competent jurisdiction. The order so filed has the same effect as a judgment of the court and may be recorded, enforced, or satisfied in the same manner as a judgment of the court.

(e) If a person does not comply with an order under this section, the commissioner may petition a court of competent jurisdiction to enforce the order. The court may not require the commissioner to post a bond in an action or proceeding under this section. If the court finds, after service and opportunity for hearing, that the person was not in compliance with the order, the court may adjudge the person in civil contempt of the order. The court may impose a further civil penalty against the person for contempt in an amount up to \$10,000 for each violation and may grant any other relief the court determines is just and proper in the circumstances.

(f) In addition to the authority granted under this chapter, the commissioner has all the authority provided under section 45.027 to ensure compliance with this chapter.

APPENDIX

Repealed Minnesota Statutes: H0843-4

Subd. 5. **Priority for C-BED projects.** (a) A utility subject to section 216B.1691 that needs to construct new generation, or purchase the output from new generation, as part of its plan to satisfy its good faith objective and standard under that section must take reasonable steps to determine if one or more C-BED projects are available that meet the utility's cost and reliability requirements, applying standard reliability criteria, to fulfill some or all of the identified need at minimal impact to customer rates.

Nothing in this section shall be construed to obligate a utility to enter into a power purchase agreement under a C-BED tariff developed under this section.

(b) Each utility shall include in its resource plan submitted under section 216B.2422 a description of its efforts to purchase energy from C-BED projects, including a list of the projects under contract and the amount of C-BED energy purchased.

(c) The commission shall consider the efforts and activities of a utility to purchase energy from C-BED projects when evaluating its good faith effort towards meeting the renewable energy objective under section 216B.1691.

(d) A municipal power agency or generation and transmission cooperative shall, when issuing a request for proposals for C-BED projects to satisfy its standard obligation under section 216B.1691, provide notice to its member distribution utilities that they may propose, in partnership with other qualifying beneficiaries, a C-BED project for the consideration of the municipal power agency or generation and transmission cooperative.

Subd. 6. **Property owner participation.** To the extent feasible, a developer of a C-BED project must provide, in writing, an opportunity to invest in the C-BED project to each property owner on whose property a high-voltage transmission line is constructed that will transmit the energy generated by the C-BED project to market. This subdivision applies if the property is located and the owner resides in the county where the C-BED project is located.

Subd. 7. **Other C-BED tariff issues.** (a) A community-based project developer and a utility shall negotiate the rate and power purchase agreement terms consistent with the tariff established under subdivision 4.

(b) At the discretion of the developer, a community-based project developer and a utility may negotiate a power purchase agreement with terms different from the tariff established under subdivision 4.

(c) A C-BED project may be jointly developed with a non-C-BED project. However, the terms of the C-BED tariff may only apply to the portion of the energy production of the total project that is directly proportional to the energy produced by the C-BED project. A project that is operating under a power purchase agreement under a C-BED tariff is not eligible for net energy billing under section 216B.164, subdivision 3, or for production incentives under section 216C.41.

(d) A public utility must receive commission approval of a power purchase agreement for a C-BED tariffed project. The commission shall provide the utility's ratepayers an opportunity to address the reasonableness of the proposed power purchase agreement. Unless a party objects to a contract within 30 days of submission of the contract to the commission the contract is deemed approved.

Subd. 8. **Community energy partnerships.** A utility providing electric service to retail or wholesale customers in Minnesota and an independent power producer may, subject to the limits specified in this section, participate in a community-based energy project, including as an owner, equity partner, or provider of technical or financial assistance.

Subd. 9. **Local government and political subdivision powers.** A Minnesota political subdivision or local government may plan, develop, purchase, acquire, construct, and own a C-BED project and may sell output from that project as provided for in this section. A Minnesota political subdivision or local government may not acquire property under this subdivision through eminent domain. A Minnesota political subdivision or local government may operate, maintain, improve, and expand the C-BED project subject to any restrictions in this section.

Subd. 10. **C-BED eligibility determination.** (a) A developer of a C-BED project may seek a predetermination of C-BED eligibility from the commissioner of commerce at any time, and must obtain a determination of C-BED eligibility from the commissioner of commerce, based on the project's final financing terms, before construction may begin. In seeking a determination of eligibility under this subdivision, a developer of a C-BED project must submit to the commissioner of commerce detailed financial projections demonstrating that, based on a net present value analysis, and applying the discount rate to qualifying revenues and gross revenues from a power purchase agreement, the project meets the requirements of subdivision 2, paragraph (h), clause (2).

(b) A project is not required to obtain a determination of C-BED eligibility under paragraph (a) if it has received, prior to May 18, 2010, an opinion letter from the commissioner indicating that the project qualifies as a C-BED project under this section.

APPENDIX

Repealed Minnesota Statutes: H0843-4

(c) The commissioner's determination of C-BED eligibility of a project that obtained its initial opinion letter regarding C-BED eligibility from the commissioner or written notification from the Midwest Independent Systems Operator (MISO) that the project retains a position in the interconnection queue before May 18, 2010, must be based on the laws applicable at the time the initial opinion letter of C-BED eligibility was issued or the Midwest Independent System Operator interconnection queue position was obtained. A project subject to this paragraph may elect to have the determination of eligibility governed by the law in effect at the time of the determination.

216B.164 COGENERATION AND SMALL POWER PRODUCTION.

Subd. 10. **Alternative tariff; compensation for resource value.** (a) A public utility may apply for commission approval for an alternative tariff that compensates customers through a bill credit mechanism for the value to the utility, its customers, and society for operating distributed solar photovoltaic resources interconnected to the utility system and operated by customers primarily for meeting their own energy needs.

(b) If approved, the alternative tariff shall apply to customers' interconnections occurring after the date of approval. The alternative tariff is in lieu of the applicable rate under subdivisions 3 and 3a.

(c) The commission shall after notice and opportunity for public comment approve the alternative tariff provided the utility has demonstrated the alternative tariff:

(1) appropriately applies the methodology established by the department and approved by the commission under this subdivision;

(2) includes a mechanism to allow recovery of the cost to serve customers receiving the alternative tariff rate;

(3) charges the customer for all electricity consumed by the customer at the applicable rate schedule for sales to that class of customer;

(4) credits the customer for all electricity generated by the solar photovoltaic device at the distributed solar value rate established under this subdivision;

(5) applies the charges and credits in clauses (3) and (4) to a monthly bill that includes a provision so that the unused portion of the credit in any month or billing period shall be carried forward and credited against all charges. In the event that the customer has a positive balance after the 12-month cycle ending on the last day in February, that balance will be eliminated and the credit cycle will restart the following billing period beginning on March 1;

(6) complies with the size limits specified in subdivision 3a;

(7) complies with the interconnection requirements under section 216B.1611; and

(8) complies with the standby charge requirements in subdivision 3a, paragraph (b).

(d) A utility must provide to the customer the meter and any other equipment needed to provide service under the alternative tariff.

(e) The department must establish the distributed solar value methodology in paragraph (c), clause (1), no later than January 31, 2014. The department must submit the methodology to the commission for approval. The commission must approve, modify with the consent of the department, or disapprove the methodology within 60 days of its submission. When developing the distributed solar value methodology, the department shall consult stakeholders with experience and expertise in power systems, solar energy, and electric utility ratemaking regarding the proposed methodology, underlying assumptions, and preliminary data.

(f) The distributed solar value methodology established by the department must, at a minimum, account for the value of energy and its delivery, generation capacity, transmission capacity, transmission and distribution line losses, and environmental value. The department may, based on known and measurable evidence of the cost or benefit of solar operation to the utility, incorporate other values into the methodology, including credit for locally manufactured or assembled energy systems, systems installed at high-value locations on the distribution grid, or other factors.

(g) The credit for distributed solar value applied to alternative tariffs approved under this section shall represent the present value of the future revenue streams of the value components identified in paragraph (f).

(h) The utility shall recalculate the alternative tariff on an annual cycle, and shall file the recalculated alternative tariff with the commission for approval.

(i) Renewable energy credits for solar energy credited under this subdivision belong to the electric utility providing the credit.

(j) The commission may not authorize a utility to charge an alternative tariff rate that is lower than the utility's applicable retail rate until three years after the commission approves an alternative tariff for the utility.

APPENDIX

Repealed Minnesota Statutes: H0843-4

(k) A utility must enter into a contract with an owner of a solar photovoltaic device receiving an alternative tariff rate under this section that has a term of at least 20 years, unless a shorter term is agreed to by the parties.

(l) An owner of a solar photovoltaic device receiving an alternative tariff rate under this section must be paid the same rate per kilowatt-hour generated each year for the term of the contract.

216B.8109 HYDROGEN ENERGY ECONOMY GOAL.

Subd. 2. **Fuel cell.** "Fuel cell" means an electrochemical device that produces useful electricity, heat, and water vapor, and operates as long as it is provided fuel.

Subd. 3. **Hydrogen.** "Hydrogen" means hydrogen produced using renewable energy sources.

Subd. 4. **Related technologies.** "Related technologies" means balance of plant components necessary to make hydrogen and fuel cell systems function; turbines, reciprocating, and other combustion engines capable of operating on hydrogen; and electrolyzers, reformers, and other equipment and processes necessary to produce, purify, store, distribute, and use hydrogen for energy.

216B.812 FOSTERING USE OF HYDROGEN ENERGY.

Subdivision 1. **State purchase and use of renewable hydrogen technologies.** (a) The Department of Commerce, in coordination with the Department of Administration and the Pollution Control Agency, shall identify opportunities for deploying renewable hydrogen, fuel cells, and related technologies within state-owned facilities, vehicle fleets, and operations in ways that demonstrate their commercial performance and economics.

(b) The Department of Commerce shall recommend to the Department of Administration the purchase and deployment of hydrogen, fuel cells, and related technologies, when feasible, in ways that strategically contribute to realizing Minnesota's hydrogen economy goal as set forth in section 216B.8109, and which contribute to the following nonexclusive list of objectives:

- (1) provide needed performance data to the marketplace;
- (2) identify code and regulatory issues to be resolved;
- (3) foster economic development and job creation in the state;
- (4) raise public awareness of renewable hydrogen, fuel cells, and related technologies; or
- (5) reduce emissions of carbon dioxide and other pollutants.

(c) The Department of Commerce and the Pollution Control Agency shall also recommend to the Department of Administration changes to the state's procurement guidelines and contracts in order to facilitate the purchase and deployment of cost-effective renewable hydrogen, fuel cells, and related technologies by all levels of government.

Subd. 2. **Pilot projects.** (a) In consultation with appropriate representatives from state agencies, local governments, universities, businesses, and other interested parties, the Department of Commerce shall report back to the legislature by November 1, 2005, and every two years thereafter, with a slate of proposed pilot projects that contribute to realizing Minnesota's hydrogen economy goal as set forth in section 216B.8109. The Department of Commerce must consider the following nonexclusive list of priorities in developing the proposed slate of pilot projects:

- (1) deploy "bridge" technologies such as hybrid-electric, off-road, and fleet vehicles running on hydrogen or fuels blended with hydrogen;
- (2) lead to cost-competitive, on-site renewable hydrogen production technologies;
- (3) demonstrate nonvehicle applications for hydrogen;
- (4) improve the cost and efficiency of hydrogen from renewable energy sources; and
- (5) improve the cost and efficiency of hydrogen production using direct solar energy without electricity generation as an intermediate step.

(b) For deployment projects that do not involve a demonstration component, individual system components of the technology should, if feasible, meet commercial performance standards and systems modeling must be completed to predict commercial performance, risk, and synergies. In addition, the proposed pilots should meet as many of the following criteria as possible:

- (1) advance energy security;

APPENDIX

Repealed Minnesota Statutes: H0843-4

- (2) capitalize on the state's native resources;
- (3) result in economically competitive infrastructure being put in place;
- (4) be located where it will link well with existing and related projects and be accessible to the public, now or in the future;
- (5) demonstrate multiple, integrated aspects of renewable hydrogen infrastructure;
- (6) include an explicit public education and awareness component;
- (7) be scalable to respond to changing circumstances and market demands;
- (8) draw on firms and expertise within the state where possible;

- (10) serve other needs beyond hydrogen development.

Subd. 3. **Establishing multifuel hydrogen fueling stations.** The commissioner of commerce may accept federal funds, expend funds, and participate in projects to design, site, and construct multifuel hydrogen fueling stations that eventually link urban centers along key trade corridors across the jurisdictions of Manitoba, the Dakotas, Minnesota, Iowa, and Wisconsin.

These energy stations must serve the priorities listed in subdivision 2 and, as transition infrastructure, should accommodate a wide variety of vehicle technologies and fueling platforms, including hybrid, flexible-fuel, and fuel cell vehicles. They may offer, but not be limited to, gasoline, diesel, ethanol (E-85), biodiesel, and hydrogen, and may simultaneously test the integration of on-site combined heat and power technologies with the existing energy infrastructure.

The hydrogen portion of the stations may initially serve local, dedicated on- or off-road vehicles, but should eventually support long-haul transport.

216B.813 MINNESOTA RENEWABLE HYDROGEN INITIATIVE.

Subdivision 1. **Road map.** The Department of Commerce shall coordinate and administer directly or by contract the Minnesota renewable hydrogen initiative. If the department decides to contract for its duties under this section, it must contract with a nonpartisan, nonprofit organization within the state to develop the road map. The initiative may be run as a public-private partnership representing business, academic, governmental, and nongovernmental organizations. The initiative must oversee the development and implementation of a renewable hydrogen road map, including appropriate technology deployments, that achieve the hydrogen goal of section 216B.8109. The road map should be compatible with the United States Department of Energy's National Hydrogen Energy Roadmap and be based on an assessment of marketplace economics and the state's opportunities in hydrogen, fuel cells, and related technologies, so as to capitalize on strengths. The road map should establish a vision, goals, general timeline, strategies for working with industry, and measurable milestones for achieving the state's renewable hydrogen goal. The road map should describe how renewable hydrogen and fuel cells fit in Minnesota's overall energy system, and should help foster a consistent, predictable, and prudent investment environment. The department must report to the legislature on the progress in implementing the road map by November 1 of each odd-numbered year.

Subd. 2. **Grants.** (a) The commissioner of commerce shall operate a competitive grant program for projects to assist the state in attaining its renewable hydrogen energy goals.

(b) The commissioner shall give preference to project concepts included in the department's most recent biennial report: Strategic Demonstration Projects to Accelerate the Commercialization of Renewable Hydrogen and Related Technologies in Minnesota. Projects eligible for funding must combine one or more of the hydrogen production options listed in the department's report with an end use that has significant commercial potential, preferably high visibility, and relies on fuel cells or related technologies. Each funded technology deployment must include an explicit education and awareness-raising component, be compatible with the renewable hydrogen deployment criteria defined in section 216B.812, and receive 50 percent of its total cost from nonstate sources. The 50 percent requirement does not apply for recipients that are public institutions.

216B.815 REGIONAL ENERGY RESEARCH AND EDUCATION PARTNERSHIP.

(a) The state's public research and higher education institutions should work with one another and with similar institutions in the region to establish Minnesota and the Upper Midwest as a center of research, education, outreach, and technology transfer for the production of renewable energy and products, including hydrogen, fuel cells, and related technologies. The partnership should be designed to create a critical mass of research and education capability that can compete effectively for federal and private investment in these areas.

APPENDIX

Repealed Minnesota Statutes: H0843-4

- (b) Initiatives undertaken by the partnership may include:
- (1) collaborative and interdisciplinary research, demonstration projects, and commercialization of market-ready technologies;
 - (2) creation of undergraduate and graduate course offerings and eventually degreed and vocational programs with reciprocity;
 - (3) establishment of fellows programs at the region's institutes of higher learning that provide financial incentives for relevant study, research, and exchange; and
 - (4) development and field-testing of relevant curricula, teacher kits for all educational levels, and widespread teacher training, in collaboration with state energy offices, teachers, nonprofits, businesses, the United States Department of Energy, and other interested parties.

216C.39 RURAL WIND ENERGY DEVELOPMENT REVOLVING LOAN FUND.

Subdivision 1. **Establishment.** A rural wind energy development revolving loan fund is established as an account in the special revenue fund in the state treasury. The commissioner of management and budget shall credit to the account the amounts authorized under this section and appropriations and transfers to the account. Earnings, such as interest, dividends, and any other earnings arising from fund assets, must be credited to the account.

Subd. 2. **Purpose.** The rural wind energy development revolving loan fund is created to provide financial assistance, through partnership with local owners and communities, in developing community wind energy projects that meet the specifications of section 216B.1612, subdivision 2, paragraph (h).

Subd. 3. **Expenditures.** Money in the fund is appropriated to the commissioner of commerce, and may be used to make loans to qualifying owners of wind energy projects, as defined in section 216B.1612, subdivision 2, paragraph (h), to assist in funding wind studies and transmission interconnection studies. The loans must be structured for repayment within 30 days after the project begins commercial operations or two years from the date the loan is issued, whichever is sooner. The commissioner may pay reasonable and actual costs of administering the loan program, not to exceed interest earned on fund assets.

Subd. 4. **Limitations.** A loan may not be approved for an amount exceeding \$100,000. This limit applies to all money loaned to a single project or single entity, whether paid to one or more qualifying owners and whether paid in one or more fiscal years.

Subd. 5. **Administration; eligible projects.** (a) Applications for a loan under this section must be made in a manner and on forms prescribed by the commissioner. Loans to eligible projects must be made in the order in which complete applications are received by the commissioner. Loan funds must be disbursed to an applicant within ten days of submission of a payment request by the applicant that demonstrates a payment due to the Midwest Independent System Operator. Interest payable on the loan amount may not exceed 1.5 percent per annum.

(b) A project is eligible for a loan under this program if:

- (1) the project has completed an adequate interconnection feasibility study that indicates the project may be interconnected with system upgrades of less than ten percent of the estimated project costs;
- (2) the project has a signed power purchase agreement with an electric utility or provides evidence that the project is under serious consideration for such an agreement by an electric utility;
- (3) the ownership and structure of the project allows it to qualify as a community-based energy development (C-BED) project under section 216B.1612, and the developer commits to obtaining and maintaining C-BED status; and
- (4) the commissioner has determined that sufficient funds are available to make a loan to the project.

216C.411 DEFINITIONS.

For the purposes of sections 216C.411 to 216C.415, the following terms have the meanings given.

(a) "Made in Minnesota" means the manufacture in this state of solar photovoltaic modules:

(1) at a manufacturing facility located in Minnesota that is registered and authorized to manufacture and apply the UL 1703 certification mark to solar photovoltaic modules by Underwriters Laboratory (UL), CSA International, Intertek, or an equivalent UL-approved independent certification agency;

(2) that bear UL 1703 certification marks from UL, CSA International, Intertek, or an equivalent UL-approved independent certification agency, which must be physically applied to the modules at a manufacturing facility described in clause (1); and

APPENDIX

Repealed Minnesota Statutes: H0843-4

(3) that are manufactured in Minnesota:

(i) by manufacturing processes that must include tabbing, stringing, and lamination; or

(ii) by interconnecting low-voltage direct current photovoltaic elements that produce the final useful photovoltaic output of the modules.

A solar photovoltaic module that is manufactured by attaching microinverters, direct current optimizers, or other power electronics to a laminate or solar photovoltaic module that has received UL 1703 certification marks outside Minnesota from UL, CSA International, Intertek, or an equivalent UL-approved independent certification agency is not "Made in Minnesota" under this paragraph.

(b) "Solar photovoltaic module" has the meaning given in section 116C.7791, subdivision 1, paragraph (e).

216C.412 "MADE IN MINNESOTA" SOLAR ENERGY PRODUCTION INCENTIVE ACCOUNT.

Subdivision 1. **Account established; account management.** A "Made in Minnesota" solar energy production incentive account is established as a separate account in the special revenue fund in the state treasury. Earnings, such as interest, dividends, and any other earnings arising from account assets, must be credited to the account. Funds remaining in the account at the end of a fiscal year do not cancel to the general fund but remain in the account. There is annually appropriated from the account to the commissioner of commerce money sufficient to make the incentive payments under section 216C.415, the transfers under section 216C.416, and to administer sections 216C.412 to 216C.415.

Subd. 2. **Payments from public utilities.** (a) Beginning January 1, 2014, and each January 1 thereafter, through 2023, for a total of ten years, each electric public utility subject to section 216B.241 must annually pay to the commissioner of commerce five percent of the minimum amount it is required to spend on energy conservation improvements under section 216B.241, subdivision 1a. Payments under this subdivision must be included in the calculation of whether a utility's other spending on generation exceeds the limits authorized for spending on generation under section 216B.2411, subdivision 1, for investments proposed for commissioner of commerce approval after July 1, 2013. The limits on spending in section 216B.2411 do not limit or apply to payments required by this subdivision. Payments made under this paragraph count toward satisfying expenditure obligations of a public utility under section 216B.241, subdivision 1a. The commissioner shall, upon receipt of the funds, deposit them in the account established in subdivision 1. A public utility subject to this paragraph must be credited energy savings for the purpose of satisfying its energy savings requirement under section 216B.241, subdivision 1c, based on its payment to the commissioner.

(b) Notwithstanding section 116C.779, subdivision 1, paragraph (g), beginning January 1, 2014, and continuing through January 1, 2023, for a total of ten years, the public utility that manages the account under section 116C.779 must annually pay from that account to the commissioner an amount that, when added to the total amount paid to the commissioner of commerce under paragraph (a), totals \$15,000,000 annually. The commissioner shall, upon receipt of the payment, deposit it in the account established in subdivision 1.

216C.413 "MADE IN MINNESOTA" SOLAR ENERGY PRODUCTION INCENTIVE; QUALIFICATION.

Subdivision 1. **Application.** A manufacturer of solar photovoltaic modules seeking to qualify those modules as eligible to receive the "Made in Minnesota" solar energy production incentive must submit an application to the commissioner of commerce on a form prescribed by the commissioner. The application must contain:

(1) a technical description of the solar photovoltaic module and the processes used to manufacture it, excluding proprietary details;

(2) documentation that the solar photovoltaic module meets all the required applicable parts of the "Made in Minnesota" definition in section 216C.411, including evidence of the UL 1703 right to mark for all solar photovoltaic modules seeking to qualify as "Made in Minnesota";

(3) any additional nonproprietary information requested by the commissioner of commerce; and

(4) certification signed by the chief executive officer of the manufacturing company attesting to the truthfulness of the contents of the application and supporting materials under penalty of perjury.

APPENDIX

Repealed Minnesota Statutes: H0843-4

Subd. 2. **Certification.** If the commissioner determines that a manufacturer's solar photovoltaic module meets the definition of "Made in Minnesota" in section 216C.411, the commissioner shall issue the manufacturer a "Made in Minnesota" certificate containing the name and model numbers of the certified solar photovoltaic modules and the date of certification. The commissioner must issue or deny the issuance of a certificate within 90 days of receipt of a completed application. A copy of the certificate must be provided to each purchaser of the solar photovoltaic module.

Subd. 3. **Revocation of certification.** The commissioner may revoke a certification of a module as "Made in Minnesota" if the commissioner finds that the module no longer meets the requirements to be certified. The revocation does not affect incentive payments awarded prior to the revocation.

216C.414 "MADE IN MINNESOTA" SOLAR ENERGY PRODUCTION INCENTIVE.

Subdivision 1. **Setting incentive.** Within 90 days of a module being certified as "Made in Minnesota" the commissioner of commerce shall set a solar energy production incentive amount for that solar photovoltaic module for the purpose of the incentive payment under section 216C.415. The incentive is a performance-based financial incentive expressed as a per kilowatt-hour amount. The amount shall be used for incentive applications approved in the year to which the incentive amount is applicable for the ten-year duration of the incentive payments. An incentive amount must be calculated for each module for each calendar year through 2023.

Subd. 2. **Criteria for determining incentive amount.** (a) The commissioner shall set the incentive payment amount by determining the average amount of incentive payment required to allow an average owner of installed solar photovoltaic modules a reasonable return on their investment. In setting the incentive amount the commissioner shall consider:

(1) an estimate of the installed cost per kilowatt-direct current, based on the cost data supplied by the manufacturer in the application submitted under section 216C.413, and an estimate of the average installation cost based on a representative sample of Minnesota solar photovoltaic installed projects;

(2) the average insolation rate in Minnesota;

(3) an estimate of the decline in the generation efficiency of the solar photovoltaic modules over time;

(4) the rate paid by public utilities to owners of solar photovoltaic modules under section 216B.164 or other law;

(5) applicable federal tax incentives for installing solar photovoltaic modules; and

(6) the estimated levelized cost per kilowatt-hour generated.

(b) The commissioner shall annually, for incentive applications received in a year, revise each incentive amount based on the factors in paragraph (a), clauses (1) to (6), general market conditions, and the availability of other incentives. In no case shall the "Made in Minnesota" incentive amount result in the "Made in Minnesota" incentives paid exceeding 40 percent, net of average applicable taxes on the ten-year incentive payments, of the average historic installation cost per kilowatt. The commissioner may exceed the 40 percent cap if the commissioner determines it is necessary to fully expend funds available for incentive payments in a particular year.

Subd. 3. **Metering of production.** A public utility must, at the expense of a customer, provide a meter to measure the production of a solar photovoltaic module system that is approved to receive incentive payments. The public utility must furnish the commissioner with information sufficient for the commissioner to determine the incentive payment. The information must be provided on a calendar year basis by no later than March 1. The commissioner shall provide a public utility with forms to use to provide the production information. A customer must attest to the accuracy of the production information.

Subd. 4. **Payment due date.** Payments must be made no later than July 1 following the year of production.

Subd. 5. **Renewable energy credits.** Renewable energy credits associated with energy provided to a public utility for which an incentive payment is made belong to the utility.

216C.415 "MADE IN MINNESOTA" SOLAR ENERGY PRODUCTION INCENTIVE; PAYMENT.

APPENDIX

Repealed Minnesota Statutes: H0843-4

Subdivision 1. **Incentive payment.** Incentive payments may be made under this section only to an owner of grid-connected solar photovoltaic modules with a total nameplate capacity below 40 kilowatts direct current who:

(1) has submitted to the commissioner, on a form established by the commissioner, an application to receive the incentive that has been approved by the commissioner;

(2) has received a "Made in Minnesota" certificate under section 216C.413 for the module; and

(3) has installed on residential or commercial property solar photovoltaic modules that are generating electricity and has received a "Made in Minnesota" certificate under section 216C.413.

Subd. 2. **Application process.** Applications for an incentive payment must be received by the commissioner between January 1 and February 28. The commissioner shall by a random method approve the number of applications the commissioner reasonably determines will exhaust the funds available for payment for the ten-year period of incentive payments. Applications for residential and commercial installations shall be separately randomly approved.

Subd. 3. **Commissioner approval of incentive application.** The commissioner must approve an application for an incentive for an owner to be eligible for incentive payments. The commissioner must not approve an application in a calendar year if the commissioner determines there will not be sufficient funding available to pay an incentive to the applicant for any portion of the ten-year duration of payment. The commissioner shall annually establish a cap on the cumulative capacity for a program year based on funds available and historic average installation costs. Receipt of an incentive is not an entitlement and payment need only be made from available funds in the "Made in Minnesota" solar production incentive account.

Subd. 4. **Eligibility window; payment duration.** (a) Payments may be made under this section only for electricity generated from new solar photovoltaic module installations that are commissioned between January 1, 2014, and December 31, 2023.

(b) The payment eligibility window of the incentive begins and runs consecutively from the date the solar system is commissioned.

(c) An owner of solar photovoltaic modules may receive payments under this section for a particular module for a period of ten years provided that sufficient funds are available in the account.

(d) No payment may be made under this section for electricity generated after December 31, 2033.

(e) An owner of solar photovoltaic modules may not first begin to receive payments under this section after December 31, 2024.

Subd. 5. **Allocation of payments.** (a) If there are sufficient applications, approximately 50 percent of the incentive payment shall be for owners of eligible solar photovoltaic modules installed on residential property, and approximately 50 percent shall be for owners of eligible solar photovoltaic modules installed on commercial property.

(b) The commissioner shall endeavor to distribute incentives paid under this section to owners of solar photovoltaic modules installed in a manner so that the amount of payments received in an area of the state reasonably approximates the amount of payments made by a utility serving that area.

(c) For purposes of this subdivision:

(1) "residential property" means residential real estate that is occupied and used as a homestead by its owner or by a renter and includes "multifamily housing development" as defined in section 462C.02, subdivision 5, except that residential property on which solar photovoltaic modules (i) whose capacity exceeds 10 kilowatts is installed; or (ii) connected to a utility's distribution system and whose electricity is purchased by several residents, each of whom own a share of the electricity generated, shall be deemed commercial property; and

(2) "commercial property" means real property on which is located a business, government, or nonprofit establishment.

Subd. 6. **Limitation.** An owner receiving an incentive payment under this section may not receive a rebate under section 116C.7791 for the same solar photovoltaic modules.

216C.416 SOLAR THERMAL REBATES.

Subdivision 1. **Rebate program created.** The commissioner of commerce shall operate a program to provide rebates for the installation of "Made in Minnesota" solar thermal systems in the state. "Solar thermal system" means a flat plate or evacuated tube that meets the requirements of section 216C.25 with a fixed orientation that collects the sun's radiant energy and transfers it to a storage medium for distribution as energy to heat or cool air or water. A solar thermal system is "Made in Minnesota" if components of the system are manufactured in Minnesota and the solar

Repealed Minnesota Statutes: H0843-4

thermal system is certified by the Solar Rating and Certification Corporation. The solar thermal system may be installed in residential and commercial facilities for, among other purposes, hot water, space heating, or pool heating purposes.

Subd. 2. **Account; funding.** (a) The solar thermal system rebate account is created as a separate account in the special revenue fund in the state treasury. Earnings, such as interest, dividends, and any other earnings arising from account assets, must be credited to the account. Funds in the account are appropriated to the commissioner of commerce for the purpose of making the rebate payments under this section and administering this section.

(b) Beginning January 1, 2014, and each January 1 thereafter to January 1, 2023, the commissioner of commerce shall annually transfer \$250,000 from the account created in section 216C.412 for deposit in the account created in this subdivision.

(c) To the extent there are sufficient applications, the commissioner shall annually spend for rebates under this section from 2014 to 2023, for a total of ten years, approximately \$250,000 per year. If sufficient applications are not received to spend the money available for rebates in a year under this section, the unspent money must be returned to the account from which it was transferred, provided that funds available for 2014 applications shall remain available for 2015 applications.

Subd. 3. **Individual incentives.** The maximum rebate for a single family residential dwelling installation is the lesser of 25 percent of the installed cost of a complete system or \$2,500. The maximum rebate for a multiple family residential dwelling installation is the lesser of 25 percent of the installed cost of a complete system or \$5,000. The maximum rebate for a commercial installation is the lesser of 25 percent of the installation cost of the complete system or \$25,000. The system must be installed by a factory authorized installer. The commissioner shall allocate approximately 50 percent of the rebates in each year to solar thermal hot water and 50 percent to solar thermal air projects if sufficient applications are made for each.

Subd. 4. **Application process.** Applications for incentives must be made to the commissioner of commerce on forms provided by the commissioner. The commissioner shall use a random process for the selection of recipients of incentives except to the extent necessary to allocate rebates as required by this section.

216H.02 GREENHOUSE GAS EMISSIONS CONTROL.

Subd. 2. **Climate change action plan.** By February 1, 2008, the commissioner of commerce, in consultation with the commissioners of the Pollution Control Agency, the Housing Finance Agency, and the Departments of Natural Resources, Agriculture, Employment and Economic Development, and Transportation, and the chair of the Metropolitan Council, shall submit to the legislature a climate change action plan that meets the requirements of this section.

Subd. 3. **Stakeholder process.** The plan required by subdivision 2 must be developed through a structured, broadly inclusive stakeholder-based review of potential policies and initiatives that will reduce statewide greenhouse gas emissions from a broad range of sources and activities. The commissioner shall engage a nationally recognized independent expert entity to conduct the stakeholder process. The report of the stakeholder process must form the basis for the plan submitted by the commissioner under subdivision 2.

Subd. 4. **General elements of the plan.** The plan must:

(1) estimate 1990 and 2005 greenhouse gas emissions in the state and make projections of emissions in 2015, 2025, and 2050;

(2) identify, evaluate, and integrate a broad range of statewide greenhouse gas reduction options for all emission sectors in the state;

(3) assess the costs, benefits, and feasibility of implementing the options;

(4) recommend an integrated set of reduction options and strategies for implementing the options that will achieve the goals in subdivision 1, including analysis of the associated costs and benefits to Minnesotans;

(5) estimate the statewide greenhouse gas emissions reductions anticipated from implementation of existing state policies;

(6) recommend a system to require the reporting of statewide greenhouse gas emissions, identifying which facilities must report, and how emission estimates should be made; and

(7) evaluate the option of exempting a project from the prohibitions contained in section 216H.03, subdivision 3, if the project contributes a specified fee per ton of carbon dioxide emissions emitted annually by the project, the proceeds of which would be used to fund permanent, quantifiable, verifiable, and enforceable reductions in greenhouse gas emissions that would not otherwise have occurred.

APPENDIX

Repealed Minnesota Statutes: H0843-4

Subd. 5. **Specific plan requirements.** (a) The plan must evaluate and recommend interim goals as steps to achieve the goals in subdivision 1.

(b) The plan must determine the feasibility, assess the costs and benefits, and recommend how the state could adopt a regulatory system that imposes a cap on the aggregate air pollutant emissions of a group of sources, requires those subject to the cap to own an allowance for each ton of the air pollutant emitted, and allows for market-based trading of those allowances. The evaluation must contain an analysis of the state implementing a cap and trade system alone, in coordination with other states, and as a requirement of federal law applying to all states. The plan must recommend the parameters of a cap and trade system that includes a cap that would prevent significant increases in greenhouse gas emissions above current levels with a schedule for lowering the cap periodically to achieve the goals in subdivision 1 and interim goals recommended under paragraph (a). The plan must consider cost savings and cost increases on energy consumers in the state.

(c) The plan must include recommendations for improvements in the emissions inventory and recommend whether the state should require greenhouse gas emissions reporting from specific sources and, if so, which sources should be required to report. The plan must also evaluate options for an emissions registry after reviewing registries in other states and recommend a registry that will insure the greatest opportunity for Minnesota entities to obtain marketable credits.

Subd. 6. **Regional activities.** The state must, to the extent possible, with other states in the Midwest region, develop and implement a regional approach to reducing greenhouse gas emissions from activities in the region, including consulting on a regional cap and trade system. The commissioner of commerce shall coordinate Minnesota's regional activities under this subdivision and report to the legislative committees in the senate and house of representatives with jurisdiction over energy and environmental policy by February 1, 2008, and February 1, 2009, on the progress made and recommendations for further action. The commissioner of commerce, as part of the activities required under this subdivision, must meet with responsible officials from bordering states, other states in the Midwest region, and states in other regions of the country to:

- (1) determine whether other states are interested in establishing and cooperating in a multistate or regional greenhouse gas cap and trade allowance program;
- (2) identify and prepare an inventory of greenhouse gas reduction resources available to support a multistate or regional greenhouse gas cap and trade allowance program;
- (3) seek cooperation on a regional inventory of greenhouse gas emission sources; and
- (4) prepare an inventory of available renewable energy resources within a state or region.

The commissioner of commerce must develop a definition of scope of this regional activity that is in addition to the components described in clauses (1) to (4). The commissioner must report on the additional scoping definitions to the chairs and ranking minority members of the legislative committees with jurisdiction over energy and environmental finance and policy on or before the commencement of the 2008 regular legislative session.

Subd. 11. **Revenue bonds.** Notwithstanding any law or charter provision to the contrary, an issue of revenue bonds authorized by the port authority of the city of St. Paul shall be issued only with the consent of the St. Paul City Council in a resolution. Notwithstanding any law or charter provision to the contrary, a project to be financed by the port authority of the city of St. Paul by proceeds of revenue bonds shall be financed only with the consent of the St. Paul City Council in a resolution. An existing obligation, contract, collective bargaining or other agreement, fringe benefit plan, or covenant made or entered into by the St. Paul Port Authority is not impaired by this subdivision.

Subd. 12. **City supervision of authority employees.** Notwithstanding any law or charter provision to the contrary, the council may, by resolution adopted by a majority of the council, place any employee of the port authority under the direction, supervision, or control of the mayor or a department of the city.

Laws 2014, chapter 312, article 2, section 15

Sec. 15. WORKERS' COMPENSATION SYSTEM REFORM; USE OF FUNDS.

(a) The appropriations under section 14 to the commissioner of labor and industry are for reform of the workers' compensation system. Funds appropriated under section 14, paragraphs (c) and (d), may be expended by the commissioner only after the advisory council on workers' compensation created under Minnesota Statutes, section 175.007, has approved a new system including, but not limited to: a Medicare-based diagnosis-related group (MS-DRG) or similar system for payment of workers' compensation inpatient hospital services. Of the amount appropriated under section 14, paragraphs (c) and (d), up to \$100,000 may be used by the commissioner to develop and implement the new system approved by the advisory council on workers' compensation.

(b) Funds available for expenditure under paragraph (a) may be used by the commissioner for reimbursement of expenditures that are reasonable and necessary to defray the costs of the implementation by hospitals, insurers, and self-insured employers of the new system including, but not limited to: a Medicare-based diagnosis-related group (MS-DRG) or similar system for payment of workers' compensation inpatient hospital services, litigation expense reform, worker safety training, administrative costs, or other related system reform.

(c) For the purposes of this section, reasonable and necessary system reform and implementation costs include, but are not limited to:

- (1) the cost of analyzing data to determine the anticipated costs and savings of implementing the new system;
- (2) the cost of analyzing system or organizational changes necessary for implementation;
- (3) the cost of determining how an organization would implement group or other software;
- (4) the cost of upgrading existing software or purchasing new software and other technology upgrades needed for implementation;
- (5) the cost of educating and training staff about the new system as applied to workers' compensation; and
- (6) the cost of integrating the new system with electronic billing and remittance systems.
