Sixty-fourth Legislative Assembly of North Dakota In Regular Session Commencing Tuesday, January 6, 2015

HOUSE BILL NO. 1065 (Representatives Hanson, Rick C. Becker, Beadle, Olson, Mitskog) (Senator Laffen)

AN ACT to provide for a legislative management study of automated motor vehicles.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE MANAGEMENT STUDY. During the 2015-16 interim, the legislative management shall consider studying what, if any, current laws need to be changed to accommodate the introduction or testing of automated motor vehicles in North Dakota and any automated corridors affecting North Dakota. "Automated motor vehicle" means a vehicle capable of operating in a full automation mode where full automation is defined by the Society of Automotive Engineers standard, J3016, section 5.6 issued January 2014, as the unconditional, full-time performance by an automated driving system of all aspects of the dynamic driving task. The study may include research into the degree that automated motor vehicles could reduce traffic fatalities and crashes by reducing or eliminating driver error and the degree that automated motor vehicles could reduce congestion and improve fuel economy through better utilization of existing highway capacity and more efficient operation of the vehicles' acceleration and braking controls. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-fifth legislative assembly.
