IN THE HOUSE OF REPRESENTATIVES

JULY 29, 2015

Mr. LOEBSACK introduced the following bill; which was referred to the Committee on Education and the Workforce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To establish an Office of Rural Education Policy in the Department of Education, make other modifications to Federal law to improve rural schools, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Restructuring Under-
5 utilized Resources for Advancing Learning Act” or the
6 “RURAL Act”.

1 **SEC. 2. FINDINGS AND PURPOSES.**

2 (a) FINDINGS.—The Congress finds the following:

3 (1) Rural schools have unique challenges and
4 benefits.

5 (2) More than 33 percent of regular elementary
6 and secondary public schools nationwide are in loca-
7 tions classified as rural. As of the 2010–2011 school
8 year, more than 20 percent of public school students
9 were enrolled in rural school districts.

10 (3) In rural areas of the United States,
11 6,100,000 children live in poverty.

12 (4) Among children living in rural areas, 24
13 percent live in poverty, compared to 20 percent
14 among nonrural children.

15 (5) Rural schools have fewer financial resources
16 than non-rural schools, largely as a result of dimin-
17 ished local property tax bases and inequitable dis-
18 tributions of State funds.

19 (6) There is a substantial pay gap for teachers
20 and administrators in rural school districts. Rural
21 teachers and administrators in the U.S. earn about
22 \$10,000 less than their counterparts in nonrural
23 schools.

24 (7) Rural schools have difficulty recruiting and
25 retaining teachers. A recent survey of rural school
26 superintendents suggests low salaries combined with

1 social and geographic isolation are the primary fac-
2 tors responsible for difficulties recruiting and retain-
3 ing teachers.

4 (8) Digital learning technology holds the prom-
5 ise of transforming rural education by removing bar-
6 riers of distance and increasing school capacity.

7 (9) While many large urban local education
8 agencies are at the forefront of implementing new
9 digital learning innovations, it is often harder for
10 smaller and more rural local education agencies to
11 access these tools. Smaller local education agencies
12 with less capacity may also find it more difficult to
13 provide the training needed to effectively implement
14 new digital learning technologies.

15 (10) Low literacy rates among parents in poor
16 rural communities affect the early language develop-
17 ment and educational aspirations of children.

18 (11) Investing in after-school programs helps
19 children in rural communities break out of the cycle
20 of poverty and creates opportunities for at-risk
21 youth.

22 (12) In areas in which resources are limited,
23 after-school programs are often the only source of
24 supplemental enrichment in literacy, nutrition edu-

1 cation, technology, and preparation for college and
2 entrance exams.

3 (13) Children attending rural schools have the
4 lowest median per-student funding for after-school
5 programs under the 21st Century Community
6 Learning Center Program under part B of title IV
7 of the Elementary and Secondary Education Act of
8 1965 (20 U.S.C. 7171 et seq.), as compared to chil-
9 dren attending urban and suburban schools.

10 (b) PURPOSES.—The purposes of this Act are—

11 (1) to establish an Office of Rural Education
12 Policy in the Department of Education;

13 (2) to provide input to the Secretary of Edu-
14 cation regarding the impact of proposed changes in
15 law, regulations, policies, rules, and budgets on rural
16 schools and communities;

17 (3) to provide a tax incentive to individuals
18 teaching in elementary and secondary schools lo-
19 cated in rural or high unemployment areas and to
20 individuals who achieve certification from the Na-
21 tional Board for Professional Teaching Standards;

22 (4) to support the expansion of the use of dig-
23 ital learning through competitive grants to partner-
24 ships to implement and evaluate the results of tech-

1 nology-based learning practices, strategies, tools, or
2 programs at rural schools; and

3 (5) to enhance after-school programs in rural
4 areas by helping communities establish after-school
5 programs and improve existing programs by over-
6 coming barriers to service.
