15 ASSESSMENTS.—(1) In the case of mining claims where
16 royalty payments are not received by the Secretary on the
17 date that such payments are due, the Secretary shall
18 charge interest on such underpayments at the same inter-
19 est rate as the rate applicable under section 6621(a)(2)
20 of the Internal Revenue Code of 1986. In the case of an
21 underpayment, interest shall be computed and charged
22 only on the amount of the deficiency and not on the total
23 amount.

24 (2) If there is any underreporting of royalty owed on
25 production from a claim for any production month by any

1 person liable for royalty payments under this section, the
2 Secretary shall assess a penalty of not greater than 25
3 percent of the amount of that underreporting.

4 (3) For the purposes of this subsection, the term
5 “underreporting” means the difference between the roy-
6 alty on the value of the production that should have been
7 reported and the royalty on the value of the production
8 which was reported, if the value that should have been
9 reported is greater than the value that was reported.

10 (4) The Secretary may waive or reduce the assess-
11 ment provided in paragraph (2) of this subsection if the
12 person liable for royalty payments under this section cor-
13 rects the underreporting before the date such person re-
14 ceives notice from the Secretary that an underreporting
15 may have occurred, or before 90 days after the date of
16 the enactment of this section, whichever is later.

17 (5) The Secretary shall waive any portion of an as-
18 sessment under paragraph (2) of this subsection attrib-
19 utable to that portion of the underreporting for which the
20 person responsible for paying the royalty demonstrates
21 that—

22 (A) such person had written authorization from
23 the Secretary to report royalty on the value of the
24 production on basis on which it was reported;

1 (B) such person had substantial authority for
2 reporting royalty on the value of the production on
3 the basis on which it was reported;

4 (C) such person previously had notified the Sec-
5 retary, in such manner as the Secretary may by rule
6 prescribe, of relevant reasons or facts affecting the
7 royalty treatment of specific production which led to
8 the underreporting; or

9 (D) such person meets any other exception
10 which the Secretary may, by rule, establish.

11 (6) All penalties collected under this subsection shall
12 be deposited in the Locatable Minerals Fund established
13 under title IV.

14 (g) DELEGATION.—For the purposes of this section,
15 the term “Secretary” means the Secretary of the Interior
16 acting through the Director of the Minerals Management
17 Service.

18 (h) EXPANDED ROYALTY OBLIGATIONS.—Each per-
19 son liable for royalty payments under this section shall
20 be jointly and severally liable for royalty on all locatable
21 minerals, concentrates, or products derived therefrom lost
22 or wasted from a mining claim located under the general
23 mining laws and maintained in compliance with this Act
24 when such loss or waste is due to negligence on the part

1 of any person or due to the failure to comply with any
2 rule, regulation, or order issued under this section.

3 (i) GROSS INCOME FROM MINING DEFINED.—For
4 the purposes of this section, for any locatable mineral, the
5 term “gross income from mining” has the same meaning
6 as the term “gross income” in section 613(c) of the Inter-
7 nal Revenue Code of 1986.

8 (j) EFFECTIVE DATE.—The royalty under this sec-
9 tion shall take effect with respect to the production of
10 locatable minerals after the enactment of this Act, but any
11 royalty payments attributable to production during the
12 first 12 calendar months after the enactment of this Act
13 shall be payable at the expiration of such 12-month period.

14 (k) FAILURE TO COMPLY WITH ROYALTY REQUIRE-
15 MENTS.—Any person who fails to comply with the require-
16 ments of this section or any regulation or order issued to
17 implement this section shall be liable for a civil penalty
18 under section 109 of the Federal Oil and Gas Royalty
19 Management Act (30 U.S.C. 1719) to the same extent as
20 if the claim located under the general mining laws and
21 maintained in compliance with this Act were a lease under
22 that Act.

23 **SEC. 103. HARDROCK MINING CLAIM MAINTENANCE FEE.**

24 (a) FEE.—

1 (1) Except as provided in section 2511(e)(2) of
2 the Energy Policy Act of 1992 (relating to oil shale
3 claims), for each unpatented mining claim, mill or
4 tunnel site on federally owned lands, whether located
5 before, on, or after enactment of this Act, each
6 claimant shall pay to the Secretary, on or before Au-
7 gust 31 of each year, a claim maintenance fee of
8 \$200 per claim to hold such unpatented mining
9 claim, mill or tunnel site for the assessment year be-
10 ginning at noon on the next day, September 1. Such
11 claim maintenance fee shall be in lieu of the assess-
12 ment work requirement contained in the Mining Law
13 of 1872 (30 U.S.C. 28 et seq.) and the related filing
14 requirements contained in section 314 (a) and (c) of
15 the Federal Land Policy and Management Act of
16 1976 (43 U.S.C. 1744 (a) and (c)).

17 (2)(A) The claim maintenance fee required
18 under this subsection shall be waived for a claimant
19 who certifies in writing to the Secretary that on the
20 date the payment was due, the claimant and all re-
21 lated parties—

22 (i) held not more than 10 mining claims,
23 mill sites, or tunnel sites, or any combination
24 thereof, on public lands; and

1 (ii) have performed assessment work re-
2 quired under the Mining Law of 1872 (30
3 U.S.C. 28 et seq.) to maintain the mining
4 claims held by the claimant and such related
5 parties for the assessment year ending on noon
6 of September 1 of the calendar year in which
7 payment of the claim maintenance fee was due.

8 (B) For purposes of subparagraph (A), with re-
9 spect to any claimant, the term “all related parties”
10 means—

11 (i) the spouse and dependent children (as
12 defined in section 152 of the Internal Revenue
13 Code of 1986), of the claimant; or

14 (ii) a person affiliated with the claimant,
15 including—

16 (I) a person controlled by, controlling,
17 or under common control with the claim-
18 ant; or

19 (II) a subsidiary or parent company
20 or corporation of the claimant.

21 (3)(A) The Secretary shall adjust the fees re-
22 quired by this subsection to reflect changes in the
23 Consumer Price Index published by the Bureau of
24 Labor Statistics of the Department of Labor every
25 5 years after the date of enactment of this Act, or

1 more frequently if the Secretary determines an ad-
2 justment to be reasonable.

3 (B) The Secretary shall provide claimants no-
4 tice of any adjustment made under this paragraph
5 not later than July 1 of any year in which the ad-
6 justment is made.

7 (C) A fee adjustment under this paragraph
8 shall begin to apply the calendar year following the
9 calendar year in which it is made.

10 (4) Moneys received under this subsection that
11 are not otherwise allocated for the administration of
12 the mining laws by the Department of the Interior
13 shall be deposited in the Locatable Minerals Fund
14 established by this Act.

15 (b) LOCATION.—

16 (1) Notwithstanding any provision of law, for
17 every unpatented mining claim, mill or tunnel site
18 located after the date of enactment of this Act and
19 before September 30, 1998, the locator shall, at the
20 time the location notice is recorded with the Bureau
21 of Land Management, pay to the Secretary a loca-
22 tion fee, in addition to the fee required by subsection
23 (a) of \$50 per claim.

24 (2) Moneys received under this subsection that
25 are not otherwise allocated for the administration of

1 the mining laws by the Department of the Interior
2 shall be deposited in the Locatable Minerals Fund
3 established by this Act.

4 (c) CO-OWNERSHIP.—The co-ownership provisions of
5 the Mining Law of 1872 (30 U.S.C. 28 et seq.) will remain
6 in effect except that the annual claim maintenance fee,
7 where applicable, shall replace applicable assessment re-
8 quirements and expenditures.

9 (d) FAILURE TO PAY.—Failure to pay the claim
10 maintenance fee as required by subsection (a) shall conclu-
11 sively constitute a forfeiture of the unpatented mining
12 claim, mill or tunnel site by the claimant and the claim
13 shall be deemed null and void by operation of law.

14 (e) OTHER REQUIREMENTS.—

15 (1) Nothing in this section shall change or mod-
16 ify the requirements of section 314(b) of the Federal
17 Land Policy and Management Act of 1976 (43
18 U.S.C. 1744(b)), or the requirements of section
19 314(c) of the Federal Land Policy and Management
20 Act of 1976 (43 U.S.C. 1744(c)) related to filings
21 required by section 314(b), which remain in effect.

22 (2) Section 2324 of the Revised Statutes of the
23 United States (30 U.S.C. 28) is amended by insert-
24 ing “or section 103(a) of the Hardrock Mining Re-

1 form and Reclamation Act of 2015” after “Act of
2 1993”.

3 **SEC. 104. EFFECT OF PAYMENTS FOR USE AND OCCUPANCY**
4 **OF CLAIMS.**

5 Timely payment of the claim maintenance fee re-
6 quired by section 103 of this Act or any related law relat-
7 ing to the use of Federal land, asserts the claimant’s au-
8 thority to use and occupy the Federal land concerned for
9 prospecting and exploration, consistent with the require-
10 ments of this Act and other applicable law.

11 **TITLE II—PROTECTION OF**
12 **SPECIAL PLACES**

13 **SEC. 201. LANDS OPEN TO LOCATION.**

14 (a) LANDS OPEN TO LOCATION.—Except as provided
15 in subsection (b), mining claims may be located under the
16 general mining laws only on such lands and interests as
17 were open to the location of mining claims under the gen-
18 eral mining laws immediately before the enactment of this
19 Act.

20 (b) LANDS NOT OPEN TO LOCATION.—Notwith-
21 standing any other provision of law and subject to valid
22 existing rights, each of the following shall not be open to
23 the location of mining claims under the general mining
24 laws on or after the date of enactment of this Act:

25 (1) Wilderness study areas.

1 (2) Areas of critical environmental concern.

2 (3) Areas designated for inclusion in the Na-
3 tional Wild and Scenic Rivers System pursuant to
4 the Wild and Scenic Rivers Act (16 U.S.C. 1271 et
5 seq.), areas designated for potential addition to such
6 system pursuant to section 5(a) of that Act (16
7 U.S.C. 1276(a)), and areas determined to be eligible
8 for inclusion in such system pursuant to section 5(d)
9 of such Act (16 U.S.C. 1276(d)).

10 (4) Any area identified in the set of inventoried
11 roadless areas maps contained in the Forest Service
12 Roadless Area Conservation Final Environmental
13 Impact Statement, Volume 2, dated November 2000.

14 (c) EXISTING AUTHORITY NOT AFFECTED.—Noth-
15 ing in this Act limits the authority granted the Secretary
16 in section 204 of the Federal Land Policy and Manage-
17 ment Act of 1976 (43 U.S.C. 1714) to withdraw public
18 lands.

19 **SEC. 202. WITHDRAWAL PETITIONS BY STATES, POLITICAL**
20 **SUBDIVISIONS, AND INDIAN TRIBES.**

21 (a) IN GENERAL.—Subject to valid existing rights,
22 any State or political subdivision of a State or an Indian
23 tribe may submit a petition to the Secretary for the with-
24 drawal of a specific tract of Federal land from the oper-
25 ation of the general mining laws, in order to protect spe-

1 cific values identified in the petition that are important
2 to the State or political subdivision or Indian tribe. Such
3 values may include the value of a watershed to supply
4 drinking water, wildlife habitat value, cultural or historic
5 resources, or value for scenic vistas important to the local
6 economy, and other similar values. In the case of an In-
7 dian tribe, the petition may also identify religious or cul-
8 tural values that are important to the Indian tribe. The
9 petition shall contain the information required by section
10 204 of the Federal Land Policy and Management Act of
11 1976 (43 U.S.C. 1714).

12 (b) CONSIDERATION OF PETITION.—The Secretary—

13 (1) shall solicit public comment on the petition;

14 (2) shall make a final decision on the petition
15 within 180 days after receiving it; and

16 (3) shall grant the petition subject to valid ex-
17 isting rights, unless the Secretary makes and pub-
18 lishes in the Federal Register specific findings why
19 a decision to grant the petition would be against the
20 national interest.

1 **TITLE III—ENVIRONMENTAL**
2 **CONSIDERATIONS OF MIN-**
3 **ERAL EXPLORATION AND DE-**
4 **VELOPMENT**

5 **SEC. 301. GENERAL STANDARD FOR HARDROCK MINING ON**
6 **FEDERAL LAND.**

7 Notwithstanding section 302(b) of the Federal Land
8 Policy and Management Act of 1976 (43 U.S.C. 1732(b)),
9 the first section of the Act of June 4, 1897 (chapter 2;
10 30 Stat. 36; 16 U.S.C. 478), and the National Forest
11 Management Act of 1976 (16 U.S.C. 1600 et seq.), and
12 in accordance with this title and applicable law, unless ex-
13 pressly stated otherwise in this Act, the Secretary—

14 (1) shall ensure that mineral activities on any
15 Federal land that is subject to a mining claim, mill-
16 site claim, or tunnel site claim is carefully controlled
17 to prevent undue degradation of public lands and re-
18 sources; and

19 (2) shall not grant permission to engage in min-
20 eral activities if the Secretary, after considering the
21 evidence, makes and publishes in the Federal Reg-
22 ister a determination that undue degradation would
23 result from such activities.

1 **SEC. 302. PERMITS.**

2 (a) PERMITS REQUIRED.—No person may engage in
3 mineral activities on Federal land that may cause a dis-
4 turbance of surface resources, including but not limited
5 to land, air, ground water and surface water, and fish and
6 wildlife, unless—

7 (1) the claim was properly located under the
8 general mining laws and maintained in compliance
9 with such laws and this Act; and

10 (2) a permit was issued to such person under
11 this title authorizing such activities.

12 (b) NEGLIGIBLE DISTURBANCE.—Notwithstanding
13 subsection (a)(2), a permit under this title shall not be
14 required for mineral activities that are a casual use of the
15 Federal land.

16 (c) COORDINATION WITH NEPA PROCESS.—To the
17 extent practicable, the Secretary and the Secretary of Ag-
18 riculture shall conduct the permit processes under this Act
19 in coordination with the timing and other requirements
20 under section 102 of the National Environmental Policy
21 Act of 1969 (42 U.S.C. 4332).

22 **SEC. 303. EXPLORATION PERMIT.**

23 (a) AUTHORIZED EXPLORATION ACTIVITY.—Any
24 claim holder may apply for an exploration permit for any
25 mining claim authorizing the claim holder to remove a rea-
26 sonable amount of the locatable minerals from the claim

1 for analysis, study and testing. Such permit shall not au-
2 thorize the claim holder to remove any mineral for sale
3 nor to conduct any activities other than those required for
4 exploration for locatable minerals and reclamation.

5 (b) PERMIT APPLICATION REQUIREMENTS.—An ap-
6 plication for an exploration permit under this section shall
7 be submitted in a manner satisfactory to the Secretary
8 or, for National Forest System lands, the Secretary of Ag-
9 riculture, and shall contain an exploration plan, a reclama-
10 tion plan for the proposed exploration, and such docu-
11 mentation as necessary to ensure compliance with applica-
12 ble Federal and State environmental laws and regulations.

13 (c) RECLAMATION PLAN REQUIREMENTS.—The rec-
14 lamation plan required to be included in a permit applica-
15 tion under subsection (b) shall include such provisions as
16 may be jointly prescribed by the Secretary and the Sec-
17 retary of Agriculture.

18 (d) PERMIT ISSUANCE OR DENIAL.—The Secretary,
19 or for National Forest System lands, the Secretary of Ag-
20 riculture, shall issue an exploration permit pursuant to an
21 application under this section unless such Secretary makes
22 any of the following determinations:

23 (1) The permit application, the exploration plan
24 and reclamation plan are not complete and accurate.

1 (2) The applicant has not demonstrated that
2 proposed reclamation can be accomplished.

3 (3) The proposed exploration activities and con-
4 dition of the land after the completion of exploration
5 activities and final reclamation would not conform
6 with the land use plan applicable to the area subject
7 to mineral activities.

8 (4) The area subject to the proposed permit is
9 included within an area not open to location under
10 section 201.

11 (5) The applicant has not demonstrated that
12 the exploration plan and reclamation plan will be in
13 compliance with the requirements of this Act and all
14 other applicable Federal requirements, and any
15 State requirements agreed to by the Secretary of the
16 Interior (or Secretary of Agriculture, as appro-
17 priate).

18 (6) The applicant has not demonstrated that
19 the requirements of section 306 (relating to financial
20 assurance) will be met.

21 (7) The applicant is eligible to receive a permit
22 under section 305.

23 (e) TERM OF PERMIT.—An exploration permit shall
24 be for a stated term. The term shall be no greater than

1 that necessary to accomplish the proposed exploration,
2 and in no case for more than 10 years.

3 (f) PERMIT MODIFICATION.—During the term of an
4 exploration permit the permit holder may submit an appli-
5 cation to modify the permit. To approve a proposed modi-
6 fication to the permit, the Secretary concerned shall make
7 the same determinations as are required in the case of
8 an original permit, except that the Secretary and the Sec-
9 retary of Agriculture may specify by joint rule the extent
10 to which requirements for initial exploration permits under
11 this section shall apply to applications to modify an explo-
12 ration permit based on whether such modifications are
13 deemed significant or minor.

14 (g) TRANSFER, ASSIGNMENT, OR SALE OF
15 RIGHTS.—(1) No transfer, assignment, or sale of rights
16 granted by a permit issued under this section shall be
17 made without the prior written approval of the Secretary
18 or for National Forest System lands, the Secretary of Ag-
19 riculture.

20 (2) Such Secretary shall allow a person holding a per-
21 mit to transfer, assign, or sell rights under the permit to
22 a successor, if the Secretary finds, in writing, that the suc-
23 cessor—

24 (A) is eligible to receive a permit in accordance
25 with section 304(d);

1 (B) has submitted evidence of financial assur-
2 ance satisfactory under section 306; and

3 (C) meets any other requirements specified by
4 the Secretary.

5 (3) The successor in interest shall assume the liability
6 and reclamation responsibilities established by the existing
7 permit and shall conduct the mineral activities in full com-
8 pliance with this Act, and the terms and conditions of the
9 permit as in effect at the time of transfer, assignment,
10 or sale.

11 (4) Each application for approval of a permit trans-
12 fer, assignment, or sale pursuant to this subsection shall
13 be accompanied by a fee payable to the Secretary of the
14 Interior in such amount as may be established by such
15 Secretary. Such amount shall be equal to the actual or
16 anticipated cost to the Secretary or the Secretary of Agri-
17 culture, as appropriate, of reviewing and approving or dis-
18 approving such transfer, assignment, or sale, as deter-
19 mined by the Secretary of the Interior.

20 **SEC. 304. OPERATIONS PERMIT.**

21 (a) OPERATIONS PERMIT.—(1) Any claim holder that
22 is in compliance with the general mining laws and section
23 103 of this Act may apply to the Secretary, or for National
24 Forest System lands, the Secretary of Agriculture, for an

1 operations permit authorizing the claim holder to carry
2 out mineral activities, other than casual use, on—

3 (A) any valid mining claim, valid millsite claim,
4 or valid tunnel site claim; and

5 (B) such additional Federal land as the Sec-
6 retary may determine is necessary to conduct the
7 proposed mineral activities, if the operator obtains a
8 right-of-way permit for use of such additional lands
9 under title V of the Federal Land Policy and Man-
10 agement Act of 1976 (43 U.S.C. 1761 et seq.) and
11 agrees to pay all fees required under that title for
12 the permit under that title.

13 (2) If the Secretary decides to issue such permit, the
14 permit shall include such terms and conditions as pre-
15 scribed by such Secretary to carry out this title.

16 (b) PERMIT APPLICATION REQUIREMENTS.—An ap-
17 plication for an operations permit under this section shall
18 be submitted in a manner satisfactory to the Secretary
19 concerned and shall contain site characterization data, an
20 operations plan, a reclamation plan, monitoring plans,
21 long-term maintenance plans, to the extent necessary, and
22 such documentation as necessary to ensure compliance
23 with applicable Federal and State environmental laws and
24 regulations. If the proposed mineral activities will be car-
25 ried out in conjunction with mineral activities on adjacent

1 non-Federal lands, information on the location and nature
2 of such operations may be required by the Secretary.

3 (c) PERMIT ISSUANCE OR DENIAL.—(1) After pro-
4 viding for public participation pursuant to subsection (i),
5 the Secretary, or for National Forest System lands the
6 Secretary of Agriculture, shall issue an operations permit
7 if such Secretary makes each of the following determina-
8 tions in writing, and shall deny a permit if such Secretary
9 finds that the application and applicant do not fully meet
10 the following requirements:

11 (A) The permit application, including the site
12 characterization data, operations plan, and reclama-
13 tion plan, are complete and accurate and sufficient
14 for developing a good understanding of the antici-
15 pated impacts of the mineral activities and the effec-
16 tiveness of proposed mitigation and control.

17 (B) The applicant has demonstrated that the
18 proposed reclamation in the operation and reclama-
19 tion plan can be and is likely to be accomplished by
20 the applicant and will not cause undue degradation.

21 (C) The condition of the land, including the fish
22 and wildlife resources and habitat contained thereon,
23 after the completion of mineral activities and final
24 reclamation, will conform to the land use plan appli-

1 cable to the area subject to mineral activities and
2 are returned to a productive use.

3 (D) The area subject to the proposed plan is
4 open to location for the types of mineral activities
5 proposed.

6 (E) The proposed operation has been designed
7 to prevent material damage to the hydrologic bal-
8 ance outside the permit area.

9 (F) The applicant will fully comply with the re-
10 quirements of section 306 (relating to financial as-
11 surance) prior to the initiation of operations.

12 (G) Neither the applicant nor operator, nor any
13 subsidiary, affiliate, or person controlled by or under
14 common control with the applicant or operator, is in-
15 eligible to receive a permit under section 305.

16 (H) The reclamation plan demonstrates that 10
17 years following mine closure, no treatment of surface
18 or ground water for carcinogens or toxins will be re-
19 quired to meet water quality standards at the point
20 of discharge.

21 (2) With respect to any activities specified in the rec-
22 lamation plan referred to in subsection (b) that constitutes
23 a removal or remedial action under section 101 of the
24 Comprehensive Environmental Response, Compensation,
25 and Liability Act of 1980 (42 U.S.C. 9601 et seq.), the

1 Secretary shall consult with the Administrator of the En-
2 vironmental Protection Agency prior to the issuance of an
3 operations permit. The Administrator shall ensure that
4 the reclamation plan does not require activities that would
5 increase the costs or likelihood of removal or remedial ac-
6 tions under the Comprehensive Environmental Response,
7 Compensation, and Liability Act of 1980 (42 U.S.C. 9601
8 et seq.) or corrective actions under the Solid Waste Dis-
9 posal Act (42 U.S.C. 6901 et seq.).

10 (d) TERM OF PERMIT; RENEWAL.—

11 (1) An operations permit—

12 (A) shall be for a term that is no longer
13 than the shorter of—

14 (i) the period necessary to accomplish
15 the proposed mineral activities subject to
16 the permit; and

17 (ii) 20 years; and

18 (B) shall be renewed for an additional 20-
19 year period if the operation is in compliance
20 with the requirements of this Act and other ap-
21 plicable law.

22 (2) Failure by the operator to commence min-
23 eral activities within 2 years of the date scheduled
24 in an operations permit shall require a modification
25 of the permit if the Secretary concerned determines

1 that modifications are necessary to comply with sec-
2 tion 201.

3 (e) PERMIT MODIFICATION.—

4 (1) During the term of an operations permit
5 the operator may submit an application to modify
6 the permit (including the operations plan or rec-
7 lamation plan, or both).

8 (2) The Secretary, or for National Forest Sys-
9 tem lands the Secretary of Agriculture, may, at any
10 time, require reasonable modification to any oper-
11 ations plan or reclamation plan upon a determina-
12 tion that the requirements of this Act cannot be met
13 if the plan is followed as approved. Such determina-
14 tion shall be based on a written finding and subject
15 to public notice and hearing requirements estab-
16 lished by the Secretary concerned.

17 (3) A permit modification is required before
18 changes are made to the approved plan of oper-
19 ations, or if unanticipated events or conditions exist
20 on the mine site, including in the case of—

21 (A) development of acid or toxic drainage;

22 (B) loss of springs or water supplies;

23 (C) water quantity, water quality, or other
24 resulting water impacts that are significantly

1 different than those predicted in the applica-
2 tion;

3 (D) the need for long-term water treat-
4 ment;

5 (E) significant reclamation difficulties or
6 reclamation failure;

7 (F) the discovery of significant scientific,
8 cultural, or biological resources that were not
9 addressed in the original plan; or

10 (G) the discovery of hazards to public safe-
11 ty.

12 (f) TEMPORARY CESSATION OF OPERATIONS.—(1)

13 An operator conducting mineral activities under an oper-
14 ations permit in effect under this title may not temporarily
15 cease mineral activities for a period greater than 180 days
16 unless the Secretary concerned has approved such tem-
17 porary cessation or unless the temporary cessation is per-
18 mitted under the original permit. Any operator tempo-
19 rarily ceasing mineral activities for a period greater than
20 90 days under an operations permit issued before the date
21 of the enactment of this Act shall submit, before the expi-
22 ration of such 90-day period, a complete application for
23 temporary cessation of operations to the Secretary con-
24 cerned for approval unless the temporary cessation is per-
25 mitted under the original permit.

1 (2) An application for approval of temporary ces-
2 sation of operations shall include such information re-
3 quired under subsection (b) and any other provisions pre-
4 scribed by the Secretary concerned to minimize impacts
5 on the environment. After receipt of a complete applica-
6 tion for temporary cessation of operations such Secretary
7 shall conduct an inspection of the area for which tem-
8 porary cessation of operations has been requested.

9 (3) To approve an application for temporary ces-
10 sation of operations, the Secretary concerned shall make
11 each of the following determinations:

12 (A) A determination that the methods for se-
13 curing surface facilities and restricting access to the
14 permit area, or relevant portions thereof, will effec-
15 tively ensure against hazards to the health and safe-
16 ty of the public and fish and wildlife.

17 (B) A determination that reclamation is in com-
18 pliance with the approved reclamation plan, except
19 in those areas specifically designated in the applica-
20 tion for temporary cessation of operations for which
21 a delay in meeting such standards is necessary to fa-
22 cilitate the resumption of operations.

23 (C) A determination that the amount of finan-
24 cial assurance filed with the permit application is
25 sufficient to assure completion of the reclamation ac-

1 activities identified in the approved reclamation plan in
2 the event of forfeiture.

3 (D) A determination that any outstanding no-
4 tices of violation and cessation orders incurred in
5 connection with the plan for which temporary ces-
6 sation is being requested are either stayed pursuant
7 to an administrative or judicial appeal proceeding or
8 are in the process of being abated to the satisfaction
9 of the Secretary concerned.

10 (g) PERMIT REVIEWS.—The Secretary, or for Na-
11 tional Forest System lands the Secretary of Agriculture,
12 shall review each permit issued under this section every
13 10 years during the term of such permit, shall provide
14 public notice of the permit review, and, based upon a writ-
15 ten finding, such Secretary shall require the operator to
16 take such actions as the Secretary deems necessary to as-
17 sure that mineral activities conform to the permit, includ-
18 ing adjustment of financial assurance requirements.

19 (h) TRANSFER, ASSIGNMENT, OR SALE OF
20 RIGHTS.—(1) No transfer, assignment, or sale of rights
21 granted by a permit under this section shall be made with-
22 out the prior written approval of the Secretary, or for Na-
23 tional Forest System lands the Secretary of Agriculture.

24 (2) The Secretary, or for National Forest System
25 lands, the Secretary of Agriculture, may allow a person

1 holding a permit to transfer, assign, or sell rights under
2 the permit to a successor, if such Secretary finds, in writ-
3 ing, that the successor—

4 (A) has submitted information required and is
5 eligible to receive a permit in accordance with sec-
6 tion 305;

7 (B) has submitted evidence of financial assur-
8 ance satisfactory under section 306; and

9 (C) meets any other requirements specified by
10 such Secretary.

11 (3) The successor in interest shall assume the liability
12 and reclamation responsibilities established by the existing
13 permit and shall conduct the mineral activities in full com-
14 pliance with this Act, and the terms and conditions of the
15 permit as in effect at the time of transfer, assignment,
16 or sale.

17 (4) Each application for approval of a permit trans-
18 fer, assignment, or sale pursuant to this subsection shall
19 be accompanied by a fee payable to the Secretary of the
20 Interior, or for National Forest System lands, the Sec-
21 retary of Agriculture, in such amount as may be estab-
22 lished by such Secretary, or for National Forest System
23 lands, by the Secretary of Agriculture. Such amount shall
24 be equal to the actual or anticipated cost to the Secretary
25 or, for National Forest System lands, to the Secretary of

1 Agriculture, of reviewing and approving or disapproving
2 such transfer, assignment, or sale, as determined by such
3 Secretary.

4 (i) PUBLIC PARTICIPATION.—The Secretary of the
5 Interior and the Secretary of Agriculture shall jointly pro-
6 mulgate regulations to ensure transparency and public
7 participation in permit decisions required under this Act,
8 consistent with any requirements that apply to such deci-
9 sions under section 102 of the National Environmental
10 Policy Act of 1969 (42 U.S.C. 4332).

11 **SEC. 305. PERSONS INELIGIBLE FOR PERMITS.**

12 (a) CURRENT VIOLATIONS.—Unless corrective action
13 has been taken in accordance with subsection (c), no per-
14 mit under this title shall be issued or transferred to an
15 applicant if the applicant or any agent of the applicant,
16 the operator (if different than the applicant) of the claim
17 concerned, any claim holder (if different than the appli-
18 cant) of the claim concerned, or any affiliate or officer
19 or director of the applicant is currently in violation of any
20 of the following:

21 (1) A provision of this Act or any regulation
22 under this Act.

23 (2) An applicable State or Federal toxic sub-
24 stance, solid waste, air, water quality, or fish and
25 wildlife conservation law or regulation at any site

1 where mining, beneficiation, or processing activities
2 are occurring or have occurred.

3 (3) The Surface Mining Control and Reclama-
4 tion Act of 1977 (30 U.S.C. 1201 et seq.) or any
5 regulation implementing that Act at any site where
6 surface coal mining operations have occurred or are
7 occurring.

8 (b) SUSPENSION.—The Secretary, or for National
9 Forest System lands the Secretary of Agriculture, shall
10 suspend an operations permit, in whole or in part, if such
11 Secretary determines that any of the entities described in
12 subsection (a) were in violation of any requirement listed
13 in subsection (a) at the time the permit was issued.

14 (c) CORRECTION.—(1) The Secretary, or for National
15 Forest System lands the Secretary of Agriculture, may
16 issue or reinstate a permit under this title if the applicant
17 submits proof that the violation referred to in subsection
18 (a) or (b) has been corrected or is in the process of being
19 corrected to the satisfaction of such Secretary and the reg-
20 ulatory authority involved or if the applicant submits proof
21 that the violator has filed and is presently pursuing, a di-
22 rect administrative or judicial appeal to contest the exist-
23 ence of the violation. For purposes of this section, an ap-
24 peal of any applicant's relationship to an affiliate shall not

1 constitute a direct administrative or judicial appeal to con-
2 test the existence of the violation.

3 (2) Any permit which is issued or reinstated based
4 upon proof submitted under this subsection shall be condi-
5 tionally approved or conditionally reinstated, as the case
6 may be. If the violation is not successfully abated or the
7 violation is upheld on appeal, the permit shall be sus-
8 pended or revoked.

9 (d) PATTERN OF WILLFUL VIOLATIONS.—No permit
10 under this Act may be issued to any applicant if there
11 is a demonstrated pattern of willful violations of the envi-
12 ronmental protection requirements of this Act by the ap-
13 plicant, any affiliate of the applicant, or the operator or
14 claim holder if different than the applicant.

15 **SEC. 306. FINANCIAL ASSURANCE.**

16 (a) FINANCIAL ASSURANCE REQUIRED.—(1) After a
17 permit is issued under this title and before any exploration
18 or operations begin under the permit, the operator shall
19 file with the Secretary, or for National Forest System
20 lands the Secretary of Agriculture, evidence of financial
21 assurance payable to the United States. The financial as-
22 surance shall be provided in the form of a surety bond,
23 a trust fund, letters of credits, government securities, cer-
24 tificates of deposit, cash, or an equivalent form approved
25 by such Secretary.

1 (2) The financial assurance shall cover all lands with-
2 in the initial permit area and all affected waters that may
3 require restoration, treatment, or other management as a
4 result of mineral activities, and shall be extended to cover
5 all lands and waters added pursuant to any permit modi-
6 fication made under section 303(f) (relating to exploration
7 permits) or section 304(e) (relating to operations per-
8 mits), or affected by mineral activities.

9 (b) AMOUNT.—The amount of the financial assur-
10 ance required under this section shall be sufficient to as-
11 sure the completion of reclamation and restoration satis-
12 fying the requirements of this Act if the work were to be
13 performed by the Secretary concerned in the event of for-
14 feiture, including the construction and maintenance costs
15 for any treatment facilities necessary to meet Federal and
16 State environmental requirements. The calculation of such
17 amount shall take into account the maximum level of fi-
18 nancial exposure which shall arise during the mineral ac-
19 tivity and administrative costs associated with a govern-
20 ment agency reclaiming the site.

21 (c) DURATION.—The financial assurance required
22 under this section shall be held for the duration of the
23 mineral activities and for an additional period to cover the
24 operator's responsibility for reclamation, restoration, and

1 long-term maintenance, and effluent treatment as speci-
2 fied in subsection (g).

3 (d) ADJUSTMENTS.—The amount of the financial as-
4 surance and the terms of the acceptance of the assurance
5 may be adjusted by the Secretary concerned from time to
6 time as the area requiring coverage is increased or de-
7 creased, or where the costs of reclamation or treatment
8 change, or pursuant to section 304(f) (relating to tem-
9 porary cessation of operations), but the financial assur-
10 ance shall otherwise be in compliance with this section.
11 The Secretary concerned shall review the financial guar-
12 antee every 3 years and as part of the permit application
13 review under section 304(c).

14 (e) RELEASE.—Upon request, and after notice and
15 opportunity for public comment, and after inspection by
16 the Secretary, or for National Forest System lands, the
17 Secretary of Agriculture, such Secretary may, after con-
18 sultation with the Administrator of the Environmental
19 Protection Agency, release in whole or in part the financial
20 assurance required under this section if the Secretary
21 makes both of the following determinations:

22 (1) A determination that reclamation or res-
23 toration covered by the financial assurance has been
24 accomplished as required by this Act.

1 (2) A determination that the terms and condi-
2 tions of any other applicable Federal requirements,
3 and State requirements applicable pursuant to coop-
4 erative agreements under section 308, have been ful-
5 filled.

6 (f) RELEASE SCHEDULE.—The release referred to in
7 subsection (e) shall be according to the following schedule:

8 (1) After the operator has completed any re-
9 quired backfilling, regrading, and drainage control of
10 an area subject to mineral activities and covered by
11 the financial assurance, and has commenced revege-
12 tation on the regraded areas subject to mineral ac-
13 tivities in accordance with the approved plan, that
14 portion of the total financial assurance secured for
15 the area subject to mineral activities attributable to
16 the completed activities may be released except that
17 sufficient assurance must be retained to address
18 other required reclamation and restoration needs
19 and to assure the long-term success of the revegeta-
20 tion.

21 (2) After the operator has completed success-
22 fully all remaining mineral activities and reclamation
23 activities and all requirements of the operations plan
24 and the reclamation plan, and all other requirements

1 of this Act have been fully met, the remaining por-
2 tion of the financial assurance may be released.

3 During the period following release of the financial assur-
4 ance as specified in paragraph (1), until the remaining
5 portion of the financial assurance is released as provided
6 in paragraph (2), the operator shall be required to comply
7 with the permit issued under this title.

8 (g) EFFLUENT.—Notwithstanding section 307(b)(4),
9 where any discharge or other water-related condition re-
10 sulting from the mineral activities requires treatment in
11 order to meet the applicable effluent limitations and water
12 quality standards, the financial assurance shall include the
13 estimated cost of maintaining such treatment for the pro-
14 jected period that will be needed after the cessation of
15 mineral activities. The portion of the financial assurance
16 attributable to such estimated cost of treatment shall not
17 be released until the discharge has ceased for a period of
18 5 years, as determined by ongoing monitoring and testing,
19 or, if the discharge continues, until the operator has met
20 all applicable effluent limitations and water quality stand-
21 ards for 5 full years without treatment.

22 (h) ENVIRONMENTAL HAZARDS.—If the Secretary,
23 or for National Forest System lands, the Secretary of Ag-
24 riculture, determines, after final release of financial assur-
25 ance, that an environmental hazard resulting from the

1 mineral activities exists, or the terms and conditions of
2 the explorations or operations permit of this Act were not
3 fulfilled in fact at the time of release, such Secretary shall
4 issue an order under section 506 requiring the claim hold-
5 er or operator (or any person who controls the claim hold-
6 er or operator) to correct the condition such that applica-
7 ble laws and regulations and any conditions from the plan
8 of operations are met.

9 **SEC. 307. OPERATION AND RECLAMATION.**

10 (a) GENERAL RULE.—(1) The operator shall restore
11 lands subject to mineral activities carried out under a per-
12 mit issued under this title to a condition capable of sup-
13 porting—

14 (A) the uses which such lands were capable of
15 supporting prior to surface disturbance by the oper-
16 ator, or

17 (B) other beneficial uses which conform to ap-
18 plicable land use plans as determined by the Sec-
19 retary, or for National Forest System lands, the
20 Secretary of Agriculture.

21 (2) Reclamation shall proceed as contemporaneously
22 as practicable with the conduct of mineral activities. In
23 the case of a cessation of mineral activities beyond that
24 provided for as a temporary cessation under this Act, rec-
25 lamation activities shall begin immediately.

1 (b) OPERATION AND RECLAMATION STANDARDS.—

2 The Secretary of the Interior and the Secretary of Agri-
3 culture shall jointly promulgate regulations that establish
4 operation and reclamation standards for mineral activities
5 permitted under this Act. The Secretaries may determine
6 whether outcome-based performance standards or tech-
7 nology-based design standards are most appropriate. The
8 regulations shall address the following:

9 (1) Segregation, protection, and replacement of
10 topsoil or other suitable growth medium, and the
11 prevention, where possible, of soil contamination.

12 (2) Maintenance of the stability of all surface
13 areas.

14 (3) Control of sediments to prevent erosion and
15 manage drainage.

16 (4) Minimization of the formation and migra-
17 tion of acidic, alkaline, metal-bearing, or other dele-
18 terious leachate.

19 (5) Reduction of the visual impact of mineral
20 activities to the surrounding topography, including
21 as necessary pit backfill.

22 (6) Establishment of a diverse, effective, and
23 permanent vegetative cover of the same seasonal va-
24 riety native to the area affected by mineral activities,

1 and equal in extent of cover to the natural vegeta-
2 tion of the area.

3 (7) Design and maintenance of leach oper-
4 ations, impoundments, and excess waste according to
5 standard engineering standards to achieve and main-
6 tain stability and reclamation of the site.

7 (8) Removal of structures and roads and seal-
8 ing of drill holes.

9 (9) Restoration of, or mitigation for, fish and
10 wildlife habitat disturbed by mineral activities.

11 (10) Preservation of cultural, paleontological,
12 and cave resources.

13 (11) Prevention and suppression of fire in the
14 area of mineral activities.

15 (c) SURFACE OR GROUNDWATER WITHDRAWALS.—

16 The Secretary shall work with State and local govern-
17 ments with authority over the allocation and use of surface
18 and groundwater in the area around the mine site as nec-
19 essary to ensure that any surface or groundwater with-
20 draws made as a result of mining activities approved
21 under this section do not cause undue degradation.

22 (d) SPECIAL RULE.—Reclamation activities for a
23 mining claim that has been forfeited, relinquished, or
24 lapsed, or a plan that has expired or been revoked or sus-
25 pended, shall continue subject to review and approval by

1 the Secretary, or for National Forest System lands the
2 Secretary of Agriculture.

3 **SEC. 308. STATE LAW AND REGULATION.**

4 (a) STATE LAW.—(1) Any reclamation, land use, en-
5 vironmental, or public health protection standard or re-
6 quirement in State law or regulation that meets or exceeds
7 the requirements of this Act shall not be construed to be
8 inconsistent with any such standard.

9 (2) Any bonding standard or requirement in State
10 law or regulation that meets or exceeds the requirements
11 of this Act shall not be construed to be inconsistent with
12 such requirements.

13 (3) Any inspection standard or requirement in State
14 law or regulation that meets or exceeds the requirements
15 of this Act shall not be construed to be inconsistent with
16 such requirements.

17 (b) APPLICABILITY OF OTHER STATE REQUIRE-
18 MENTS.—(1) Nothing in this Act shall be construed as af-
19 fecting any toxic substance, solid waste, or air or water
20 quality, standard or requirement of any State, county,
21 local, or tribal law or regulation, which may be applicable
22 to mineral activities on lands subject to this Act.

23 (2) Nothing in this Act shall be construed as affecting
24 in any way the right of any person to enforce or protect,
25 under applicable law, such person's interest in water re-

1 sources affected by mineral activities on lands subject to
2 this Act.

3 (c) COOPERATIVE AGREEMENTS.—(1) Any State
4 may enter into a cooperative agreement with the Sec-
5 retary, or for National Forest System lands the Secretary
6 of Agriculture, for the purposes of such Secretary applying
7 such standards and requirements referred to in subsection
8 (a) and subsection (b) to mineral activities or reclamation
9 on lands subject to this Act.

10 (2) In such instances where the proposed mineral ac-
11 tivities would affect lands not subject to this Act in addi-
12 tion to lands subject to this Act, in order to approve a
13 plan of operations the Secretary concerned shall enter into
14 a cooperative agreement with the State that sets forth a
15 common regulatory framework consistent with the require-
16 ments of this Act for the purposes of such plan of oper-
17 ations. Any such common regulatory framework shall not
18 negate the authority of the Federal Government to inde-
19 pendently inspect mines and operations and bring enforce-
20 ment actions for violations.

21 (3) The Secretary concerned shall not enter into a
22 cooperative agreement with any State under this section
23 until after notice in the Federal Register and opportunity
24 for public comment and hearing.

1 (d) PRIOR AGREEMENTS.—Any cooperative agree-
2 ment or such other understanding between the Secretary
3 concerned and any State, or political subdivision thereof,
4 relating to the management of mineral activities on lands
5 subject to this Act that was in existence on the date of
6 enactment of this Act may only continue in force until 1
7 year after the date of enactment of this Act. During such
8 1-year period, the State and the Secretary shall review the
9 terms of the agreement and make changes that are nec-
10 essary to be consistent with this Act.

11 **SEC. 309. LIMITATION ON THE ISSUANCE OF PERMITS.**

12 No permit shall be issued under this title that author-
13 izes mineral activities that would impair the land or re-
14 sources of a National Park or a National Monument. For
15 purposes of this section, the term “impair” shall include
16 any diminution of the affected land including wildlife, sce-
17 nic assets, water resources, air quality, and acoustic quali-
18 ties, or other changes that would impair a citizen’s experi-
19 ence at the National Park or National Monument.

17 United States of comparable maturities.

18 (c) ADMINISTRATION.—In addition to other uses au-
19 thorized by this title, the Secretary may use amounts in
20 the Fund as necessary for the administrative expenses of

13 the National Park Service, the Director of the
14 United States Fish and Wildlife Service, the
15 head of any other Federal agency, or any public
16 entity that volunteers to develop and imple-

24 (b) ALLOCATION.—Of the amounts deposited into the
25 Account—

1 (1) 25 percent shall be allocated by the Sec-
2 retary for expenditure in States or on tribal lands
3 within the boundaries of which occurs production of
4 hardrock minerals or mineral concentrates or prod-
5 ucts derived from hardrock minerals, based on a for-
6 mula reflecting existing production in each such
7 State or on the land of the Indian tribe;

8 (2) 25 percent shall be allocated for expenditure
9 by the Secretary in States or on tribal lands based
10 on a formula reflecting the quantity of hardrock
11 minerals, or mineral concentrates or products de-
12 rived from hardrock minerals, historically produced
13 in each such State or from the land of the Indian
14 tribe before the date of enactment of this Act; and

15 (3) 50 percent shall be allocated for expenditure
16 by the Secretary to address high-priority needs ac-
17 cording to the priorities in subsection (c).

18 (c) PRIORITIES.—Expenditures of moneys from the
19 Account shall reflect the following priorities in the order
20 stated:

21 (1) The protection of public health and safety

23 past mineral activities, especially as relates to sur-
24 face water and ground water contaminants.

1 (2) The protection of public health and safety

16 tion, and Liability Act of 1980 (42 U.S.C. 9601), shall
17 be conducted with the concurrence of the Administrator
18 of the Environmental Protection Agency. The Secretary
19 and the Administrator shall enter into a memorandum of
20 understanding to establish procedures for consultation,
21 concurrence, training, exchange of technical expertise, and
22 joint activities under the appropriate circumstances, that
23 provide assurances that reclamation or restoration activi-
24 ties under this subtitle shall not be conducted in a manner
25 that increases the costs or likelihood of removal or reme-

1 dial actions under the Comprehensive Environmental Re-
2 sponse, Compensation, and Liability Act of 1980 (42
3 U.S.C. 9601 et seq.), and that avoid oversight by multiple
4 agencies to the maximum extent practicable.

5 **SEC. 412. ELIGIBLE LANDS AND WATERS.**

6 (a) **ELIGIBILITY.**—Reclamation expenditures under
7 this subtitle may only be made with respect to Federal,

10 traverse or are contiguous to such lands, including any
11 of the following:

12 (1) Lands and water resources that were used
13 for, or affected by, mineral activities and abandoned
14 or left in an inadequate reclamation status before
15 the effective date of this Act.

16 (2) Lands for which the Secretary makes a de-
17 termination that there is no continuing reclamation
18 responsibility of a claim holder, operator, or other
19 person who abandoned the site prior to completion
20 of required reclamation under State or other Federal
21 laws.

22 (b) **SPECIFIC SITES AND AREAS NOT ELIGIBLE.**—
23 Sites and areas designated for remedial action pursuant
24 to the Uranium Mill Tailings Radiation Control Act of

2 expenditures from the Account under this section.

3 (c) INVENTORY.—The Secretary shall prepare and
4 maintain a publicly available inventory of abandoned
5 hardrock minerals mines on public lands and any aban-

6 minerals from mining claims located under the general
7 mining laws and maintained in compliance with this Act,
8 or mineral concentrates or products derived from locatable
9 minerals from mining claims located under the general
10 mining laws and maintained in compliance with this Act,
11 as the case may be, in proportion to the amount of such

16 **Provisions**

17 **SEC. 501. POLICY FUNCTIONS.**

18 (a) MINERALS POLICY.—Section 101 of the Mining
19 and Minerals Policy Act of 1970 (30 U.S.C. 21a) is
20 amended—

21 (1) in the first sentence by inserting before the
22 period at the end the following: “and to ensure that
23 mineral extraction and processing not cause undue
24 degradation of the natural and cultural resources of
25 the public lands”; and

1 (2) by adding at the end thereof the following:

2 “It shall also be the responsibility of the Secretary
3 of Agriculture to carry out the policy provisions of
4 clauses (1) and (2) of the first paragraph of this
5 section.”.

6 (b) MINERAL DATA.—Section 5(e)(3) of the National
7 Materials and Minerals Policy, Research and Development
8 Act of 1980 (30 U.S.C. 1604(e)(3)) is amended by insert-
9 ing before the period the following: “, except that for Na-
10 tional Forest System lands the Secretary of Agriculture
11 shall promptly initiate actions to improve the availability
12 and analysis of mineral data in public land use decision-
13 making”.

14 **SEC. 502. USER FEES.**

15 (a) IN GENERAL.—The Secretary and the Secretary
16 of Agriculture may each establish and collect from persons
17 subject to the requirements of this Act such user fees as
18 may be necessary to reimburse the United States for the
19 expenses incurred in administering such requirements.
20 Fees may be assessed and collected under this section only
21 in such manner as may reasonably be expected to result
22 in an aggregate amount of the fees collected during any
23 fiscal year which does not exceed the aggregate amount
24 of administrative expenses referred to in this section.

1 (b) ADJUSTMENT.—(1) The Secretary shall adjust
2 the fees required by this section to reflect changes in the
3 Consumer Price Index published by the Bureau of Labor
4 Statistics of the Department of Labor every 5 years after
5 the date of enactment of this Act, or more frequently if
6 the Secretary determines an adjustment to be reasonable.

7 (2) The Secretary shall provide claimants notice of
8 any adjustment made under this subsection not later than
9 July 1 of any year in which the adjustment is made.

10 (3) A fee adjustment under this subsection shall
11 begin to apply the calendar year following the calendar
12 year in which it is made.

13 **SEC. 503. INSPECTION AND MONITORING.**

14 (a) INSPECTIONS.—(1) The Secretary, or for Na-
15 tional Forest System lands the Secretary of Agriculture,
16 shall make inspections of mineral activities so as to ensure
17 compliance with the requirements of this Act.

18 (2) The Secretary concerned shall establish a fre-
19 quency of inspections for mineral activities conducted
20 under a permit issued under title III, but in no event shall
21 such inspection frequency be less than one complete in-
22 spection per calendar quarter or, two per calendar quarter
23 in the case of a permit for which the Secretary concerned
24 approves an application under section 304(f) (relating to
25 temporary cessation of operations). After revegetation has

1 been established in accordance with a reclamation plan,
2 such Secretary shall conduct annually 2 complete inspec-
3 tions. Such Secretary shall have the discretion to modify
4 the inspection frequency for mineral activities that are
5 conducted on a seasonal basis. Inspections shall continue
6 under this subsection until final release of financial assur-
7 ance.

8 (3)(A) Any person who has reason to believe he or
9 she is or may be adversely affected by mineral activities
10 due to any violation of the requirements of a permit ap-
11 proved under this Act may request an inspection. The Sec-
12 retary, or for National Forest System lands the Secretary
13 of Agriculture, shall determine within 10 working days of
14 receipt of the request whether the request states a reason
15 to believe that a violation exists. If the person alleges and
16 provides reason to believe that an imminent threat to the
17 environment or danger to the health or safety of the public
18 exists, the 10-day period shall be waived and the inspec-
19 tion shall be conducted immediately. When an inspection
20 is conducted under this paragraph, the Secretary con-
21 cerned shall notify the person requesting the inspection,
22 and such person shall be allowed to accompany the Sec-
23 retary concerned or the Secretary's authorized representa-
24 tive during the inspection. The Secretary shall not incur
25 any liability for allowing such person to accompany an au-

1 thORIZED representative. The identity of the person sup-
2 plying information to the Secretary relating to a possible
3 violation or imminent danger or harm shall remain con-
4 fidential with the Secretary if so requested by that person,
5 unless that person elects to accompany an authorized rep-
6 resentative on the inspection.

7 (B) The Secretaries shall, by joint rule, establish pro-
8 cedures for the review of (i) any decision by an authorized
9 representative not to inspect; or (ii) any refusal by such
10 representative to ensure that remedial actions are taken
11 with respect to any alleged violation. The Secretary con-
12 cerned shall furnish such persons requesting the review
13 a written statement of the reasons for the Secretary's final
14 disposition of the case.

15 (b) MONITORING.—(1) The Secretary, or for Na-
16 tional Forest System lands the Secretary of Agriculture,
17 shall require all operators to develop and maintain a moni-
18 toring and evaluation system that shall identify compli-
19 ance with all requirements of a permit approved under this
20 Act. The Secretary concerned may require additional mon-
21 itoring to be conducted as necessary to assure compliance
22 with the reclamation and other environmental standards
23 of this Act. Such plan must be reviewed and approved by
24 the Secretary and shall become a part of the explorations
25 or operations permit.

1 (2) The operator shall file reports with the Secretary,
2 or for National Forest System lands the Secretary of Agri-
3 culture, on a frequency determined by the Secretary con-
4 cerned, on the results of the monitoring and evaluation
5 process, except that if the monitoring and evaluation show
6 a violation of the requirements of a permit approved under
7 this Act, it shall be reported immediately to the Secretary
8 concerned. The Secretary shall evaluate the reports sub-
9 mitted pursuant to this paragraph, and based on those
10 reports and any necessary inspection shall take enforce-
11 ment action pursuant to this section. Such reports shall
12 be maintained by the operator and by the Secretary and
13 shall be made available to the public.

14 (3) The Secretary, or for National Forest System
15 lands the Secretary of Agriculture, shall determine what
16 information shall be reported by the operator pursuant to
17 paragraph (3). A failure to report as required by the Sec-
18 retary concerned shall constitute a violation of this Act
19 and subject the operator to enforcement action pursuant
20 to section 506.

21 **SEC. 504. CITIZENS SUITS.**

22 (a) IN GENERAL.—Except as provided in subsection
23 (b), any person may commence a civil action on his or
24 her own behalf to compel compliance—

1 (1) against any person (including the Secretary
2 or the Secretary of Agriculture) who is alleged to be
3 in violation of any of the provisions of this Act or
4 any regulation promulgated pursuant to title III of
5 this Act or any term or condition of any permit
6 issued under title III of this Act; or

7 (2) against the Secretary or the Secretary of
8 Agriculture where there is alleged a failure of such
9 Secretary to perform any act or duty under this Act,
10 or to promulgate any regulation under this Act,
11 which is not within the discretion of the Secretary
12 concerned.

13 The United States district courts shall have jurisdiction
14 over actions brought under this section, without regard to
15 the amount in controversy or the citizenship of the parties,
16 including actions brought to apply any civil penalty under
17 this Act. The district courts of the United States shall
18 have jurisdiction to compel agency action unreasonably de-
19 layed, except that an action to compel agency action re-
20 viewable under section 505 may only be filed in a United
21 States district court within the circuit in which such action
22 would be reviewable under section 505.

23 (b) EXCEPTIONS.—(1) No action may be commenced
24 under subsection (a) before the end of the 60-day period
25 beginning on the date the plaintiff has given notice in writ-

1 ing of such alleged violation to the alleged violator and
2 the Secretary, or for National Forest System lands the
3 Secretary of Agriculture, except that any such action may
4 be brought immediately after such notification if the viola-
5 tion complained of constitutes an imminent threat to the
6 environment or to the health or safety of the public.

7 (2) No action may be brought against any person
8 other than the Secretary or the Secretary of Agriculture
9 under subsection (a)(1) if such Secretary has commenced
10 and is diligently prosecuting a civil or criminal action in
11 a court of the United States to require compliance.

12 (3) No action may be commenced under paragraph
13 (2) of subsection (a) against either Secretary to review any
14 rule promulgated by, or to any permit issued or denied
15 by such Secretary if such rule or permit issuance or denial
16 is judicially reviewable under section 505 or under any
17 other provision of law at any time after such promulga-
18 tion, issuance, or denial is final.

19 (c) VENUE.—Venue of all actions brought under this
20 section shall be determined in accordance with section
21 1391 of title 28, United States Code.

22 (d) COSTS.—The court, in issuing any final order in
23 any action brought pursuant to this section may award
24 costs of litigation (including attorney and expert witness
25 fees) to any party whenever the court determines such

1 award is appropriate. The court may, if a temporary re-
2 straining order or preliminary injunction is sought, require
3 the filing of a bond or equivalent security in accordance
4 with the Federal Rules of Civil Procedure.

5 (e) SAVINGS CLAUSE.—Nothing in this section shall
6 restrict any right which any person (or class of persons)
7 may have under chapter 7 of title 5, United States Code,
8 under this section, or under any other statute or common
9 law to bring an action to seek any relief against the Sec-
10 retary or the Secretary of Agriculture or against any other
11 person, including any action for any violation of this Act
12 or of any regulation or permit issued under this Act or
13 for any failure to act as required by law. Nothing in this
14 section shall affect the jurisdiction of any court under any
15 provision of title 28, United States Code, including any
16 action for any violation of this Act or of any regulation
17 or permit issued under this Act or for any failure to act
18 as required by law.

19 **SEC. 505. ADMINISTRATIVE AND JUDICIAL REVIEW.**

20 (a) REVIEW BY SECRETARY.—(1)(A) Any person
21 issued a notice of violation or cessation order under sec-
22 tion 506, or any person having an interest which is or
23 may be adversely affected by such notice or order, may
24 apply to the Secretary, or for National Forest System
25 lands the Secretary of Agriculture, for review of the notice

1 or order within 30 days after receipt thereof, or as the
2 case may be, within 30 days after such notice or order
3 is modified, vacated, or terminated.

4 (B) Any person who is subject to a penalty assessed
5 under section 506 may apply to the Secretary concerned
6 for review of the assessment within 45 days of notification
7 of such penalty.

8 (C) Any person may apply to such Secretary for re-
9 view of the decision within 30 days after it is made.

10 (D) Pending a review by the Secretary or resolution
11 of an administrative appeal, final decisions (except en-
12 forcement actions under section 506) shall be stayed.

13 (2) The Secretary concerned shall provide an oppor-
14 tunity for a public hearing at the request of any party
15 to the proceeding as specified in paragraph (1). The filing
16 of an application for review under this subsection shall not
17 operate as a stay of any order or notice issued under sec-
18 tion 506.

19 (3) For any review proceeding under this subsection,
20 the Secretary concerned shall make findings of fact and
21 shall issue a written decision incorporating therein an
22 order vacating, affirming, modifying, or terminating the
23 notice, order, or decision, or with respect to an assess-
24 ment, the amount of penalty that is warranted. Where the
25 application for review concerns a cessation order issued

1 under section 506 the Secretary concerned shall issue the
2 written decision within 30 days of the receipt of the appli-
3 cation for review or within 30 days after the conclusion
4 of any hearing referred to in paragraph (2), whichever is
5 later, unless temporary relief has been granted by the Sec-
6 retary concerned under paragraph (4).

7 (4) Pending completion of any review proceedings
8 under this subsection, the applicant may file with the Sec-
9 retary, or for National Forest System lands the Secretary
10 of Agriculture, a written request that the Secretary grant
11 temporary relief from any order issued under section 506
12 together with a detailed statement giving reasons for such
13 relief. The Secretary concerned shall expeditiously issue
14 an order or decision granting or denying such relief. The
15 Secretary concerned may grant such relief under such con-
16 ditions as he or she may prescribe only if such relief shall
17 not adversely affect the health or safety of the public or
18 cause imminent environmental harm to land, air, or water
19 resources.

20 (5) The availability of review under this subsection
21 shall not be construed to limit the operation of rights
22 under section 504 (relating to citizen suits).

23 (b) JUDICIAL REVIEW.—(1) Any final action by the
24 Secretaries of the Interior and Agriculture in promul-
25 gating regulations to implement this Act, or any other

1 final actions constituting rulemaking to implement this
2 Act, shall be subject to judicial review only in the United
3 States Court of Appeals for the District of Columbia. Any
4 action subject to judicial review under this subsection shall
5 be affirmed unless the court concludes that such action
6 is arbitrary, capricious, or otherwise inconsistent with law.
7 A petition for review of any action subject to judicial re-
8 view under this subsection shall be filed within 60 days
9 from the date of such action, or after such date if the
10 petition is based solely on grounds arising after the 60th
11 day. Any such petition may be made by any person who
12 commented or otherwise participated in the rulemaking or
13 any person who may be adversely affected by the action
14 of the Secretaries.

15 (2) Final agency action under this subsection, includ-
16 ing such final action on those matters described under
17 subsection (a), shall be subject to judicial review in accord-
18 ance with paragraph (4) and pursuant to section 1391 of
19 title 28, United States Code, on or before 60 days from
20 the date of such final action. Any action subject to judicial
21 review under this subsection shall be affirmed unless the
22 court concludes that such action is arbitrary, capricious,
23 or otherwise inconsistent with law.

24 (3) The availability of judicial review established in
25 this subsection shall not be construed to limit the oper-

1 ations of rights under section 504 (relating to citizens
2 suits).

3 (4) The court shall hear any petition or complaint
4 filed under this subsection solely on the record made be-
5 fore the Secretary or Secretaries concerned. The court
6 may affirm or vacate any order or decision or may remand
7 the proceedings to the Secretary or Secretaries for such
8 further action as it may direct.

9 (5) The commencement of a proceeding under this
10 section shall not, unless specifically ordered by the court,
11 operate as a stay of the action, order, or decision of the
12 Secretary or Secretaries concerned.

13 (c) COSTS.—Whenever a proceeding occurs under
14 subsection (a) or (b), at the request of any person, a sum
15 equal to the aggregate amount of all costs and expenses
16 (including attorney fees) as determined by the Secretary
17 or Secretaries concerned or the court to have been reason-
18 ably incurred by such person for or in connection with par-
19 ticipation in such proceedings, including any judicial re-
20 view of the proceeding, may be assessed against either
21 party as the court, in the case of judicial review, or the
22 Secretary or Secretaries concerned in the case of adminis-
23 trative proceedings, deems proper if it is determined that
24 such party prevailed in whole or in part, achieving some
25 success on the merits, and that such party made a sub-

1 stantial contribution to a full and fair determination of
2 the issues.

3 **SEC. 506. ENFORCEMENT.**

4 (a) ORDERS.—(1) If the Secretary, or for National
5 Forest System lands the Secretary of Agriculture, or an
6 authorized representative of such Secretary, determines
7 that any person is in violation of any environmental pro-
8 tection requirement under title III or any regulation
9 issued by the Secretaries to implement this Act, such Sec-
10 retary or authorized representative shall issue to such per-
11 son a notice of violation describing the violation and the
12 corrective measures to be taken. The Secretary concerned,
13 or the authorized representative of such Secretary, shall
14 provide such person with a period of time not to exceed
15 30 days to abate the violation. Such period of time may
16 be extended by the Secretary concerned upon a showing
17 of good cause by such person. If, upon the expiration of
18 time provided for such abatement, the Secretary con-
19 cerned, or the authorized representative of such Secretary,
20 finds that the violation has not been abated he or she shall
21 immediately order a cessation of all mineral activities or
22 the portion thereof relevant to the violation.

23 (2) If the Secretary concerned, or the authorized rep-
24 resentative of the Secretary concerned, determines that
25 any condition or practice exists, or that any person is in

1 violation of any requirement under a permit approved
2 under this Act, and such condition, practice or violation
3 is causing, or can reasonably be expected to cause—

4 (A) an imminent danger to the health or safety
5 of the public; or

6 (B) significant, imminent environmental harm
7 to land, air, water, or fish or wildlife resources,

8 such Secretary or authorized representative shall imme-
9 diately order a cessation of mineral activities or the por-
10 tion thereof relevant to the condition, practice, or viola-
11 tion.

12 (3)(A) A cessation order pursuant to paragraph (1)
13 or (2) shall remain in effect until such Secretary, or au-
14 thorized representative, determines that the condition,
15 practice, or violation has been abated, or until modified,
16 vacated or terminated by the Secretary or authorized rep-
17 resentative. In any such order, the Secretary or authorized
18 representative shall determine the steps necessary to abate
19 the violation in the most expeditious manner possible and
20 shall include the necessary measures in the order. The
21 Secretary concerned shall require appropriate financial as-
22 surances to ensure that the abatement obligations are met.

23 (B) Any notice or order issued pursuant to paragraph
24 (1) or (2) may be modified, vacated, or terminated by the
25 Secretary concerned or an authorized representative of

1 such Secretary. Any person to whom any such notice or
2 order is issued shall be entitled to a hearing on the record.

3 (4) If, after 30 days of the date of the order referred
4 to in paragraph (3)(A) the required abatement has not
5 occurred, the Secretary concerned shall take such alter-
6 native enforcement action against the claim holder or op-
7 erator (or any person who controls the claim holder or op-
8 erator) as will most likely bring about abatement in the
9 most expeditious manner possible. Such alternative en-
10 forcement action may include, but is not necessarily lim-
11 ited to, seeking appropriate injunctive relief to bring about
12 abatement. Nothing in this paragraph shall preclude the
13 Secretary, or for National Forest System lands the Sec-
14 retary of Agriculture, from taking alternative enforcement
15 action prior to the expiration of 30 days.

16 (5) If a claim holder or operator (or any person who
17 controls the claim holder or operator) fails to abate a vio-
18 lation or defaults on the terms of the permit, the Sec-
19 retary, or for National Forest System lands the Secretary
20 of Agriculture, shall forfeit the financial assurance for the
21 plan as necessary to ensure abatement and reclamation
22 under this Act. The Secretary concerned may prescribe
23 conditions under which a surety may perform reclamation
24 in accordance with the approved plan in lieu of forfeiture.

1 (6) The Secretary, or for National Forest System
2 lands the Secretary of Agriculture, shall not cause for-
3 feiture of the financial assurance while administrative or
4 judicial review is pending.

5 (7) In the event of forfeiture, the claim holder, oper-
6 ator, or any affiliate thereof, as appropriate as determined
7 by the Secretary by rule, shall be jointly and severally lia-
8 ble for any remaining reclamation obligations under this
9 Act.

10 (b) COMPLIANCE.—The Secretary, or for National
11 Forest System lands the Secretary of Agriculture, may re-
12 quest the Attorney General to institute a civil action for
13 relief, including a permanent or temporary injunction or
14 restraining order, or any other appropriate enforcement
15 order, including the imposition of civil penalties, in the dis-
16 trict court of the United States for the district in which
17 the mineral activities are located whenever a person—

18 (1) violates, fails, or refuses to comply with any
19 order issued by the Secretary concerned under sub-
20 section (a); or

21 (2) interferes with, hinders, or delays the Sec-
22 retary concerned in carrying out an inspection under
23 section 503.

24 Such court shall have jurisdiction to provide such relief
25 as may be appropriate. Any relief granted by the court

1 to enforce an order under paragraph (1) shall continue
2 in effect until the completion or final termination of all
3 proceedings for review of such order unless the district
4 court granting such relief sets it aside.

5 (c) DELEGATION.—Notwithstanding any other provi-
6 sion of law, the Secretary may utilize personnel of the Of-
7 fice of Surface Mining Reclamation and Enforcement to
8 ensure compliance with the requirements of this Act.

9 (d) PENALTIES.—(1) Any person who fails to comply
10 with any requirement of a permit approved under this Act
11 or any regulation issued by the Secretaries to implement
12 this Act shall be liable for a penalty of not more than
13 \$25,000 per violation. Each day of violation may be
14 deemed a separate violation for purposes of penalty assess-
15 ments.

16 (2) A person who fails to correct a violation for which
17 a cessation order has been issued under subsection (a)
18 within the period permitted for its correction shall be as-
19 sessed a civil penalty of not less than \$1,000 per violation
20 for each day during which such failure continues.

21 (3) Whenever a corporation is in violation of a re-
22 quirement of a permit approved under this Act or any reg-
23 ulation issued by the Secretaries to implement this Act
24 or fails or refuses to comply with an order issued under
25 subsection (a), any director, officer, or agent of such cor-

1 poration who knowingly authorized, ordered, or carried
2 out such violation, failure, or refusal shall be subject to
3 the same penalties as may be imposed upon the person
4 referred to in paragraph (1).

5 (e) SUSPENSIONS OR REVOCATIONS.—The Secretary,
6 or for National Forest System lands the Secretary of Agri-
7 culture, shall suspend or revoke a permit issued under title
8 III, in whole or in part, if the operator—

9 (1) knowingly made or knowingly makes any
10 false, inaccurate, or misleading material statement
11 in any mining claim, notice of location, application,
12 record, report, plan, or other document filed or re-
13 quired to be maintained under this Act;

14 (2) fails to abate a violation covered by a ces-
15 sation order issued under subsection (a);

16 (3) fails to comply with an order of the Sec-
17 retary concerned;

18 (4) refuses to permit an audit pursuant to this
19 Act;

20 (5) fails to maintain an adequate financial as-
21 surance under section 306;

22 (6) fails to pay claim maintenance fees or other
23 moneys due and owing under this Act; or

24 (7) with regard to plans conditionally approved
25 under section 305(c)(2), fails to abate a violation to

1 the satisfaction of the Secretary concerned, or if the
2 validity of the violation is upheld on the appeal
3 which formed the basis for the conditional approval.

4 (f) FALSE STATEMENTS; TAMPERING.—Any person
5 who knowingly—

6 (1) makes any false material statement, rep-
7 resentation, or certification in, or omits or conceals
8 material information from, or unlawfully alters, any
9 mining claim, notice of location, application, record,
10 report, plan, or other documents filed or required to
11 be maintained under this Act; or

12 (2) falsifies, tampers with, renders inaccurate,
13 or fails to install any monitoring device or method
14 required to be maintained under this Act,

15 shall upon conviction, be punished by a fine of not more
16 than \$10,000, or by imprisonment for not more than 2
17 years, or by both. If a conviction of a person is for a viola-
18 tion committed after a first conviction of such person
19 under this subsection, punishment shall be by a fine of
20 not more than \$20,000 per day of violation, or by impris-
21 onment of not more than 4 years, or both. Each day of
22 continuing violation may be deemed a separate violation
23 for purposes of penalty assessments.

24 (g) KNOWING VIOLATIONS.—Any person who know-
25 ingly—

21 The Secretary shall adjust all location fees, claim
22 maintenance rates, penalty amounts, and other dollar
23 amounts established in this Act for changes in the pur-
24 chasing power of the dollar no less frequently than every
25 5 years following the date of enactment of this Act, em-

1 plying the Consumer Price Index for All-Urban Con-
2 sumers published by the Department of Labor as the basis
3 for adjustment, and rounding according to the adjustment

8 ing in this Act shall be construed as repealing or modi-
9 fying any Federal law, regulation, order, or land use plan,
10 in effect prior to the date of enactment of this Act that
11 prohibits or restricts the application of the general mining
12 laws, including laws that provide for special management
13 criteria for operations under the general mining laws as
14 in effect prior to the date of enactment of this Act, to
15 the extent such laws provide for protection of natural and
16 cultural resources and the environment greater than re-
17 quired under this Act, and any such prior law shall remain
18 in force and effect with respect to claims located (or pro-
19 posed to be located) or converted under this Act. Nothing
20 in this Act shall be construed as applying to or limiting

4 (b) EFFECT ON OTHER FEDERAL LAWS.—The provi-
5 sions of this Act shall supersede the general mining laws,
6 except for those parts of the general mining laws respect-
7 ing location of mining claims that are not expressly modi-
8 fied by this Act. Except for the general mining laws, noth-
9 ing in this Act shall be construed as superseding, modi-
10 fying, amending, or repealing any provision of Federal law
11 not expressly superseded, modified, amended, or repealed
12 by this Act. Nothing in this Act shall be construed as al-

17 (c) PROTECTION OF CONSERVATION AREAS.—In
18 order to protect the resources and values of National Con-
19 servation System units, the Secretary, as appropriate,

2 Nothing in this section shall be construed so as to waive
3 the sovereign immunity of any Indian tribe.

2 inspect any motorized form of transportation that
3 such Secretary has probable cause to believe is car-

5 derived therefrom from a claim site for the purpose
6 of determining whether the operator of such vehicle
7 has documentation related to such locatable min-
8 erals, concentrates, or products derived therefrom as
9 required by law, if such documentation is required
10 under this Act; and

11 (5) may, if accompanied by any appropriate law
12 enforcement officer, or an appropriate law enforce-
13 ment officer alone, stop and inspect any motorized

16 cle is carrying locatable minerals, concentrates, or
17 products derived therefrom from a claim site on
18 Federal lands or allocated to such claim site. Such
19 inspection shall be for the purpose of determining
20 whether the operator of such vehicle has the docu-
21 mentation required by law, if such documentation is
22 required under this Act.

1 **SEC. 516. MULTIPLE MINERAL DEVELOPMENT AND SUR-**
2 **FACE RESOURCES.**

3 The provisions of sections 4 and 6 of the Act of Au-
4 gust 13, 1954 (30 U.S.C. 524 and 526), commonly known
5 as the Multiple Minerals Development Act, and the provi-
6 sions of section 4 of the Act of July 23, 1955 (30 U.S.C.
7 612), shall apply to all mining claims located under the

24 common varieties in subsection (a) and to the exception
25 to such term relating to a deposit of materials with some
26 property giving it distinct and special value, all deposits

1 of mineral materials referred to in such subsection, includ-
2 ing the block pumice referred to in such subsection, shall
3 be subject to disposal only under the terms and conditions
4 of the Materials Act of 1947.

5 “(2) For purposes of paragraph (1), the term ‘valid
6 existing rights’ means that a mining claim located for any
7 such mineral material—

8 “(A) had and still has some property giving it
9 the distinct and special value referred to in sub-
10 section (a), or as the case may be, met the definition
11 of block pumice referred to in such subsection;

17 mineral deposit within the meaning of the general
18 mining laws as in effect immediately prior to the
19 date of enactment of the Hardrock Mining Reform

21 “(D) that such claim continues to be valid
22 under this Act.”.

7 **TITLE VI—GOOD SAMARITAN**
8 **CLEANUP OF ABANDONED**
9 **HARDROCK MINES**

10 **SEC. 601. SHORT TITLE.**

11 This title may be cited as the “Good Samaritan
12 Cleanup of Abandoned Hardrock Mines Act of 2015”.

13 **SEC. 602. FINDINGS; PURPOSES.**

14 (a) FINDINGS.—Congress finds that—

15 (1) the Federal Government and State govern-
16 ments have encouraged hardrock mining in the
17 United States through a wide variety of laws, poli-
18 cies, and actions;

19 (2) mining operations produce metals and min-
20 erals that have important social benefits and values;

21 (3) many areas in the United States at which
22 historic mining operations took place are now the lo-
23 cations of inactive and abandoned mine sites;

24 (4) the mining activities that took place prior to
25 the enactment of modern environmental laws often

1 disturbed public and private land, and those disturb-
2 ances led to environmental pollution, including the
3 discharge of pollutants into surface water and
4 groundwater;

5 (5) many of the individuals and corporate own-
6 ers and operators of mines the actions of which
7 caused the pollution described in paragraph (4) are
8 no longer alive or in existence;

9 (6) many of the historic mining sites have pol-
10 luted the environment for more than a century and,
11 unless remedied, will continue to do so indefinitely;

12 (7) unabated discharges from inactive and
13 abandoned mines will continue to pollute surface
14 water, groundwater, and soils;

15 (8) many of the streams and water bodies im-
16 pacted by acid mine drainage are important re-
17 sources for fish and wildlife, recreation, drinking
18 water, agriculture, and other public purposes;

19 (9) some of the remaining owners and operators
20 of historic mine sites do not have adequate resources
21 to properly conduct the remediation of the mine sites
22 under applicable environmental laws;

23 (10) from time to time, States, individuals, and
24 companies are willing to remediate historic mine
25 sites for the public good as Good Samaritans, de-

1 spite the fact that those States, individuals, and
2 companies are not legally required to do so;

3 (11) Good Samaritan remediation activities
4 may—

5 (A) vary in size and complexity;

6 (B) reflect a myriad of methods by which
7 mine residue may be cleaned up; and

8 (C) include, among other activities—

9 (i) the removal, relocation, or manage-
10 ment of tailings or other waste piles;

11 (ii) passive or active water treatment;

12 and

13 (iii) runoff or runoff controls;

14 (12) the potential obligations, requirements,
15 and liabilities under the Federal Water Pollution
16 Control Act (33 U.S.C. 1251 et seq.) that may at-
17 tach to Good Samaritans as the result of the con-
18 duct by the Good Samaritans of remediation activi-
19 ties can dissuade potential Good Samaritans from
20 acting for the public good;

21 (13) it is in the interest of the United States,
22 the States, and local communities to remediate his-
23 toric mine sites—

24 (A) in appropriate circumstances and to
25 the maximum extent practicable; and

1 (B) so that the detrimental environmental
2 impacts of the historic mine sites are lessened
3 in the future; and

4 (14) if appropriate protections are provided to
5 Good Samaritans, Good Samaritans will have a
6 greater incentive to remediate historic mine sites for
7 the public good.

8 (b) PURPOSES.—The purposes of this title are—

9 (1) to encourage the partial or complete remedi-
10 ation of inactive and abandoned mine sites for the
11 public good by individuals or entities that are not le-
12 gally responsible for the remediation;

13 (2) to allow any individual or entity not legally
14 responsible for environmental conditions relating to
15 an inactive or abandoned mine site—

16 (A) to make further progress toward the
17 goal of meeting water quality standards in all
18 water of the United States; and

19 (B) to improve other environmental media
20 affected by past mining activities at the inactive
21 or abandoned mine site without incurring any
22 obligation or liability with respect to the Fed-
23 eral Water Pollution Control Act (33 U.S.C.
24 1251 et seq.);

1 (3) to ensure that remediation activities per-
2 formed by Good Samaritans—

3 (A) result in actual and significant envi-
4 ronmental benefits; and

5 (B) are carried out—

6 (i) with the approval and agreement,
7 and at the discretion, of affected Federal,
8 State, and tribal authorities;

9 (ii) in a manner that enables the pub-
10 lic to conduct a review of, and submit com-
11 ments relating to, the remediation activi-
12 ties; and

13 (iii) in a manner that is beneficial to
14 the environment and each community af-
15 fected by the remediation activities; and

16 (4) to further the innovations of, and coopera-
17 tion among, the Federal Government, State and
18 tribal governments, private individuals, and corpora-
19 tions to accelerate efforts relating to conservation
20 and environmental restoration.

21 **SEC. 603. SCOPE.**

22 Nothing in this title (or an amendment made by this
23 title)—

24 (1) reduces any existing liability; or
