A BILL

To support United States international cyber diplomacy, and
for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 *This Act may be cited as the “Cyber Diplomacy Act*
5 *of 2017”.*

6 **SEC. 2. FINDINGS.**

7 *Congress finds the following:*

8 *(1) The stated goal of the United States Inter-*
9 *national Strategy for Cyberspace, launched on May*
10 *16, 2011, is to “work internationally to promote an*
11 *open, interoperable, secure, and reliable information*
12 *and communications infrastructure that supports*
13 *international trade and commerce, strengthens inter-*
14 *national security, and fosters free expression and in-*
15 *novation . . . in which norms of responsible behavior*
16 *guide States’ actions, sustain partnerships, and sup-*
17 *port the rule of law in cyberspace.”.*

18 *(2) The Group of Governmental Experts (GGE)*
19 *on Developments in the Field of Information and*
20 *Telecommunications in the Context of International*
21 *Security, established by the United Nations General*
22 *Assembly, concluded in its June 24, 2013, report*
23 *“that State sovereignty and the international norms*
24 *and principles that flow from it apply to States’ con-*
25 *duct of [information and communications technology*

1 *or ICT] related activities and to their jurisdiction*
2 *over ICT infrastructure with their territory.”.*

3 (3) *On January 13, 2015, China, Kazakhstan,*
4 *Kyrgyzstan, Russia, Tajikistan, and Uzbekistan pro-*
5 *posed a troubling international code of conduct for*
6 *information security which defines responsible State*
7 *behavior in cyberspace to include “curbing the dis-*
8 *semination of information” and the “right to inde-*
9 *pendent control of information and communications*
10 *technology” when a country’s political security is*
11 *threatened.*

12 (4) *The July 22, 2015, GGE consensus report*
13 *found that, “norms of responsible State behavior can*
14 *reduce risks to international peace, security and sta-*
15 *bility.”.*

16 (5) *On September 25, 2015, the United States*
17 *and China announced a commitment “that neither*
18 *country’s government will conduct or knowingly sup-*
19 *port cyber-enabled theft of intellectual property, in-*
20 *cluding trade secrets or other confidential business in-*
21 *formation, with the intent of providing competitive*
22 *advantages to companies or commercial sectors.”.*

23 (6) *At the Antalya Summit from November 15–*
24 *16, 2015, the Group of 20 (G20) Leaders’ Commu-*
25 *nique affirmed the applicability of international law*

1 *to State behavior in cyberspace, called on States to re-*
2 *frain from cyber-enabled theft of intellectual property*
3 *for commercial gain, and endorsed the view that all*
4 *States should abide by norms of responsible behavior.*

5 *(7) The March 2016 Department of State Inter-*
6 *national Cyberspace Policy Strategy noted that, “the*
7 *Department of State anticipates a continued increase*
8 *and expansion of our cyber-focused diplomatic efforts*
9 *for the foreseeable future.”.*

10 *(8) On December 1, 2016, the Commission on*
11 *Enhancing National Cybersecurity established within*
12 *the Department of Commerce recommended “the*
13 *President should appoint an Ambassador for Cyberse-*
14 *curity to lead U.S. engagement with the international*
15 *community on cybersecurity strategies, standards,*
16 *and practices.”.*

17 *(9) The 2017 Group of 7 (G7) Declaration on*
18 *Responsible States Behavior in Cyberspace recognized*
19 *on April 11, 2017, “the urgent necessity of increased*
20 *international cooperation to promote security and*
21 *stability in cyberspace . . . consisting of the applica-*
22 *bility of existing international law to State behavior*
23 *in cyberspace, the promotion of voluntary, non-bind-*
24 *ing norms of responsible State behavior during peace-*

1 *time” and reaffirmed “that the same rights that peo-*
2 *ple have offline must also be protected online.”.*

3 (10) *In testimony before the Select Committee on*
4 *Intelligence of the Senate on May 11, 2017, the Direc-*
5 *tor of National Intelligence identified six cyber threat*
6 *actors, including Russia for “efforts to influence the*
7 *2016 US election”; China, for “actively targeting the*
8 *US Government, its allies, and US companies for*
9 *cyber espionage”; Iran for ‘leverage[ing] cyber espionage,*
10 *propaganda, and attacks to support its security*
11 *priorities, influence events and foreign perceptions,*
12 *and counter threats”; North Korea for “previously*
13 *conduct[ing] cyber-attacks against US commercial en-*
14 *tities—specifically, Sony Pictures Entertainment in*
15 *2014”; terrorists, who “use the Internet to organize,*
16 *recruit, spread propaganda, raise funds, collect intel-*
17 *ligence, inspire action by followers, and coordinate*
18 *operations”; and criminals who “are also developing*
19 *and using sophisticated cyber tools for a variety of*
20 *purposes including theft, extortion, and facilitation of*
21 *other criminal activities”.*

22 (11) *On May 11, 2017, President Trump issued*
23 *Presidential Executive Order 13800 on Strengthening*
24 *the Cybersecurity of Federal Networks and Infrastruc-*
25 *ture which designated the Secretary of State to lead*

1 *an interagency effort to develop strategic options for*
2 *the President to deter adversaries from cyber threats*
3 *and an engagement strategy for international co-*
4 *operation in cybersecurity, noting that “the United*
5 *States is especially dependent on a globally secure*
6 *and resilient internet and must work with allies and*
7 *other partners” toward maintaining “the policy of*
8 *the executive branch to promote an open, interoperable,*
9 *reliable, and secure internet that fosters efficiency,*
10 *innovation, communication, and economic*
11 *prosperity, while respecting privacy and guarding*
12 *against deception, fraud, and theft.”.*

13 **SEC. 3. UNITED STATES INTERNATIONAL CYBERSPACE POL-**

14 **ICY.**

15 *(a) IN GENERAL.—Congress declares that it is the pol-*
16 *icy of the United States to work internationally with allies*

19 *stakeholder model which promotes human rights, democ-*
20 *racy, and rule of law, including freedom of expression, in-*
21 *novation, communication, and economic prosperity, while*
22 *respecting privacy and guarding against deception, fraud,*
23 *and theft.*

4 *in the conduct of bilateral and multilateral relations:*

5 *(1) Clarifying the applicability of international*
6 *laws and norms, including the law of armed conflict,*
7 *to the use of ICT.*

8 *(2) Clarifying that countries that fall victim to*

10 *portionate countermeasures under international law,*
11 *provided such measures do not violate a fundamental*
12 *human right or peremptory norm.*

13 *(3) Reducing and limiting the risk of escalation*
14 *and retaliation in cyberspace, such as massive denial-*
15 *of-service attacks, damage to critical infrastructure,*
16 *or other malicious cyber activity that impairs the use*
17 *and operation of critical infrastructure that provides*
18 *services to the public.*

19 *(4) Cooperating with like-minded democratic*
20 *countries that share common values and cyberspace*
21 *policies with the United States, including respect for*
22 *human rights, democracy, and rule of law, to advance*
23 *such values and policies internationally.*

1 (5) Securing and implementing commitments on
2 responsible country behavior in cyberspace based
3 upon accepted norms, including the following:
